

Case Study #3 – AT Category: Mobility, Seating and Positioning (SETT)

Student (Individual) – older adult with arthritis

Environments – home, car

Tasks – mobility in and out of seating

Tools – Does the individual already have access to tools?

STEP 1: Based on S-E-T data, enter descriptors or functions needed by the student across the shaded top row - 1 descriptor per column

STEP 2: Enter promising tools in the shaded left column - 1 tool per row

STEP 3: Note whether each tool matches a descriptor by placing an “X” in each of the applicable white boxes

Descriptors 	Reduces pressure on lower body joints when seated	Allows for easier moving when rotating in/out of a seat	Reduces pressure on joints and strength needed for sitting and standing
Tools 			
Foot rest	X		
Swivel transfer cushion		X	
Uplift power seat			X
