Advanced Practice Nurses (Advanced Registered Nurse Practitioner, Clinical Nurse Specialist and Certified Nurse Midwife) in accordance with Oklahoma Nursing Practice Act, may prescribe medications that are within the advanced practice nurses' scope of practice, under the medical direction of a supervising physician and an Exclusionary Formulary. The Exclusionary Formulary lists medications or categories of medications that shall not be prescribed by the certified advanced practice nurse with deemed prescriptive authority through the Board. This authorization shall not include dispensing drugs, but shall not preclude, subject to federal regulations, the receipt of, the signing for, or the dispensing of professional samples to patients, in accordance with the advanced practice nurse's scope of practice. The Advanced Practice Nurse with prescriptive authority shall prescribe no more than a 30-day supply for Schedule III-V drugs.

The Advanced Practice Nurse with prescriptive authority may submit to the Formulary Advisory Council a written request to amend to the Exclusionary Formulary with documentation verifying a practice-specific prescriptive standard(s). (See the *Formulary Advisory Council Procedure for Amending the Formulary* on the Oklahoma Board of Nursing's web site at: <http://www.ok.gov/nursing/prac-amndform.pdf>)
