

State Charitable Campaign

The State Charitable Campaign (SCC) was created in 1989 and provides a vehicle for state employees to extend their public service and help improve our communities! The SCC is a combined charitable solicitation that provides employees of the State of Oklahoma with a convenient and responsible system which will allow them to contribute through payroll deduction to several fully accountable private nonprofit social, health, and welfare organizations on a voluntary basis.

The State Charitable Campaign is governed by the Oversight Committee for State Employee Charitable Contributions (OCSECC), comprised of state employee appointees. The OCSECC, acting as the campaign's board of directors, approves charities to participate, oversees campaign procedures, and contracts with a non-profit organization to manage the campaign annually.

If you or your office would like more information about the SCC, please contact Meagan Conway at the DAC:
