

AGENDA
OKLAHOMA CONSERVATION COMMISSION
Oklahoma State University Agronomy Research Station
Small Grains Building (Building 616) Conference Room
318 S. August Street - Stillwater, Oklahoma
Monday, November 5, 2012 - 2:00 p.m.

1. Call to Order.
2. Roll call.
3. Discussion and possible approval of the October 1, 2012 regular meeting minutes.
4. Discussion and possible approval of Recommendations for Appointment of Conservation District Director (Exhibit #1).
5. Discussion and possible approval of Claims and Financial Statement (Exhibit #2).
6. Recognition of Ashley Rhea, Water Quality Monitoring Specialist, for 5 years of service.
7. Discussion and possible approval of the following new agreements (Exhibit #3):
 - a. Office of the Secretary of Environment (OCC-320) to create a formal mechanism to include wetland resources in the watershed planning process while building program capacity between the Commission's Non-point Source Program and Wetlands Program.
 - b. Oklahoma State University (OCC-321) to perform streambank stabilization activities in the Illinois River watershed.
8. Out of State Travel Requests (Exhibit #4):

Discussion and possible ratification of the following previously approved request:

 - a. Coastal Development Strategies Conference - 13th Annual Smart Growth Conference, November 6-8, 2012, Biloxi, Mississippi.

Discussion and possible approval of the following new requests:

 - b. National Association of Conservation Districts Annual Meeting, January 27-30, 2013, San Antonio, Texas.
9. Presentations by Oklahoma State University conservation partners.
10. Discussion and possible approval to co-sponsor the Oklahoma Association of Conservation Districts Annual Meeting, February 24-26, 2013, Reed Conference Center, Midwest City, Oklahoma.
11. Discussion and possible approval of the Conservation Commission regularly scheduled meetings for Calendar Year 2013 (Exhibit #5).

12. Discussion and possible approval of the FY2013-2018 Strategic Plan (Exhibit #6).
13. New Business.
14. Partnership Status Reports:
 - a. USDA-Farm Service Agency
 - b. USDA-Natural Resources Conservation Service
 - c. Oklahoma Association of Conservation Districts
 - e. Oklahoma Department of Agriculture, Food and Forestry
15. Status Reports:
 - a. Oklahoma Conservation Commission Members
 - b. Oklahoma Conservation Commission Staff
 1. Mike Thralls, Executive Director
 2. Lisa Knauf Owen, District Services Director
 3. Shanon Phillips, Water Quality Director
 4. Mike Kastl, Abandoned Mine Land Director
 5. Steve Coffman, Financial Management and Human Resources Director
 6. Mike Sharp, Office of Geographic Information and Technical Services Director
 7. Robert Toole, Conservation Programs Director
 8. Ben Pollard, Assistant Director
16. Next Meeting: December 3, 2012, Agriculture Building Board Room, 2800 N. Lincoln Boulevard, Oklahoma City, Oklahoma at 9:30 a.m.
17. Adjournment.

Note: Following adjournment, members will be participating in a reception, screening and panel discussion of The Dust Bowl, a film by Ken Burns.

MINUTES

CALL TO ORDER

The Oklahoma Conservation Commission met Monday, October 1, 2012, at the Agriculture Building Board Room located at 2800 N. Lincoln in Oklahoma City, Oklahoma. The meeting was called to order at 9:30 a.m. by Chairman Dan Lowrance. He stated this was a regularly scheduled meeting in accordance with the Open Meeting Law, Title 25, Sections 301 and following as amended. The agenda for this meeting was posted September 26, 2012, at the front entrance of the building.

ROLL CALL

Kim Tweed, Executive Secretary, took roll call and the following members were in attendance:

Dan Lowrance, Chair
Jim Grego, Vice Chair
Karl Jett, Secretary
Mike Rooker, Area 2 Member
George Stunkard, Area 3 Member

Others in attendance were:

Mike Thralls, Executive Director
Ben Pollard, Assistant Director
Sheryl Gibson, Financial Management and Human Resources Assistant Director
Robert Toole, Conservation Programs Director
Shanon Phillips, Water Quality Program Director
Mike Kastl, Abandoned Mine Land Program Director
Mike Sharp, Office of Geographic Information and Technical Services Director
Lisa Knauf Owen, District Services Director
Mark Harrison, Information Representative
Shellie Willoughby, Awards and Recognition Committee Chair
Ron Hilliard, Natural Resources Conservation Service State Conservationist
Blayne Arthur, Oklahoma Department of Agriculture, Food and Forestry Associate
Commissioner
Christie Southern, eCapitol Reporter
Kim Tweed, Executive Secretary

PLEDGE OF ALLEGIANCE

Mr. Grego led the group in the Pledge of Allegiance.

MINUTES OF PREVIOUS MEETING

A motion was made by Mr. Grego and seconded by Mr. Jett to approve the minutes of the September 10, 2012, Commission meeting as written. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried.

DISTRICT DIRECTOR RESIGNATIONS AND APPOINTMENTS

Mike Thralls, Executive Director, stated that no recommendations for appointment were received this month.

CLAIMS/FINANCIAL STATEMENT

Sheryl Gibson, Financial Management and Human Resources Assistant Director, presented the claims and financial statement as listed in Exhibit #2. Mr. Jett questioned a \$25,000 claim to the Texas County Conservation District and was informed this was a grant from the U.S. Fish and Wildlife Service for a no-till drill. A motion was made by Mr. Stunkard and seconded by Mr. Rooker to approve the claims and financial statement. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried.

RECOGNITION OF EMPLOYEE OF THE QUARTER

Ben Pollard, Assistant Director, was recognized for being named Employee of the Quarter during the recent full staff meeting.

PRESENTATION OF AGREEMENTS

Mr. Pollard presented agreements for approval as listed in Exhibit #3. He recommended ratification of these agreements as they were previously approved by Chairman Lowrance through the ratification process. Mr. Pollard stated that the final amount for agreement (f) is \$260,000. A motion was made by Mr. Grego and seconded by Mr. Stunkard to ratify the agreements as presented. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried.

OUT OF STATE TRAVEL REQUESTS

Mr. Thralls presented travel requests for approval as listed in Exhibit #4. A motion was made by Mr. Jett and seconded by Mr. Rooker to approve the requests as listed. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried.

FY2014 BUDGET REQUEST

Mr. Thralls presented the Commission's FY2014 budget request for new money priorities as listed in Exhibit #5. After discussion, a motion was made by Mr. Grego and seconded by Mr. Rooker to approve the request for new money as listed. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried.

DECLARATION OF AML EMERGENCY 201 W. BIRCH - WILBURTON PROJECT

Mike Kastl, AML Program Director, stated that an emergency was declared on a project in Wilburton, Oklahoma as listed in Exhibit #6. A motion was made by Mr. Stunkard and seconded by Mr. Jett to ratify approval of the emergency as listed. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried.

COST-SHARE PROGRAM - PROGRAM YEAR 14 SPECIAL REQUESTS

Robert Toole, Conservation Programs Director, recommended approval of the following special requests for Cost-share Program - Program Year 14:

- All conservation districts to add Clip & Cut 10-30% and Clip & Cut >30% as components to the Brush Management practice.
- Woods County Conservation District to add Submergible Pumps as a component of Pumping Plant (533).

A motion was made by Mr. Stunkard and seconded by Mr. Rooker to approve the requests as presented. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried.

ATTENDANCE AT THE FOLLOWING CONFERENCES

Members discussed attendance at the following conferences. Mr. Stunkard would like to attend the Nonpoint Source Conference. Messrs. Stunkard, Lowrance and Rooker asked to be registered for the Governor's Water Conference.

- 20th National Nonpoint Source Monitoring Workshop, October 14-17, 2012 at the Doubletree Hilton at Warren Place, Tulsa, Oklahoma.
- 3rd Annual Oklahoma Governor's Water Conference, November 13-14, 2012 at the Tulsa Marriott Southern Hills, Tulsa, Oklahoma

PUBLIC COMMENTS

None.

NEW BUSINESS

Mr. Thralls presented the following amended agreement for approval as it was brought to his attention on September 29, 2012:

Oklahoma State University to further the development of a wetlands monitoring and assessment program in Oklahoma; to lead organization of the Oklahoma Wetlands Working Group; coordinate other state and federal agencies; Amendment 1 to extend the contract to September 30, 2012.

A motion was made by Mr. Grego and seconded by Mr. Stunkard to approve the agreement. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried.

OKLAHOMA CONSERVATION COMMISSION MEMBERS

Mr. Rooker attended the Wildlife Expo held at the Lazy E Arena in Guthrie.

Mr. Grego reported on the Latimer County Conservation District new office open house.

Mr. Stunkard attended the Illinois River stabilization tour and commended the Water Quality Program staff.

Mr. Lowrance reported on attending the Commission's full staff meeting at Crowder Lake and seeing a demonstration of equipment used for watershed maintenance.

OKLAHOMA CONSERVATION COMMISSION STAFF

Administration - Executive Director: Mr. Thralls stated that NRCS State Soil Scientist Greg Scott demonstrated the rainfall simulator at the Agriculture Building recently for Agriculture and Commission employees. The demonstration will be at all OACD area meetings. Mr. Scott also demonstrated the digital soil survey.

Mr. Thralls reported on a successful full staff meeting held at Crowder Lake and congratulated Mr. Pollard on being named Employee of the Quarter. He stated that the State Charitable Campaign kick-off was held with speakers and a pie auction that raised over \$600 and thanked Ms. Tweed for heading the campaign. He thanked the Conservation Programs Division for their work with the staff meeting and the equipment demonstration. The equipment, 10 fully equipped loaders, was purchased for \$1.4 million. Three are assigned to the watershed technicians, six with watershed aides and one at-large.

Mr. Thralls attended the Pittsburg County Conservation District open house for their new building.

District Services Division: Lisa Knauf Owen, Director, reported on providing training for a new employee in Sequoyah County and working with Muskogee County to fill a vacancy. She and Mr. Thralls met with the State Forester George Geissler to discuss the FireWise Program and conservation districts assisting in promoting that program.

Ms. Owen stated that all districts have submitted audit materials for FY2012 reviews and/or audits.

Water Quality Program: Shanon Phillips, Director, stated that the Illinois River streambank stabilization project tour held in September was very successful and concludes three of the ARRA projects being administered by the water quality program. She stated that less than ten percent of the work is left to be completed on the last project and will be funded with 319 funds.

Ms. Phillips stated that staff is busy preparing for the annual National Nonpoint Source conference scheduled this month. This group pioneered the paired-watershed method used successfully by water quality to show improvement in priority watershed implementation.

Ms. Phillips stated that the end of year review with the Environmental Protection Agency went well. The EPA will be sending out new guidance designed to improve efficiencies of 319 funds which will include revising the nonpoint source management plan. Revisions to that plan will involve the Nonpoint Source Work Group and will require the Governor's approval.

Ms. Phillips reported that the program expects a ten percent cut to the nonpoint source program as a result of sequestration that goes into effect in January and staff has prepared FY2013 and FY2014 plans with the cuts written included.

Abandoned Mine Land Reclamation Program: Mr. Kastl, Director, stated there is one active site named Bacon AML project in Rogers County. He reported they are ready to set a pre-bid date for the Northeastern Oklahoma State University project in Wagoner County.

Mr. Kastl stated that Dianne Ireton, AML Administrative Officer, received the Stan Barnard Award during the recent National AML Conference. It is unprecedented that 4 staff members from one state have received the award.

Financial Management and Human Resources Division: Ms. Gibson stated that a written report was included in the packet and she yielded for questions

Office of Geographic Information and Technical Services: Mike Sharp, Director, reported on attending the National AML Conference along with 160 attendees. One of the conference highlights was hearing Iowa's Secretary of Agriculture speak and describe how Iowa is not as impacted by the drought as some states. Mr. Sharp noted Iowa has 14 million acres in corn and 9 million acres in soybeans. The group toured an ethanol plant and a limestone mine. He also reported on Ms. Ireton receiving a national award. Mr. Sharp stated that during the business meeting the discussion centered on funding. He stated that should sequestration go in effect the program would see a six to nine percent cut.

Conservation Programs Division: Robert Toole, Director, reported on the success of the recent Wildlife Expo held at the Lazy E Arena and commended Karla Beatty, Education Coordinator, and Robert Gibbs, Rogers County Conservation District Education Coordinator, for putting together the best exhibit at the expo. The expo will not be held next year due to the Department of Wildlife Conservation hosting a regional meeting.

Mr. Toole stated that the final inspection for Sugar Creek Watershed Site L-44 will be held on October 2. He also reported that with recent rains operation and maintenance activities will pick up.

Administration - Assistant Director: Mr. Pollard reported that the Commission's carbon program was recently awarded the Henry Bellmon Sustainability Award by Sustainable Tulsa and that Mr. Thralls was interviewed by Tulsa's Channel 8 about this award and the program.

Mr. Pollard stated that the Commission's webpage is being updated and solicited input from the Commission members.

Mr. Pollard reported that staff continues to work with OETA, OACD, and NRCS on the Dust Bowl film outreach events. The next events will be held in Altus on October 4, in Guymon on November 1, in Stillwater on November 5 with Congressman Frank Lucas and NRCS Chief Dave White in attendance, and in Tulsa on November 12.

Mr. Pollard reported on the privilege of representing the Commission at the funeral of former Area 5 member, E.F. Doc Coker saying the service property honored Mr. Coker's service.

OKLAHOMA ASSOCIATION OF CONSERVATION DISTRICTS

No representative present.

USDA-NATURAL RESOURCES CONSERVATION SERVICE

Ron Hilliard, State Conservationist, stated that October 1 is the beginning of the federal FY2013 and they are under a continuing resolution until March 31. Mr. Hilliard stated that NRCS has moved into new field offices in Pauls Valley, McAlester, and Wilburton.

Mr. Hilliard reported that he has been receiving congressional calls regarding the watershed program and staff.

Mr. Hilliard stated that because of the success of the rainfall simulator they will be purchasing a second one for the Woodward area. The simulator will be demonstrated in Altus and Hugo this week.

Mr. Hilliard provided an extensive written report about the NRCS programs.

DEPARTMENT OF AGRICULTURE, FOOD AND FORESTRY

Blayne Arthur, Associate Commissioner, thanked the Commission for bringing the rainfall simulator to Oklahoma City and for providing the soil survey demonstration. The APHIS division will be integrating that information into their work.

Ms. Arthur reported on the progress on delegation from EPA for the department stating that all information has been submitted and was published in the federal register on September 24 for public comments.

The Board of Agriculture held its meeting in southwestern Oklahoma and was enlightened by the stories from farmers and ranchers and the impact the drought has had on their operations.

Ms. Arthur stated that Uganda Parliament members visited Oklahoma recently to look at agriculture. She also stated that the Tulsa State Fair began and that the Made In Oklahoma booth is set up.

NEXT MEETING

The next meeting will be held on Monday, November 5, 2012 beginning at 2:00 p.m. at the Oklahoma State University Agronomy Farm, Small Grains Building Conference Room, 2902 W. 6th Street, Stillwater, Oklahoma. This will be in conjunction with the Dust Bowl event being held in Stillwater that evening.

ADJOURNMENT

There being no further business a motion was made by Mr. Grego and seconded by Mr. Jett to adjourn. Those voting aye were: Jett, Rooker, Stunkard, Lowrance and Grego. Nay votes: none. Motion carried. The meeting adjourned at 10:43 a.m.

Approved by the Oklahoma Conservation Commission on November 5, 2012.

Oklahoma Conservation Commission

Strategic Plan for Fiscal Years 2013 – 2018

2800 N Lincoln Blvd Ste 160
Oklahoma City OK 73105
(405) 521-2384
www.conservation.ok.gov

October 1, 2012

Executive Summary

Life on earth is supported by three basic resources: soil, water and air. How well we live tomorrow rests upon how carefully we manage and use these natural resources today. The Oklahoma Conservation Commission is charged with administering programs and services that conserve, protect and restore two of the three -- soil and water. The Conservation Commission delivers its programs and services through Oklahoma's 87 local conservation districts. Coupled with USDA's Natural Resources Conservation Service (NRCS), the Commission and Conservation Districts form Oklahoma's Conservation Partnership, a soil and water protection strategy as effective today in addressing issues as it was in the days following the Dust Bowl. Working land conservation, flood protection, restoration and protection of water bodies, are outcomes of the Conservation Commission's strategic plan that will improve the quality of life for current and future generations of Oklahomans.

This strategic plan represents an efficient and effective plan that is sensitive to current needs, existing trends and anticipated conditions. The two goals of the Oklahoma Conservation Commission's strategic plan --- advancing natural resource stewardship and strengthening Oklahoma's grassroots natural resources conservation delivery system --- build upon one other. To advance the stewardship of Oklahoma's natural resources in a time of fiscal austerity, we must maintain the capability of conservation districts and the Commission by increasing efficiency, sharing resources and streamlining operations. Maintaining core agency functions, with help from our partners, will continue to advance conservation of the state's soil and water resources.

Productivity of the state's working lands, and thus the assurance of a dependable and plentiful food supply is visibly enhanced with locally-led cost share. Clean water, necessary for personal wellbeing, as well as the state's economic health, is protected and polluted waters restored through priority watershed programs. Flood damage to both urban and rural infrastructure is demonstrably reduced through robust maintenance of Oklahoma's 2,100 upstream flood control dams. Protection of lives and property is assured by upgrading high hazard dams. Reclaiming dangerous abandoned coal mine sites protects the health and safety of Oklahomans. These initiatives and are the heart and soul of the Conservation Commission's mission "to conserve, protect and restore Oklahoma's natural resources working in collaboration with conservation districts and other partners, on behalf of the citizens of Oklahoma."

The accomplishment of the agency's mission occurs within the context of several business environment considerations that were assessed through the strategic planning process. While the state's economy has been impacted by the national recession, it is relatively stable because of the balance of support from oil, manufacturing and agriculture sectors. However, at the present, the agency and districts are still adjusting to a nearly 20 percent decline in general revenue appropriations over the past three years. In addition, drought conditions have compounded an already volatile agriculture economy, making farmer and rancher participation in soil and water conservation variable. Notably, there are increasing signals from EPA indication voluntary efforts may be replaced with regulation of nonpoint source pollution adding significant financial burdens to agriculture producers. It is also important to note the lack of investment to address nonpoint source pollution compared to point source pollution. In excess of \$500 million of

public funds have been spent in Oklahoma since 1972 to improve point source water treatment facilities. Similar investments must be made to successfully address nonpoint source pollution and ensure high quality water for our citizens.

The Commission's historic customer and support base has been rural and agricultural Oklahoma. Future indications are that population will continue to shift away from rural Oklahoma. Full time farmers and ranchers are becoming fewer. At the same time, the number of part time farmers and ranchers as well as small acreage ranches is increasing, thus affecting the composition of our customers. The conservation districts' and the Commission's methods of marketing programs and services must evolve to meet this growing trend. However, the message of land conservation, flood prevention, preserving water quality, and restoration of scarred lands still resonate to both rural and urban audiences. No one wants to revisit the floods and dust of the 1930's.

The most noticeable business trend within the conservation community is the steady decline in the number of employees within the NRCS workforce, coupled now with a similar decline of employee numbers in conservation districts and the Commission. Historically, the Commission and conservation districts have been dependent on NRCS technical expertise in a variety of areas. Over the past decade the Commission and districts have developed limited technical expertise. While our fundamental mission of delivering technical, financial, and educational assistance to private landowners remains, how these services will be delivered is becoming more complicated. The need for additional technical ability from districts and the Commission will grow.

Another factor to be considered is that state and federal natural resource agencies compete for the same scant financial and human resources. The same agencies which could be viewed as competitors, the Oklahoma Water Resources Board, Department of Environmental Quality, Department of Agriculture, Food and Forestry and Department of Mines are best viewed as partners. The Conservation Commission's overriding goal is to improve Oklahoma's renewable natural resources; therefore we choose to work collaboratively with sister agencies and other partners in order to maximize efficiency and effectiveness.

The current internal environment at the Oklahoma Conservation Commission is one of an agency with a "can do" attitude. At the same time the reality of limited human and financial resources is recognized. The agency has successfully adjusted core functions in order to address critical resource needs in the past. The strategic planning process has helped us identify additional changes needed to better address and focus the agency's attention on accomplishing our mission. It has also helped identify those areas needing a more prolonged period of study before further adjustments are made.

Three fundamental challenges will face this agency and her partners in the next five years: How do we ensure the continued benefits of flood protection from 2,100 aging dams, how do we continue to deliver conservation at a record pace all in the face of declining revenue to support the people delivering the dollars and how do we protect and restore water bodies impacted by nonpoint source pollution? Dams must be properly maintained so that \$81 million annually flood prevention benefits don't turn into dam failures that threaten life and property. With a federal dam rehabilitation program available, it is unreasonable to pass up federal dollars offered at the rate of two dollars for every state dollar in order to rebuild and upgrade dams turned high hazard by development below the dam. Nor does it make sense to

miss out on 4:1 federal to state funding to restore riparian buffers that in turn restore and protect Oklahoma stream water. In addition OSU analysis indicates conservation dollars multiply local economic activity at least 1.5 times, a great side benefit to investing in conservation.

This document outlines our best ongoing thoughts to assure conservation continues its core functions enhancing the wellbeing of all Oklahomans, present and future. The Commission will endeavor to emulate the example set by past conservationists, who faced challenges and overcame, so that the worthy mission of this generation of conservations, “Conserving, Protecting and Restoring Oklahoma’s Natural Resources working in collaboration with the Conservation Districts and other Partners, on behalf of the citizens of Oklahoma” remains effective and faithful.

My sincere appreciation goes to the Commissioners who govern this agency as well as the dedicated men and women in Conservation Districts, the Commission and NRCS. These are the people whose hard work, stewardship ethic, bold initiative and consistent resolve will continue the Oklahoma tradition to set the conservation standard for the nation.

Two printout copies have been deposited with the Publications Clearinghouse of the Oklahoma State Department of Libraries.

Introduction

Pursuant to Section 45.3 of Title 62, the Conservation Commission prepared an updated strategic plan for FY-2013 through FY-2018 per the Office of Management and Enterprise Services (OMES) instructions.

The Conservation Commission provides its services and programs through a delivery system that involves 52 agency employees, 87 local conservation district offices (subdivisions of state government), 435 conservation district directors, 151 local conservation district employees and over 300 employees of USDA's Natural Resources Conservation Service. This strategic plan update takes into account this unique partnership for delivering conservation programs and services.

Our goals, performance measures and action plans are focused on improving the efficiency and effectiveness of our agency and strengthening our commitment to improving the quality of life of Oklahomans.

Mission Statement

The mission of the Oklahoma Conservation Commission (OCC) is to conserve, protect and restore Oklahoma's natural resources working in collaboration with the Conservation Districts and other Partners, on behalf of the citizens of Oklahoma.

The OCC will fulfill its mission by providing:

- Tools, training and support
- Finances, legal assistance and information, technical expertise, programs, data, policies, rules, criteria, training, equipment, and people
- Leadership;
- Guidance, priorities, direction, goals and objectives, voice, accountability, coordination, feedback and dialogue
- Planning and assessment
- Public information
- Protection: human health and safety, abandoned mine lands (AML) safety, water quality (WQ), flooding, soils, wildlife, environment
- Restoration
- Education
- Liaison services between federal and state agencies and conservation districts

The OCC will fulfill its mission on behalf of the following:

- Citizens of Oklahoma
- Conservation Districts
- OCC Staff and Commissioners
- Local, State and Federal Agencies
- State Legislature
- General Public
- Private Organizations
- Flora and Fauna
- Educational Institutions
- Congress
- Tribes

VISION STATEMENT

Responsible care for Oklahoma's natural resources.

Values and Behaviors

Rules of Conduct

Personal accountability and responsibility are two core values that are seen as critical for the employees as well as the governing body of the Oklahoma Conservation Commission. Those characteristics serve as the basis for the strength of our Agency. These values, coupled with integrity, give rise to the type of behavior we desire in our business environment. The values and behaviors that are important to an organization must start on a personal, individual level for each member of the organization. When the conduct of our employees in our daily operations adheres to these values we project the image we all desire ...that of an efficient professional organization which values its human resources, demands excellence and can stand on its reputation, track record and work product at every level.

We expect our employees as well as our governing body to function with loyalty to our mission as well as reflect the leadership necessary for its success. Our staff will support leadership and our governing body by providing honest, accurate and timely information based on best professional judgment and delivered with respect and courtesy. We will strive to maintain positive, productive, professional relationships even at times when we agree to disagree.

Our staff will treat coworkers and clients with courtesy and respect. Our staff will make timeliness, communication, and quality of work products a priority. We acknowledge a wide spread workforce with varying levels of intensity in daily supervision. We acknowledge the increase in program responsibilities that have preceded and exceeded an appropriate increase in human resources. Based on the core values and behaviors mentioned above we will focus our efforts and look within our resources for creative strategies to manage human and financial resources to reach our objectives. In the face of adversity we will remember those core values and rules of conduct which will enable us to weather the storm and remain true to our mission.

Effective incorporation of these core values will create an agency image counter to the negative image sometimes attributed to state government and the bureaucracy. Such a positive image by a state agency that honors responsibility, accountability, honesty and effective communication will enhance the ability to accomplish our mission.

Long-term Goals

1. Advance the stewardship of Oklahoma’s natural resources to improve the quality of life for current and future generations.
 2. Strengthen Oklahoma’s grass roots natural resources conservation delivery system by increasing efficiency, sharing resources and streamlining operations over the next 5 years.
-

OCC Key Performance Measures And Agency Wide Action Plans

Goal 1: Advance the stewardship of Oklahoma’s natural resources to improve the quality of life for current and future generations.

KPM 1: Soil Quality

Description: Sustain or improve soil quality by increasing and diversifying the number of participants implementing best management practices through the state locally led cost share program.

Unit of Measure: # of participants – 700/yr

	Actual		Budget		Estimated
FY – 2011	526	FY – 2013	575	FY – 2014	700
FY – 2012	570			FY – 2015	700
				FY – 2016	700

				FY – 2017	700
				FY – 2018	700

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Provide at least \$1.4 million each year in state appropriated funding for the state Locally Led Cost Share Program.	X	X	X	X	X	X
Administer the LLCSP in a user-friendly, efficient and effective manner that encourages district participation. Rules – Guidelines – Training – Assistance	X	X	X	X	X	X
Collaborate with NRCS to provide technical assistance and training to CD's for certifying design and implementation of conservation practices according to NRCS standards and specification.	X	X	X	X	X	X

KPM 2: Water Quality

Description: The OCC will reduce NPS loading to streams and rivers statewide:
Units of Measure: Stream segment/Waterbody pairs removed from the 303(d) list for nonpoint source-related causes and published in EPA accepted success summaries

	Actual		Budget		Estimated
FY – 2011	8 successes	FY – 2013	5 successes	FY – 2014	5 successes
FY – 2012	11 successes			FY – 2015	5 successes
				FY – 2016	5 successes
				FY – 2017	5 successes
				FY – 2018	5 successes

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Monitor water quality, habitat, and biology in at least 250 streams in the State during a five year period through a rotating program.	X	X	X	X	X	X
Estimate Annual NPS pollutant (sediment, nitrogen and phosphorus) loading reductions to Oklahoma water bodies for reporting in the EPA Grants Reporting and Tracking System	X	X	X	X	X	X
Implement, demonstrate, and educate to remedy water quality problems associated with NPS pollution in watersheds each year, depending on resources and current needs in the priority watersheds.	X	X	X	X	X	X
Provide training for watershed coordinators and advisory group members on current methods and technologies in watershed management through seminars, symposiums, and various other training sessions.	X	X	X	X	X	X
Follow-up monitor and evaluate performance of each implementation project.	X	X	X	X	X	X
Continue to coordinate the State of Oklahoma's NPS Working Group to advise and assist in planning NPS programs to control NPS pollution through 2015.	X	X	X	X	X	X
The NPS Program will contribute to federally mandated State planning requirements including NPS components to UWA, 303(d) list, EQIP planning.	X	X	X	X	X	X
The NPS Program will contribute to and assist with the Oklahoma Water Resources Board's development of biological criteria, nutrient criteria and sediment criteria as related to water quality standards.	X	X	X	X	X	X
The NPS program will include NPS watershed planning and technical assistance to conservation districts and other entities.	X	X	X	X	X	X
Coordinate and conduct training programs, sample collection, and quality assurance activities for Blue Thumb volunteers involved in sampling stream and ground waters of the State.	X	X	X	X	X	X
Provide educational tools and technical assistance to volunteers and the conservation districts in which programs exist in order to increase the effectiveness of Blue Thumb activities in these districts.	X	X	X	X	X	X

Continually seek new volunteers as well as new partners to support Blue Thumb programs in additional Conservation Districts throughout the State.	X	X	X	X	X	X
Collaborate with NRCS, OSU, and other partners to promote initiatives which protect water quality and improve soil quality by sequestering carbon in the soil column	X	X	X	X	X	X

KPM 3: Wetlands

Description: The OCC will promote a net gain of wetlands in Oklahoma.

Unit of Measure: Net wetland acres gained

	Actual		Budget		Estimated
FY – 2011	200	FY – 2013	200	FY – 2014	200
FY – 2012	200			FY – 2015	200
				FY – 2016	200
				FY – 2017	200
				FY – 2018	200

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Coordinate the state wetlands working group to facilitate a cooperative and synergetic working effort amongst agencies, academia, conservation groups and industry. Bring additional resources to bear on wetlands conservation efforts. And provide an opportunity for information exchange in an effort to develop the State's Wetlands Program sufficient to address Oklahoma's wetlands resource management needs.	X	X	X	X	X	X
Develop tools and technical ability necessary to assess wetland restoration potential and wetland establishment success.	X	X	X	X	X	X
Develop and maintain a one-stop wetland website (including partners) to increase wetland resource awareness and promote voluntary wetland restoration. Website will provide common sense wetlands information, technical reports, current news and an active voluntary wetland registry.	X	X	X	X	X	X
Develop the necessary tools and technical ability to administer and include wetland restoration as a non-point source pollution abatement tool within the 319 NPS Program.	X	X	X	X	X	X
Promote voluntary wetland protection and restoration through a combination of technical and common sense presentations to conservation districts, conservation groups and Oklahoma citizens in general.	X	X	X	X	X	X
Develop a cooperative approach to providing wetland restoration or enhancement technical assistance to Oklahoma citizens by assembling an interagency team through the Oklahoma Wetland Technical Work Group.	X	X	X	X	X	X

KPM 4: Reduce Flooding

Description: The potential for flooding will be reduced by operating, maintaining and rehabilitating the 2,107 small watershed flood control structures throughout the state.

Unit of Measure: # of structures – 2,107/year

	Actual		Budget		Estimated
FY – 2011	2,107	FY – 2013	2,107	FY – 2014	2,107
FY - 2012	2,107			FY – 2015	2,107
				FY – 2016	2,107
				FY – 2017	2,107
				FY – 2018	2,107

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Assist 5 CD’s per year with the rehabilitation process.	X	X	X	X	X	X
Develop system, processes and tools for engaging and assisting CD’s with rehabilitation projects. Education – Assistance – Public Affairs media packet – Gov’t. Affairs strategy – Land Rights – Construction	X	X	X	X	X	X
Provide at least \$4 million in state appropriated funds for the 35% local sponsor cost share required for the federal Watershed Rehabilitation Program.	X	X	X	X	X	X
Conduct O&M workshops at least every third year for CD’s.		X			X	
Provide at least \$4 million in state appropriated funds to CD’s for O&M.	X	X	X	X	X	X
Provide technical assistance with operations and maintenance (O&M) to the 68 CD’s with structures.	X	X	X	X	X	X

KPM 5: Reclaim Scarred Lands

Description: OCC, working with conservation districts and other units of government, will reclaim abandoned mine sites that are hazardous to the public and/or degrading the environment.

Unit of Measure: # of projects and acres reclaimed

	Actual		Budget		Estimated
FY – 2011	2 – 64	FY – 2013	7 – 320	FY – 2014	4 – 150
FY – 2012	6 – 142			FY – 2015	4 – 150
				FY – 2016	4 – 150
				FY – 2017	4 – 150
				FY – 2018	4 – 150

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Administer between \$1.75 to \$5 million each year in the Federally funded abandoned mine land (AML) reclamation programs.	X	X	X	X	X	X
Collaborate with the Office of Surface Mining, U.S. Army Corps of Engineers, and other state and federal agencies in the oversight of the reclamation programs.	X	X	X	X	X	X
Design reclamation projects utilizing both the Oklahoma Conservation Commission staff and the private sector.	X	X	X	X	X	X
Permits approved by the Department of Environmental Quality	X	X	X	X	X	X
Respond to all AML emergencies within 24 hours of notification that a potential emergency exists.	X	X	X	X	X	X
Using the most cost effective methods, provide temporary and permanent vegetation on completed reclamation projects utilizing conservation districts and/or the private sector.	X	X	X	X	X	X
Field investigation of potential AML projects.	X	X	X	X	X	X

KPM 6: Conservation Education

Description: Increase the knowledge and awareness of Oklahoma’s natural resources and improve the natural resource decision making process of Oklahoma’s citizens through conservation education efforts.

Unit of Measure: # of clients reached – 65,000/yr

	Actual		Budget		Estimated
FY – 2011	83,803	FY – 2013	65,000	FY – 2014	35,000
FY – 2012	86,545			FY - 2015	65,000
				FY - 2016	35,000
				FY - 2017	65,000
				FY - 2018	35,000

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Coordinate conservation education activities among OCC’s divisions to eliminate duplication of effort and increase cooperation, coordination and networking among divisions.	X	X	X	X	X	X
Coordinate conservation education activities among state agencies as mandated in Title 27A-Section 1-3-101(F)(8) in order to eliminate duplication of effort and increase cooperation, coordination and networking among agencies.	X	X	X	X	X	X
Coordinate and conduct training programs for formal and non-formal educators on the soil, water and wetland resources in the state.	X	X	X	X	X	X
Provide educational tools and technical assistance to conservation districts in order to increase the effectiveness of district education efforts.	X	X	X	X	X	X

Goal 2: Strengthen Oklahoma’s grass roots natural resources conservation delivery system by increasing efficiency, sharing resources and streamlining operations over the next 5 years.

KPM 1: Organizational Development

Description: Identify, better utilize and pursue the human and financial resources needed to improve the efficiency and effectiveness of conservation districts and the agency.

Unit of Measure: Percent (%) of Strategic Plan actions accomplished / year.

	Actual		Budget		Estimated
FY – 2011	80%	FY – 2013	90%	FY – 2014	92%
FY – 2012	85%			FY – 2015	93%
				FY – 2016	94%
				FY – 2017	95%
				FY – 2018	95%

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Implement study to explore pros/cons of district employees becoming state employees.	X	X	X	X	X	X
Provide training and professional development opportunities to increase employee retention rates in conservation districts and the Commission.	X	X	X	X	X	X
Increase the training and leadership development opportunities available to district directors.	X	X	X	X	X	X
Increase diversity of conservation district boards by identifying and implementing improved methods of recruitment.	X	X	X	X	X	X
Improve financial management capabilities of conservation districts through mandatory training of district directors and employees.	X	X	X	X	X	X

Utilize strategic planning in the day to day operations of the agency. Review performance and make revisions as agency tasks are completed and/or agency responsibilities change.	X	X	X	X	X	X
Develop and/or improve the resources available to employees. These resources to include personnel handbook, affirmative action, employee performance evaluation, and technology.	X	X	X	X	X	X
Strengthen the existing workforce by engaging leadership development, professional development, participation in professional organizations, continued training and cross training within the agency and conservation districts.	X	X	X	X	X	X
Improve and address the workplace environment as needs and responsibilities change.	X	X	X	X	X	X
Work with legislature to identify and update Oklahoma Statutes that have an effect on OCC and conservation districts by removing agency statutory responsibilities to administer unfunded mandates.	X	X	X	X	X	X

KPM 2: Communications

Description: Improve communications with the general public, conservation districts and commission staff.

Unit of Measure: Number of People Reached

	Actual		Budget		Estimated
FY – 2011	750,000	FY – 2013	750,000	FY – 2014	750,000
FY – 2012	750,000			FY – 2015	750,000
				FY – 2016	750,000
				FY – 2017	750,000
				FY – 2018	750,000

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Facilitate the production of opinion/editorials on conservation and distribute them to state newspapers	X	X	X	X	X	X
Produce news releases on conservation activities and projects for use by conservation districts with their local newspapers and produce monthly agency newsletter to facilitate communication with districts, district directors and interested public.	X	X	X	X	X	X
Continually improve the agency's web site by adding current news features on conservation projects and activities.	X	X	X	X	X	X
Collaborate with tribal groups and participate in tribal conferences to disseminate information about conservation programs, services and resources.	X	X	X	X	X	X
Continually improve e-mail communications with conservation districts by upgrading computer hardware and software and providing training for employees.	X	X	X	X	X	X
Improve communication between the Commission and districts by increasing Commission staff presence at district board meetings and district functions.	X	X	X	X	X	X
Improve internal communications among staff by holding monthly principal staff meetings, quarterly full staff meetings, division field days, conducting joint division staff meetings, and continually upgrading the agency e-mail system.	X	X	X	X	X	X
Maintain open communications with principal conservation partners (NRCS and OACD) through a monthly teleconference and through formal and informal discussions and meetings between management teams.	X	X	X	X	X	X

KPM 3: Partnerships

Description: Enhance and expand partnerships with federal, state, local and private entities.

Unit of measure: Dollars

Success will be measured by the amount of new dollars, human resources, equipment and technology that are contributed by existing and new partners for use by the Commission and conservation districts in advancing our mission.

	Actual		Budget		Estimated
FY – 2011	\$1,854,378	FY – 2013	\$3 million	FY – 2014	\$3 million
FY – 2012	\$1,125,631			FY – 2015	\$3 million
				FY – 2016	\$3 million
				FY – 2017	\$3 million
				FY – 2018	\$3 million

Agency-wide Action Plans	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
Aggressively work with key federal partners (NRCS, EPA and OSM) to maximize federal conservation funds coming to the state and seek out other federal partners (e.g. tribes and USFWS) to identify and secure new federal conservation funds.	X	X	X	X	X	X
Actively participate in state efforts to reduce duplication and improve efficiency. Maintain a presence in the following groups: Environmental Education Coordinating Committee, the Geographic Information Systems Council, the Non-point Source Working Group, the Wetlands Working Group, and the State Water Quality Monitoring Council.	X	X	X	X	X	X
Explore ways of partnering with and accessing local governmental resources including county commissioners, municipal governments, conservancy districts and school districts.	X	X	X	X	X	X
Explore ways of partnering with and accessing resources from businesses, non-profits, and associations.	X	X	X	X	X	X

Pursue funding opportunities with new and existing partners both public and private.	X	X	X	X	X	X
Develop and implement strategy to increase efficiency while maintaining effectiveness with reduced staffing.	X	X	X	X	X	X

Business Environment Assessment

There are eight dimensions of the business environment within which the Oklahoma Conservation Commission functions that were assessed by the agency. Each is described below.

Economy

While the state's economy as well as state tax revenue has been on the rise over the past two years, appropriations to the Conservation Commission have been flat. For the past three fiscal years agency management has made cuts in operations and personnel. Fortunately the negative impacts have been buffered by an increase in federal program funds coming to the Commission. For example, the Commission managed over 20 million dollars of federal funds from the American Recovery and Reinvestment Act of 2009. These projects have been completed or will be during the current fiscal year. While these and other federal program funds have helped to make up for a portion of lost state appropriations, they will not likely be available in future years. The potential sequestration of federal funds on January 1, 2013 could also significantly impact our agency's programs and our ability to deliver conservation services at the current level. Without the restoration of the state general revenue appropriations to pre-cut levels, we anticipate that the downsizing of our workforce and operations will continue

The most critical sector of the state's economy that impacts the Commission is agriculture. The Commission and Conservation Districts' primary customer group is farmers and ranchers. Their ability to participate in conservation cost-share programs or invest in conservation practices is directly impacted by the strength of the agriculture economy. Conservation cost-share programs administered by OCC and our federal partners the NRCS, are critical to preserving working farms and ranches, land conservation, preserving water quality, protecting wildlife and enhancing natural areas for the benefit of all citizens.

Social/Political/Demographics

Population Shifts - Our historic customer and support base has been rural and agricultural Oklahoma. The population and economic shift away from rural Oklahoma and agriculture will be reflected by a similar shift in political power. The state legislature will increasingly consist of a larger number of urban and suburban legislators.

Lifestyle Changes, Affluence Levels, and Education Levels - With steadily increasing amounts of leisure time there is a growing demand for outdoor recreational opportunities. Quality of life issues are receiving more attention. The conservation work performed by the Commission and Conservation Districts can have a major impact on quality of life issues (water quality, air quality, wildlife habitat, public health and safety). The public's demand for outdoor recreational opportunities and clean water will likely drive future funding needs for conservation programs.

As the educational level of Oklahoma's population rises there will likely be higher expectations

for environmental protection and natural resource conservation. The Commission faces the challenge of being able to attract and maintain a highly educated workforce with a wide range of expertise. We are challenged to attract expertise in soils, water quality, engineering, reclamation, public administration, human resources, computer technology, and risk management to name a few. Salary levels for Commission and Conservation District employees lag far behind comparable federal and private sector employees in similar jobs.

Government and Regulatory

Many Commission programs are linked directly to federal programs and funding: the Water Quality Program is limited by Federal Clean Water Act funding; the Abandoned Mine Land Program is limited by the U.S. Department of Interior Office of Surface Mining funding, and the Conservation Programs Division's Rehabilitation of Upstream Flood Control Structures is limited by USDA Natural Resources Conservation Service funding. The levels of federal funding can change dramatically from year to year based on the nation's economy and political decisions, thus impacting the Commission's ability to perform.

The agency's Water Quality Division programs could be significantly impacted by regulatory changes in the nonpoint source pollution management arena. Should EPA move towards a stronger regulatory approach to nonpoint source pollution, it would fundamentally alter the agency's historic approach of working with landowners in a voluntary manner.

Competition

The Conservation Commission's competitors are primarily in the public sector. Many state and federal agencies with responsibilities for natural resources compete for the same financial and human resources. However, the same agencies that we often view as our competitors, such as Oklahoma Water Resources Board, Department of Environmental Quality, Department of Agriculture, Food and Forestry, and the Department of Mines to name a few, are also our partners. The Conservation Commission's ultimate goal is to improve Oklahoma's renewable natural resources; therefore it chooses to work in the many areas of its responsibility using a collaborative model as opposed to a competitive one.

Technology

Communication is and will continue to be a vital key in enabling the Conservation Commission to fulfill its mission of conserving, protecting and restoring Oklahoma's natural resources. The Commission will maintain an up to date awareness of and position itself to take advantage of current and future technological advances in communicating its mission to its customers through a strategic partnership with Conservation Districts and the Natural Resource Conservation Service (NRCS).

The transition to a workplace that relies on e-mail, electronic fund transfers, websites, social media and the like for communication and operations has had its challenges. Staying current with new computer technology is difficult in a government environment. This fiscal year all of

the information technology functions of the agency are transitioning to the Office of Management and Enterprise Services. This transition, while promising greater efficiency and effectiveness, will take some time to implement. We are hopeful that this new way of doing information technology business will improve overall agency performance.

One continuing challenge we face in the information technology arena is how to integrate systems at the conservation district level with our federal conservation partner—the Natural Resources Conservation Service and the state system. It is a daunting task but one that has to be addressed if we are to take advantage of technology to improve the conservation delivery system for our customers.

There are several areas within the agency where the application of GIS and GPS technologies would greatly improve the ability to capture and manage natural resource data. The application of GIS and GPS technology at the Conservation District level needs expanding. Impediments to this have been a lack of funding for equipment and training as well as having qualified people in technical job classifications in the districts who can apply these technologies to local conservation and natural resource management issues.

Markets and Customers

There is an increasing clientele of landowners who are part-time or hobby farmers living on the urban-rural interface. Historically, our customers were traditional farmers and ranchers who knew the types of programs and services Conservation Districts provided. Today, many of Oklahoma's landowners are part-time farmers, small lot/ranchette, or absentee landowners. Our methods of marketing programs and services must adjust to meet this growing trend. The Commission and Conservation Districts will also have to find ways to communicate the value of our programs to urban/suburban legislators (water quality, recreation, wildlife habitat, quality of life issues) to be successful in this changing environment.

Industry Trends and Best Practices

One of the major industry trends in the conservation community is the steady decline in the number of employees within the USDA Natural Resources Conservation Service workforce, our primary federal partner. Historically, the Commission and Conservation Districts have been dependent on NRCS technical expertise in a variety of areas. Over the past decade the Commission and Conservation Districts have developed technical expertise in a variety of areas that now match or exceed that of our federal partner. While the partnership's fundamental mission of delivering technical, financial, and educational assistance to private landowners remains the same, who and how those services are delivered is increasingly a state or local function.

Unfortunately during the past three fiscal years the workforce of the Commission and Conservation Districts has also been significantly reduced. This trend coupled with the reduction of federal conservation employees will force us to focus more clearly on mission-critical functions and how to deliver conservation services more efficiently. It will likely mean that some of the services we have previously provided will be eliminated.

In a review of conservation programs in other states, we found states with larger and more stable funding for conservation cost-share programs. Many states also made much more technical assistance available through Conservation Districts. In addition, we found innovative or different methods of organizing Conservation Districts. Some states have fewer, larger Conservation Districts, while others have smaller more numerous districts. In some states all Conservation District Directors are elected on the general ballot. One state conducts interviews with all prospective directors. Conservation Districts in some states have taxing authority.

Production and Internal Environment

The current production and internal environment at the Conservation Commission is one of an agency with a programmatic “can do” attitude in spite of limited human and financial resources. The agency has enjoyed success in developing and implementing new and innovative programs to address critical resource needs while maintaining important traditional program areas. The price of success has been the neglect of other areas such as vehicle and equipment maintenance and replacement, adequate staffing for newly mandated program responsibilities, and adequate work space to house agency staff. In the long term these issues effect production.

We recognize a need for improvement in budgeting and financial analysis. We recognize the demand for increasingly sophisticated technical employees at the state and field levels. We acknowledge the necessity to provide our existing workforce with both technical and employee support to cope effectively with the current internal environment while maintaining productivity. We recognize the need to adequately compensate district and state employees.

Financial Performance

The trend reported in the previous five year agency strategic plan has continued and the Conservation Commission has experienced a significant growth in expenditures in the ten-year period from FY 2003 to FY 2012 (\$13.3 million to \$33.6 million). In FYs 2011 and 2012, the Conservation Commission oversaw the expenditure in excess of 80 million dollars worth of state and federal conservation program funding. Over that time period two state funding initiatives contributed significantly to the funding increase. First, the legislature designated an annual percentage from the gross production tax on oil to go into the Conservation Infrastructure Revolving Fund (CIRF) to support several conservation programs. These programs include the upgrade and rehabilitation of upstream flood control dams, and a conservation cost share program to address water quality and other soil and water conservation issues. Just over 2.6 million dollars is deposited into this fund annually. The second initiative was the authorization and sale of a 25 million dollar conservation bond. Proceeds from the bond are being used to address issues in five areas: provide state match for the upgrade and rehabilitation of upstream flood control dams, provide funds for the operation, maintenance and repair of upstream flood control dams; provide funds for a local cost-share program to repair conservation practices damaged by flood events; address flood damage in the Sugar Creek watershed in Caddo County; and address flooding issues in the City of Kingfisher. The conservation bond represents the largest single investment to the state's conservation infrastructure in the agency's history.

The previous five year period also saw a remarkable increase in federal conservation program dollars coming to the agency. The Commission entered into a partnership with USDA and their Conservation Reserve Enhancement Program to address water quality issues in the Illinois River and Eucha-Spavinaw watersheds in northeast Oklahoma. This is a 20 million dollar program of which the federal government is providing 80% of the funding. In 2009 with the passage of the federal American Recovery and Reinvestment Act (ARRA) an additional 20 million dollars of conservation program funds are now being managed by the Commission. The agency has received ARRA funding from the Natural Resources Conservation Service, EPA, and the U.S. Fish and Wildlife Service. Currently the Commission is also managing a seven million dollar FEMA project in Caddo County. In addition to these special funding and program initiatives, the agency continues to implement significant programs addressing nonpoint source water quality, abandoned mine land reclamation, and high hazard dam assessment. We anticipate for the near term that overall agency expenditures have peaked as conservation bond and ARRA expenditures will be mostly exhausted within the next 12 months. While expenditures of overall conservation funds have increased significantly, the troubling aspect of this scenario is that the agency has experienced a decline in state general revenue used to support Commission and district staff two of the past three years. Income from the management of federal construction contracts has allowed the agency to spread the pain of personnel reduction cuts to the agency and conservation districts as well as reducing operations over an extended period of time. However, without new federal or state dollars staffing reductions will need to go beyond the 15% reduction already experienced.

In FY 2014 the agency will need four million dollars annually to address ongoing operation and maintenance of the state's 2,107 upstream flood control dams. During the current three year cycle ending in FY 2013, \$7.8 million of bond funds will have been expended on watershed

dam operation and maintenance. Yet, conservation districts have documented over 22 million dollars of current needs to this aging state infrastructure. In addition to flood control dam operation and maintenance needs the Commission will have a continuing need for state funds to match federal funds to upgrade and rehabilitate high hazard upstream flood control dams. Currently conservation bond funds are used as match for this program. We estimate an annual need of \$4,000,000 for the rehabilitation program after FY 2013. The Commission as the lead state agency for EPA's nonpoint source water quality program must provide state match in order to access federal Section 319 funds. In FY 2013 the agency has budgeted just under one million dollars to match EPA water quality grant funds as well as continue USDA's Conservation Reserve Enhancement Program. This funding comes from the Conservation Infrastructure Revolving Fund and general revenue. Going forward we anticipate a minimum annual additional need for water quality match of \$600,000. The agency currently utilizes monies from the (CIRF) for the locally led conservation cost-share program. This program allows conservation districts to fund practices to address natural resource priorities in their district. However, the need as expressed by districts' requests is \$4.3 million above what is available from the CIRF. Over the next five years one of our most critical strategic goals is to secure adequate core funding for the programs outlined above. The Conservation Infrastructure Revolving Fund was reauthorized through FY 2016 last legislative session. However, to meet the base needs for these programs will require identifying other sources of state funding.

The Commission recognizes that increases in state appropriations to agencies will need solid justification. The number of full-time conservation district and Commission employees has been cut by 15% over the past two years. The agency has buffered the loss of state funds supporting personnel and retained a critical mass of human capital by managing additional federal dollars used for dam upgrades and other federal contracts. These funds will be mostly expended by the end of the current fiscal year. However, the needs of an aging infrastructure of flood control dams grow and the current drought reminds us that water conservation and quality enhancing practices cannot be neglected and working lands conservation holds back the return of a new Dust Bowl experience. The challenges to core conservation functions of the state delivered through the Commission and districts are daunting as we try to deliver necessary conservation program dollars with a shrinking work force. We recognize that there may come a time when the state will have to turn back federal conservation dollars because we will not have the human capital resource necessary to deliver the programs. However, the agency is committed to implementing all the efficiencies available in an effort to maximize the amount of flood protection, land and water conservation practices that can be provided to our citizens.

**OKLAHOMA CONSERVATION COMMISSION
ADMINISTRATION STAFF - SUMMARY OF ACTIVITIES
November 5, 2012**

Administration

- Attended the Dust Bowl reception and screening and participated in the panel discussion in Altus
- Attended Representative Morrisette's public hearing regarding eastern red cedar
- Attended the National Nonpoint Source Conference in Tulsa
- Attended the Peoples Garden Celebration honoring The Sterling House of Enid
- Met with Office of Enterprise and Management Services to discuss IT consolidation
- Preparation work for the upcoming Arkansas/Oklahoma Native Pollinator Workshop
- Preparation work for the November Conservation Commission Meeting in Stillwater
- Preparation work for the full staff meeting scheduled for December 12
- Scheduled to attend the Arkansas/Oklahoma Native Pollinator Workshop in Fort Smith, AR (October 30)
- Scheduled to attend the OACD Area 1 Meeting (November 1)
- Scheduled to attend the Dust Bowl reception and screening in Guymon (November 1)
- Assisted with and participated in the Altus Dust Bowl Community Outreach Event
- Made a presentation on the history of OACD at the Conservation Leadership class session
- Represented the Commission at the Pittsburg County Conservation District Bankers Award Program
- Attended the House Appropriations and Budget committee meeting on the impacts of federal budget sequestration on state agencies
- Worked with OETA and OACD in planning the remaining four Dust Bowl community outreach events
- Assisted in area meeting agenda preparations and attended the Area 1 meeting in Guymon
- Participated in a teleconference with the BIA Anadarko Superintendent on land right issues on the Sugar Creek channel repair project
- Participated in a meeting to begin the consolidation of the Commission's Information Technology functions to OMES

Information Officer

- Continued the re-design of OCC's website with activation of new template (layout design) and creation and rearranging of other features.
- Continued technical management of and updating information on OCC's web page. Created and/or edited and published the following stories:
 - One Conservation Commission member and several Oklahoma Conservation Commission staff participated in an Illinois River Streambank Stabilization Tour
 - More than 500 attend Screening and Community Conversation event in Altus for Ken Burns' THE DUST BOWL
 - E.F. "Doc" Coker, 1914-2012, former Commission member passes away
 - Employee of the Quarter: Ben Pollard OACD Area Meetings 2012
 - Ken Burns' THE DUST BOWL "Screening and Community Conversation" Event at Woodward
 - Ken Burns' THE DUST BOWL "Screening and Community Conversation" Event at Altus
- Assisted OACD with preparations and arrangements for Ken Burns' THE DUST BOWL Screening and Community Conversation events across the state, including helping conservation districts with displays and printed materials.
- Assisted OACD with preparations for Area Meetings including printed programs and other items.
- Continued using Twitter to communicate messages and news about conservation-related

activities under the name OK Conservation Cmsn at the address @conservation_ok.

- Continued wider promotion of the Twitter account.
- Worked on an Accessibility Training workshop for OCC writers focusing on using Word to create accessible Acrobat PDF files.
- Produced OCC monthly newsletter and prepared newsletters for OCC web page.
- Deposited OCC publications with the Publication Clearinghouse of the Dept. of Libraries in compliance with statutes.
- Continued arrangements for farm shows and convention display booths. Worked with the Oklahoma Conservation Tribal Advisory Council to plan a schedule of cosponsored events.
- Attended annual training event of the Oklahoma State Web Managers Group
- Monitored Oklahoma City and Tulsa news.
- Attended a meeting of the Advisory Council for the Publication Clearinghouse of the Oklahoma Department of Libraries.

Tribal Outreach Coordinator

Coordinated Partnership with the Oklahoma Tribal Conservation Advisory Council (OTCAC) –

- Worked with OTCAC and NRCS to finalize continuation of an agreement to do outreach meetings across the state.
- Worked with OTCAC to coordinate meetings for FY 2013. We will continue to partner with OTCAC and NRCS on sharing display/booth space at many of the meetings across the state. OTCAC has partnered to cover much of this expense from the standpoint of booth rental.

Oklahoma Prescribed Burn Association (OPBA -Tentative) –

- Scheduled to attend a meeting at the Noble Foundation on 10/23 to discuss the OPBA and the efforts to get more prescribed fire on the Oklahoma landscape. I am scheduled to make a presentation.
- Made a presentation to the Eastern Red Cedar Registry Board on August 29. I discussed the purpose of the OPBA and the role it can play in partnering with different groups to promote prescribed fire to reduce fuel loads, promote Firewise and help local burn associations with organization, training and action.
- Spoke at the Legislative Public Safety Interim Study on September 6 and provided information about the OPBA and the reason for its formation.
- The underwriter providing liability coverage in Texas has decided to pull out of this line of coverage. This happened due to a burn in TX that was outside of prescription that has resulted in litigation. The underwriter feels it is better to settle than go through litigation even though the person burning did so outside of prescription. This is disappointing but we are discussing this with the other states to find another underwriter.

Oklahoma Prescribed Fire Council (OPFC) –

- The OPFC met in Oklahoma City on September 11. There was a good turn out for this meeting and the group is engaged to continue to provide information on prescribed fire and advocate for its use.

Oklahoma Invasive Species Council (OKIPC) –

- A list of the “Dirty Dozen” plants will be released soon. These are plants that are highly invasive.
- The annual meeting was held July 10 at ODWC’s facility at Arcadia Lake. I am now on the board for this group and will keep you updated on ongoing activities.

**OKLAHOMA CONSERVATION COMMISSION
DISTRICT SERVICES DIVISION
OCTOBER MONTHLY SUMMARY**

**Lisa Knauf Owen, Director
November 5, 2012 Commission Meeting**

Provided Assistance to the Following Districts

Alfalfa	Dewey	Haskell	Logan	Pushmataha
Atoka	E. Canadian	Hughes	Marshall	Sequoyah
Blaine	E. Woods	Kay	Muskogee	S. Caddo
Bryan	Ellis	Latimer	McClain	Texas
Caney Valley	Grant	LeFlore	Okfuskee	Tulsa
Cimarron	Greer	Lincoln	Okmulgee	Woods
Creek	Harmon	Little River	Payne	Woodward

Meetings & Events Attended

*Conservation District Board Meetings Attended:

- Blaine County
- Sequoyah County
- Muskogee County (2)

Division Activities

- * Continued to provide training to new district manager in Sequoyah County; assisted with preparing agenda, paying bills and taxes, and preparing reimbursement claim.
- * Provided assistance to Muskogee County CD while secretary position was vacant. Prepared agenda, minutes, reimbursement claim, paid bills and taxes. Participated in interviews for Muskogee County Conservation District secretary. Began providing training for new secretary.
- * Assisted Lincoln, Cleveland, Creek and Muskogee County with payroll tax questions and issues.
- * Met with 2 board members and staff at Woodward County to discuss district allocation and personnel time management.
- * Provided training to new part-time secretary in Woodward County.
- * Continued providing assistance to Blaine County due to vacant secretary position. Prepared agenda, minutes, reimbursement claim, paid bills and taxes. Prepared quarterly tax reports.
- * Assisted Murray County with modified payroll due to workers comp and assisted Caney Valley with final payroll/leave and longevity payments.
- * Continued to create Identification Badges for Conservation District Employees.
- * Notified Districts of Due Date for filing Notice of Regular Meetings.
- * Contacted numerous districts with issues on their reimbursement claims.
- * Contacted auditors to verify financial documents have been delivered for the FY12 Audit/Compilation cycle. 86 offices have completed this task.
- * Worked with Pushmataha CD to prepare financial materials for compilation. Reviewed back audits/compilations from FY2009 – 2011.

- * Assisted districts with completion of US Census surveys.
- * Assisted with development of OACD area meeting agendas. Worked with host districts on logistics. Prepared lunch speaker's packet.
- * Completed ARRA reporting for the Floodplain Easement Project.
- * Processed conservation district minutes.
- * Assisted districts with information regarding district employee promotions, vacancies and upcoming retirements.
- * Assisted OCC and District Staff with USDA/ITS services requests.

**OKLAHOMA CONSERVATION COMMISSION
WATER QUALITY DIVISION
SEPTEMBER MONTHLY SUMMARY**

Shanon Phillips, Director
November 5, 2012

Conservation District Meetings

Staff attended Adair, Blaine, Central North Canadian River, Cherokee, Delaware, South Caddo and East Canadian Conservation District Board meetings.

Honey Creek Implementation/Demonstration Projects

Staff conducted the following activities:

- 121 conservation plans have been written on 26,575 acres in the watershed
- 26 cooperators are actively participating and 73 have completed implementation
- Conducted 14 site visits this month to inspect completed BMPs, work in progress, or install cooperator signage
- Held 20 conferences by telephone or in-office with producers or interested participants
- Funds spent since last report: \$ 62,226.97
- Total claims paid to date through 10/15/12 \$ 1,723,126.63
- Cooperators Share: \$ 845,311.95
- Funds obligated to date: \$ 1,973,683.82

BMP information

- 0 new feet of riparian exclusion fencing was installed for a total of 42,936 feet of riparian exclusion fencing; 343 (*corrected*) total acres of riparian exclusion.
- 4,098 linear feet of cross-fencing was installed for a total of 204,734 linear feet.
- 0 acres of grass was planted for a total of 177 acres.
- 1 new septic system was installed for a total of 14 replacement systems in the watershed.
- 1 new pond was constructed for a total of 33 ponds plus 2 clay liners.
- 7 new watering facilities were installed for a total of 161 watering facilities.
- 2,688 feet of pipeline was installed for a total of 59,873 feet of pipeline.
- 3 new wells were drilled for a total of 60 wells, with 3 storage tanks installed.
- 0 new winter feeding facilities were constructed, for a total of 22 WFFs.
- 0 new cake out/litter storage facilities were constructed for a total of 2 cake out/litter storage facilities.
- 7 new heavy use areas were installed, for a total of 199 heavy use areas.

Activities

- Participated in National NPS Monitoring Workshop tour of Honey Creek Demonstration Farm
- Attended Delaware County Conservation District Meeting
- Attended Locally Led Workgroup Meeting

Illinois River Riparian Project

Staff conducted the following activities:

- Conservation planning in the Illinois River watershed
- Reviewed progress and prepared claims on Illinois River BMPs, including taking GPS readings and photos of BMPs.
- 239 Total applicants, 183 approved to date, 98 completed, 60 currently active, 25 cancelled; 90 Conservation Plans written to date

BMP Information, added this month

- 0 new acres enrolled in Use Exclusion for riparian areas, 1583.1 total
- 1 new Septic system replacement this month, 83 total replaced
- 0 L ft of riparian fence added, 81,845 L ft of riparian fence total (~15.5 miles)
- 0 L Ft of cross fence added, 73,065 L ft of cross fence total
- 2638 cu yds of heavy use area total on 75 areas
- 0 wells added, 13 wells total
- 1 solar pump, storage tank & well total
- 0 pond added, 7 ponds total
- 0 DIFT of pipeline PVC added, 32,288 L ft of pipeline PVC total
- 0 watering facilities added, 66 off-site watering facilities total
- 10 total animal feeding/waste storage facilities
- Funds spent during October 2012: \$ 6,613
- Total claims paid to date through 10/21/12 \$1,419,188
- Cooperators Share: \$ 619,685
- Funds obligated to date: \$2,710,153

Meetings Attended

- Cherokee, Delaware, and Adair Counties District Board Meetings

Spavinaw Creek Watershed Implementation

Staff conducted the following activities:

- 58 cooperators are actively participating
- 0 contracts were written this month
- Conducted 4 site visits this month to inspect completed BMPs
- Held 5 consultations with producers or interested participants
- Funds spent during September 18, 2012- October 22, 2012: \$0
- Total claims paid to date through October 22, 2012: \$1,716,286.70
- Cooperators Share: \$1,205,405.56
- Total Funds Paid: \$2,921,692.26
- Funds obligated to date: \$2,268,765.88

BMPs completed in the watershed this past month:

- Added 0 new linear feet of fencing for a total of 249,162
- Added 0 linear feet of riparian fencing this month, for a total of 43,537 linear feet
- Installed 0 new septic system this month, for a total of 29 septic systems replaced

- Constructed 0 new ponds this month, for a total of 34 ponds constructed
- Installed 0 new watering facilities this month, for a total of 114 watering facilities
- Installed 0 feet of pipeline this month, for a total of 47,660 feet of pipeline
- Drilled 0 new water wells this month, for a total of 34 water wells completed
- Constructed 0 new winter feeding facilities this month, for a total of 24 winter feeding facilities.
- A total of 458.9 acres of grass planting have been completed in the watershed.
- Installed 0 heavy use areas using concrete, gravel and geotextile this month, for a total of 146 heavy use areas

Activities

- DCCD Board Meeting 10/17
- NPS Monitoring Workshop at Honey Creek Demo Farm 10/16

Conservation Reserve Enhancement Program

Staff conducted the following activities in October 2012:

Applications and Acreage

- 139 applications have been taken for CREP
- One hundred thirty-seven site visits have occurred
- Two landowners opted out prior to visit
- Forty-six landowners opted out after initial visit
- ***Some of these landowners are now returning for enrollment in program*
- Nine have not qualified for various reasons
- Eleven have been Georeferenced and are ready for contracts
- **Sixty-two contracts have been approved and signed**
- Acreage on six contracts has been withdrawn from program leaving fifty-six viable contracts
- Total Acreage:
- Considered = 2,531.2 acres
- Declined or Ineligible = 1,662.3 acres
- **Contracted = 603.6 acres (Goal = 9,000 acres)**
- **Pending = 265.3 acres**

****FSA cannot approve anymore CREP contracts until we have a new Farm Bill****

	Contracted or Paid Out	Remaining Funds
FSA	\$ 1,039,368.87	\$ 19,060,631.13
State	\$ 2,183.02	
Landowner	\$ 120,390.63	N/A
Total	\$ 1,161,942.52	

BMP Information

- Total linear feet of riparian fencing installed is **58,421**
 - Contracted, but not yet installed = 26,195 linear feet
- Total bare-root seedlings planted to date is **82,803**
 - Contracted, but not yet installed = 45,878
- One pond has been installed, one is scheduled for installation
- Three water wells have been installed, five more are scheduled for installation
- Five watering facilities have been installed. Ten more are contracted for installation

- One heavy use area has been installed
- 1,491 linear feet of pipeline has been installed and an additional 4,350 feet are scheduled for installation
- **Over \$202,124.00 has been paid out in cost share on best management practices for CREP!**

Activities

- Attended Cherokee CCD board meeting, Tahlequah (10/2)
- Attended Adair CCD board meeting, Stilwell (10/11)
- Participated in OSRC Illinois River Festival, Tahlequah (10/9)
 - Over 500 school children were educated on the importance of trees along rivers and streams
 - Children planted acorns in cups to take home
- Attended River Restoration Conference, Bentonville, AR (10/4 & 10/5)
- Participated in Non-point Source Monitoring Conference, Tulsa (10/15-17)
 - Poster presentation titled: "Riparian Buffers and Affected Run-Off Acreage in the Illinois River Watershed"
- Participated in Stream Restoration in the Southeast: Innovations for Ecology conference, Wilmington, NC
 - Gave presentation titled "Effects of Streambank Stabilization on Aquatic Biodiversity in Oklahoma's Illinois River Watershed"
- Met with City of Tulsa (TMUA) about progress of CREP in Eucha/Spavinaw Watershed (10/24)
- Streambank Stabilization Project Final Inspection (10/29)
- NRCS mandatory CPA52 training, McAllister (10/31)
- Landowner visits, conservation plan writing, and practice certifications

North Canadian River Implementation Project

Staff conducted the following activities:

- **129 total Performance Agreements approved by district boards.**

Funds

- As of October 18, 2012, landowners have installed \$1,525,297.14 in BMPs.
- Of this amount, \$123,902.58 is in landowner contributions; the majority being no-till incentives and riparian area exclusion.
- **Funds obligated to date: \$ 2,034,688.36**

BMPs completed:

- No-till: 19,150 implemented acres
- Grass Planting: 1,051 acres
- Septic Systems: 12 septic systems updated
- Waterways: .03 acres waterways completed
- Ponds/GSS: 0 new ponds; 0 new GSS; 1 GSS completed
- Solar Pumps/Tanks/Wells: 13 wells, 5 solar pumps, 5 tanks, 1 Freeze Proof Tank
- Pipelines: 2 Total
- Cross Fencing: 9,288 L.F. completed

- Riparian Area Fencing: 60,177 L.F. installed
- Riparian Area Exclusion: 457 acres protected

Board Meetings: East Canadian, Blaine County, and Central North Canadian River.

Activities for the month of October, 2012:

- Attended Blue Thumb Steering Committee Meeting - OKC
- Met with new City of El Reno's Public Information and Outreach Coordinator to provide information on the NCRW 319 Project and Blue Thumb activities.
- Met to discuss the NCR §319 Project's role in Chesapeake's support of OACD's Eco-pass Program.
- Delivery/Installation of Rainwater Harvester on the Demonstration Farm
- Attended "Oil & Gas Operations and the Protection of Water Resources" Meeting
- NCR §319 Project Power-point presentation at the Geary Rotary Club meeting
- Check-outs and Payments for no-till, water well applications, and riparian area fencing.

Caddo County Special Projects

Executive summary: Attended 1 Conservation District Board meeting. Coordinated with BIA Anadarko agency and the NRCS to meet with Wichita Executive Committee on PW 1266. Also met with various landowners in the PW 1266 reach of Sugar Creek. Attended the Water 2060 lecture series at SWOSU.

Currently working on PW 1266 land rights and CCPI (Cooperative Conservation Partnership Initiative) 2012 contracts.

PW 1060 progress:

- The contractor is on site, construction has begun.

PW 1266 progress:

- One BIA landowner has on his tract acquired signatures refusing to participate
- Danielle Whaley, Curtis Washburn, representatives of the BIA and myself met with the Wichita (tribal) Executive Committee, explained the project and the engineering to them and requested their assistance in selling the project to their members who own property in this reach.
- Curtis and I have met with Wayne A Venable Jr. and his brother Rick Venable to explain our proposal. We were flatly told no.
- Curtis and I met with Dan and Frances Sisson and have requested some engineering measurements be taken to see if it is possible to make some changes to address their concerns.
- Curtis and I met with Joel Stephens and have requested some engineering measurements be taken to see if it is possible to make some changes to address his concerns.

PW 1280 progress:

- Waiting for the Real Property Work Map to be approved by the NRCS state office.
- NRCS has a draft contract package ready for this reach.
- I need to double-check and confirm that all the easements needed are in place.

10/2/2012: Attended SCCD board meeting

Carbon Program

Staff conducted the following activities:

- Attended THE DUST BOWL premier in Altus
- Continued work on Rangeland Monitoring and Verification Guide for producers and verifiers
- Attended planning meeting for OSWG Fall Conference
- Continued updating the OCC website
- Prepared forms and spreadsheets for district verifiers to begin fall 2012 verification
- Held a teleconference for a Q&A session with verifiers
- Met with OACD and Larry Wright regarding Wildlife Credit Program verification
- Met with N. Canadian River Project team regarding new and existing overlapping projects
- Attended HRDS class "Policy Analysis," OKC
- Met with OSU regarding soil probe training for verifiers
- Began analyzing forestry verification results from OFS, editing the protocol, and drafting final report
- Compiled semi-annual report for WFEC/CIG Project for USDA-NRCS

Monitoring

Staff conducted the following activities:

- Conducted routine water quality monitoring for the Rotating Basin Project – 1.3 (Neosho-Grand and Upper Canadian Basins) and 2.3 (Upper Arkansas, Upper North Canadian and Cimarron Basins)
- In addition, water samples were collected for Honey Creek, Lake Eucha/Spavinaw, Illinois River CREP, and the North Canadian Project sites
- National NPS Monitoring Workshop

Wetlands

Staff conducted the following activities:

- Conducted 40 wetland determinations
- Completed the final draft of the Wetland Program Plan (WPP), incorporating comments from the OWTWG
- Continued work toward a one-stop wetland website for the Oklahoma Wetlands Program
- Continued the coordinated effort towards completion and acceptance of the state's Wetland Program Plan

Blue Thumb – Statewide

Cheryl and Kim have been planning and are now in the middle of travel to conservation districts around the state for the purpose of macroinvertebrate sub-sampling and to offer volunteer quality assurance sessions.

Education/Events Calendar

- October 1 – Blue Thumb Steering Committee Meeting, OKC, Cheryl and Kim
- October 1 – Tulsa Garden Center Low Impact Development Presentation, Kevin
- October 3 – Tulsa County Resource Management Conference, Cheryl and Kevin

- October 6 – Water Wise Gardening Workshop, Tulsa, Kevin
- October 8 – Natural Resource Day, OKC, Cheryl
- October 9 – Blue Thumb Presentation to OSU Environmental Science Graduate Students, Stillwater, Cheryl
- October 14 – 17 – National NPS Monitoring Workshop, Cheryl, Kevin, Kim
 - Kevin lead a 5 hour Low Impact Development Tour
 - Cheryl and Kim had Posters
 - Cheryl provided an oral presentation
 - Blue Thumb exhibit was up and staffed
- October 25 – Natural Resource Day, Kingfisher, Kim
- October 30 – Pollinator Conservation Workshop, Cheryl

Additional Work

- Planning for Volunteer Monitoring Conference
- Distribution of Blue Thumb calendars
- Preparation of presentations for Area meetings and other events
- Work with volunteers on Blue Thumb steering committee

Technical Writing & Records Management

Staff conducted the following activities:

- Worked on various reports and written outputs in fulfillment of Workplan deliverables
- Fulfilled multiple information requests
- Entered sampling information
- Participated in conference call with EPA concerning Illinois River TMDL
- Participated in OK WQX database meeting at DEQ
- Attended 20th National NPS Monitoring Workshop in Tulsa
- Participated in webinar on EPA's water quality portal
- HRDS training course
- Participated in MS Word Accessibility training class

Blue Thumb Pictorial Report

October, 2012

A Blue Thumb Training for New Volunteers was held the last weekend in September in Tulsa County. Participants spent two days learning about stream ecology, field collections, nps education, and testing water.

Blue Thumb 's Kevin Gustavson planned and lead a "Low Impact Development" tour for the Oklahoma Flood Plain Manager 's Association Conference in Tulsa (Two photos on the left). Kevin also worked with a Tulsa Church to offer a community workshop called "Water Wise " gardening on October 6. The forty-five attendees helped create a rain garden on the church property.

Volunteers started their fall quality assurance sessions and macroinvertebrate sub-sampling work this month. Left, volunteers from the Tishomingo National Wildlife Refuge work on their bug sample.

Lower left: Gloria Vass, High School Teacher at Edmond-Santa Fe, sets up to teach a new group of students about stream monitoring with the help of Kim Shaw.

Below, students from Tulsa Community College get a real stream experience. Finally, a water beetle struggles with the decision of whether to bite the human hand or instead focus energy on an escape.

**OKLAHOMA CONSERVATION COMMISSION
ABANDONED MINE LAND DIVISION MONTHLY SUMMARY**

Mike Kastl, AML Program Director

November 5, 2012

FY 2010 AML SIMPLIFIED GRANT - The following is the status report on the submitted projects:

1. Shouse - 251 (Rogers County)
All reclamation work has been completed and the site has been planted.
2. Azbill - 246 (Rogers County)
All reclamation work has been completed and the site has been planted.
3. Reves Phase 2 South - 101 (Sequoyah County)
The OCC submitted a change order and final payment to the Division of Capitol Assets Management for processing. All work has been completed and the site has been planted.
4. Peevyhouse - 140 (Haskell County)
The contractor, RRY Services, LLC, was issued a Notice to Proceed on September 7, 2012, with a contract time of 120 days and a completion date of January 14, 2013. This contract is to finish the work on the project. As of October 24, the contractor has completed approximately 85 percent of the work in 32 percent of the contract time.
5. Bates/Fullerton - 259 (Rogers County)
All reclamation work has been completed and the site has been planted.

FY 2011 AML SIMPLIFIED GRANT - The following is the status report on the submitted projects:

1. Wilson UM - 185 (Latimer County)
All reclamation work has been completed.
2. McSpadden - 026 (Rogers County)
All reclamation work has been completed and the site has been planted.
3. Raspotnik UM - 199 (Latimer County)
All reclamation work has been completed.
4. Reves Phase 2 North - 102 (Sequoyah County)
C. H. Guernsey Engineering Company has submitted the project design and specifications for bidding.
5. Powell UM - 232 (Haskell County)
All reclamation work has been completed.

FY 2012 AML SIMPLIFIED GRANT - The following is the status report on the submitted projects:

1. Bacon-251 (Rogers County)

The contractor, Thomas Construction, Inc., was issued a Notice to Proceed on July 2, 2012, with a contract time of 270 days and a completion date of April 17, 2013. As of October 24, the contractor has completed approximately 53 percent of the work in 35 percent of the contract time.

2. Northeastern State-166/180 (Wagoner County)

A prebid meeting was held October 24, and the bid opening is scheduled for November 8.

AML EMERGENCY PROGRAM

Booth State Emergency (Latimer County)

OSM must issue the ATP before the project can be submitted to the Division of Capitol Assets Management to begin the bid and contracting process. The request for ATP was sent to OSM on April 23, 2012. As of October 24 the OCC has not received authorization to proceed.

201 W Birch (Latimer County)

This project was declared an emergency by the Oklahoma Conservation Commission on September 25, 2012. The project addresses an emergency situation involving the sudden collapse of an abandoned underground coal mine creating a vertical opening (VO) in the front yard of a residence and in the street ditch and creating a dangerous subsidence (S) that resulted in the collapse of the street. The VO has an approximate surface diameter of 12 inches and 17 inches deep. The VO is partially blocked by a fallen rock, thus the total depth can not be measured until excavated. The subsidence under the street continues to sink and has created an immediate traffic hazard. The subsidence is approximately 45 feet long by 6 feet wide by 6 inches deep. This is a very active residential area inside the city limits of Wilbuton (population 2,972). There is a high probability of harm to the general public and to vehicle traffic on W Birch Avenue. The site is located at 201 W. Birch Avenue in Wilburton, Oklahoma, and is 27 feet in front of the house in the yard, ditch, and street.

A prebid meeting was held October 1 and the bid opening was held October 2. Reclamation was completed on October 9 by Mark's Construction LLC for \$6,669.60.

**MONTHLY SUMMARY
FINANCIAL MANAGEMENT & HUMAN RESOURCES
STEVEN COFFMAN, COMPTROLLER**

October 24th, 2012

- Processed vouchers
- Reconciled September activity to the Office of State Finance and the State Treasurer
- Reconciled September activity for the employer's share of health insurance and retirement from 87 conservation districts
- Reconciled September activity for the Bank of America purchase card program
- Prepared and submitted requests for funds from EPA 319 and 104B3 grants via Office of the Secretary of the Environment, rehabilitation funding via the U.S.D.A. Natural Resources Conservation Service, and AML funding via the Department of the Interior
- Preparation of AFLAC and OSEEGIB billings for Plan Year 2012
- Prepared monthly mileage reports for state leased motor vehicles to the Department of Central Services, Motor Pool Division
- Processed Request for Acquisitions
- Worked with the Office of State Finance to process supplemental, off-cycle, and regular payrolls via shared services agreement
- Attended OKAPP monthly meeting.
- Attended Safety meeting.
- Attended Full Staff Meeting.
- Completed the Water Quality Division SFY2012 Audit
- Assisted with the 2012 Wildlife Expo at the Lazy E Arena.
- Attended the Health Expo at the State Capital.
- Conducted annual Insurance Option Period meetings for District Staff and Commission Staff. Meeting locations included Walters, Marietta, Ponca City, Idabel, Konawa, Buffalo, OKC, Weatherford, Hobart, Vinita, Tahlequah, Fairview, Cheyenne and Coalgate.
- Completed and submitted agency FY-2014 Budget Request and revision to FY-2013 Budget Work Program
- Prepared information per request of House and Senate Fiscal Staff regarding federal program expenditures and agency carryover funds

**OKLAHOMA CONSERVATION COMMISSION
OFFICE OF GEOGRAPHIC INFORMATION & TECHNICAL SERVICES DIVISION
MONTHLY SUMMARY**

**Mike Sharp, State Geographic Information Coordinator & Director
October, 2012**

AML

- Site visit of Bacon AML Project in Rogers County on October 10.
- Site visit of Peevyhouse 2 AML Project in Haskell County on October 18.
- Reviewed plans and specifications for Northeastern State University AML Project.
- Attended pre-bid meeting for Northeastern State University AML Project on October 24 in Broken Arrow.
- Planning for aerial photography of nine AML sites in Rogers and Wagoner counties.

IT Activity

- Worked on various hardware and software support issues for OCC computer systems.
- Routine server, software and anti-virus and anti-spam maintenance.
- Worked with various conservation districts on IT issues.
- Meeting with OMES-ISD staff on October 19 concerning the pending consolidation of OCC-IT infrastructure into OMES-IT.

Geographic Information System (GIS) Activity

- Provided GIS services to AML, Conservation Programs and WQ.
- Worked with the Watershed Assessment Team on various issues including mapping of structures downstream of watershed dams.

Office of Geographic Information

- Participated in various Oklahoma Broadband Team meetings.
- Prepared minutes and agenda for the November 2 meeting of the State Geographic Information Council.
- Conducted October 5th meeting of the State Geographic Information Council. Announced the formation of a Framework Inventory & Stewardship Workgroup. Membership in the Workgroup will be from all levels of government, private sector and academia. Their task is to define the state's spatial data inventory and develop a process that will guide the development and stewardship of this inventory. Also, a presentation was made by Craig Moody of ODOT on their GIS modernization project.
- Willoughby and Sharp met on October 5 with other agency GIS staff and OMES-ISD staff to discuss how OMES-ISD can provide support to the OGI and State Geographic Information Council in carrying out their respective mission's.
- Willoughby and Sharp participated by conference call in the Mid-America Geographic Information Consortium's (MAGIC) annual Clearinghouse Summit on October 3 which was held in Sioux Falls, SD.
- Worked on OKMaps servers, software and data.
- Sharp gave a presentation on the state's geographic information clearinghouse, OKMaps, to the Oklahoma State Web-managers Group on October 16.

**OKLAHOMA CONSERVATION COMMISSION
CONSERVATION PROGRAMS DIVISION**

Robert W. Toole, Director

November 5, 2012

Administration

- CPD administration & management: Budget Management; Operations Management; Program Management; Personnel Management; Vehicle Management; Equipment Management
- Government Affairs: Kingfisher flood project administration; OEM Drought Management Plan Work Group
- OCC Administration: Principle Staff meeting; strategic plan revision; funding coordination; Pollinator Workshop
- Dam Safety Incident Management Team: organizational structure
- Reconciled O&M and rehab financial records.
- Prepared and submitted quarterly ARRA reports.
- Prepared and distributed FY 2012 final O&M reports to districts.
- Prepared and distributed FY 2013 1st quarter O&M reports to districts.
- Prepared and submitted monthly NRCS agreement requests for reimbursement reports.
- NRCS: Watershed O&M and Rehabilitation coordination
- OACD: Legislative Affairs; media assistance; OACD Area I meeting
- OWRB: Watershed Dams and Dam Safety coordination
- Professional Development: Eminent Domain seminar

Cost-Share Program

- Water Quality: Consulted with Water Quality Division staff to process priority watershed. Provided locally led cost-share match information to Water Quality staff.
- Reviewed CSPY 13 and CSPY 14 monthly reports received from conservation districts.
- Provided program training to: Sequoyah County CD, Pushmataha CD, and Bryan County CD
- Claims: Processed 40 cost-share claims for a total reimbursement of \$151,613.55 including:
 - 20 locally led claim for a total of \$31,613.06
 - 20 Priority Watershed claims for a total of \$120,000.49
- Assistance: Provided Cost-Share Program assistance to 25 Conservation Districts:

Bryan	Kingfisher County	Cimarron Valley
Little River	Grant County	Jefferson County
Grady County	Cherokee County	Pittsburg County
Atoka County	Muskogee County	Murray County
Marshall County	Haskell County	Love County
Craig County	Kay County	Logan County
Wagoner County	Noble County	Harmon County
Ottawa County	West Caddo	Stephens County
Pushmataha		

Conservation Education

- Assistance: provided Conservation Education assistance via phone or email to 5 conservation districts:

Deer Creek	Greer County	Oklahoma County
Rogers County	South Caddo	
- District Education Events:
 - ✓ Consulted with South Caddo CD on outdoor classroom facility.
 - ✓ Finalized planning and coordinated 2012 Wildlife Expo exhibit for >40,000 visitors.
 - ✓ Prepared and submitted grant proposal for two educator workshops on plants.
 - ✓ Coordinated check out materials.
- OKEECC
 - ✓ Continued planning for 2013 EE Expo
 - ✓ Began planning for 2013 H2Oklahoma Water Festival.
- Project WET
 - ✓ Continued planning joint PWET/PLT facilitator training.
 - ✓ Assisted with 4-State Ecosystem workshop in Missouri.
 - ✓ Conducted a joint PWET/PLT workshop at Rogers County CD.
 - ✓ Completed paperwork, database entry for two workshops.
- Meetings
 - ✓ Attended CPD staff meeting.

Watershed Rehabilitation

- Administrative, technical and land rights assistance to 9 Conservation Districts:
Sequoyah County – Sallisaw 32, 33, 34, 28 & 29 South Caddo – Fort Cobb Laterals 10
Kingfisher County – Cottonwood 15 East Canadian County – Cottonwood 16
Dewey County – Barnitz 1 Pontotoc County - Upper Clear Boggy 34
Logan County – Cottonwood 54 Payne County – Stillwater 40 (McMurtry Lake)
Murray County – Rock 15 & 16
- Construction Contracting:
 - ✓ Pontotoc County CD- Upper Clear Boggy 34, construction progressing
 - ✓ South Caddo CD-Sugar L44, conducted final inspection on October 2nd.
 - ✓ Coal County CD-Caney Coon 2, construction progressing
 - ✓ Adair County-Sallisaw 26, construction progressing
- Construction Management Contracting:
 - ✓ Pontotoc County CD-Upper Clear Boggy 33 and 34
 - ✓ South Caddo CD-Sugar L44
- NRCS Rehabilitation Agreement Management: 16 agreements for a total of \$20.7 million
- Claims: Processed 18 rehabilitation claims for a total reimbursement of \$1,586,773.31
- Rehabilitation Project Status:
 - ✓ Construction Complete-28
 - ✓ Contracting/Construction Started-4
 - ✓ Construction Pending Land Rights-6
 - ✓ Planning & Design Underway-12

Operation & Maintenance

- Technical Assistance: Provided technical assistance for watershed O&M to 20 Conservation Districts:

Konawa	Upper Washita	Sequoyah County
Tillman County	Garvin	Kiowa
Creek County	Grady County	McClain County
Okfuskee County	Payne County	West Caddo
North Fork of Red River	Custer County	Deer Creek
South Caddo	Harmon County	Washita County
Little River	Johnston County	
- Conservation District O&M Plans & Priorities - \$22 million identified needs.
- Okie One-Call System: Monitor & troubleshoot system
- Intent-to-Drill System: Monitor & troubleshoot system
- DEQ Alerts: none
- DamWatch: Development and implementation
- Assisted Garvin CD with natural resource day.
- Provided watershed program training for Sequoyah County CD staff.
- Conservation District board meetings: Murray County, Garvin
- Special Project Management: Hazard Classification Reviews; Emergency Action Plan Updates; Breach Inundation Mapping; Watershed Information Updates
- Watershed Aide Management: Konawa; Kiowa County; Murray County; Washita County; Garvin; Grady County
- Claims: Processed 33 watershed claims for a total reimbursement of \$50,403.51
- O&M Funding Requests:
 - ✓ This month: 3 requests reviewed; 3 requests approved for 2 Conservation Districts
 - ✓ To date: \$4,089,498.68 total amount allocated from bond funds; 54 Conservation District's assisted
 - ✓ To date: \$1,560,359.90 total amount unfunded O&M requests
