

Non-Traditional Route to Special Education Teacher Certification

Have you thought about teaching students with special needs?

HB1233 is designed to address this concern. HB1233 provides a method for individuals to obtain a special education teacher certification. The State Board of Education will issue a one-year provisional certificate to teach in the area of mild-moderate or severe-profound disabilities grades PK-12. The teacher may renew the certificate two more times if the individual has completed at least six credit hours in a non-traditional route to certification program or toward a master's degree in special education.

This process is designed for candidates who meet the following criteria:

- ✓ Have earned any four-year degree from an Institution of Higher Education holding Regional Accreditation;
- ✓ Have a Grade Point Average of 2.75 or higher from a previous degree program;
- ✓ Have a recommendation from a representative at a school district or Institution of Higher Education;
- ✓ Pass a National Background Check;
- ✓ Commit to complete a Master's Degree or Certification in Special Education

Candidates who meet the above criteria and are interested in obtaining a non-traditional special education certification may submit an application to the State Department of Education. Candidates must then complete a 150-hour program that includes 120 hours of special education training known as "Boot Camp" and 30 hours of field experience.
