Partitions maintain full OEM seat travel and substantial recline

Viper Shield Enhanced Partitions

Space Saver Partitions

Partitions come in 9 Window Configurations

Space Saver Plus Partitions

Prisoner Transport Lighting

Easily brightened darked areas without OEM lighting or that is blocked by equipment with our low profile LED lights with dual output, brilliant white or ambient red

Rear Window Armor & ABS Door Panels

Prevent prisoner escape and kick outs with our Polycarbonate or Steel Bar Window Armor while ABS Door Panels eliminate access to window controls, door locks and latches

Prisoner Transport Partitions

Our Partitions are designed with officer protection and comfort in mind

Innovative Ballistic Protection for Outside the Vehicle with Viper Shield Enhanced Partitions that mount a NIJ IIIA shield that is always ready and deploys in seconds

Add Space Behind the Passenger Seat by using our Space Saver Plus Partitions to open up the back seat for easier loading/unloading prisoners and increase seated leg/foot room

Create Space for Weapon Racks by adding our Space Saver Recessed Panel with Bucket Seat Protectors that create space for the officer's guns and gear behind the console

Prisoner Transport Seats & Floor Pans

Get easy to clean, controlled seating with our low profile Prisoner Transport Seats that sit further back and lower than OEM seats or seat covers, allowing better control for placing prisoners

Floor Pans fit snug against our seats providing a seamless surface that eliminates cracks where prisoners might otherwise hide contraband

Products designed to work together to maximize space and officer safety

Transporter Front Seat Covers

Create a protective barrier between prisoners and the front seat, keeping it clean for family/friendly transports with these easy to install/remove ABS Seat Covers

Cargo Barriers

Divide the Prisoner and Cargo Compartments keeping the prisoner confined and equipment in the back

Outboard Seat Belts

Remove officer injury risk with our Outboard Seat Belt design that mounts buckles on the exterior eliminating the need to reach across the prisoner to restrain them

Viper Shield™ Enhanced, Space Saver Plus Prisoner Transport Partition shown in Chevy Tahoe

Pro-cell Prisoner Containment

Achieve total prisoner control with our Pro-cell Prisoner Containment Systems that combine our Partitions, Seats, Floor Pans, Window Armor, Rear Door Panels, and Outboard Seat Belts with a clear polycarbonate center divider for total containment

Choose from three designs: our Half Cage and Half Cage with Full Roll Bar can transport single prisoners while our Full Cage design can transport two

Gun Racks also Available

Keep your weapons secured but accessible with our optional Partition Mount and Pro-cell Mount Gun Racks, available to fit any weapon with any accessory

Designed for dual transports

Ideal for your tallest officers

All of our Prisoner Transport Products are designed to fit together seamlessly, creating much needed space and security for officers.

By designing our products to open up the prisoner compartment, we make it easier for officers to load, unload, and restrain transports.

Using charcoal grey throughout the compartment brightens up the interior while producing just the right amount of contrast so that officers can quickly identify contraband and items left behind.

SAFESTOP[®]

by Pro-gard

VEHICLE ANTI-THEFT SYSTEMS

Protects the cruiser and contents from theft 24/7

Vehicle Anti-theft System

Removing the ignition key is the only action require to activate the theft protection once the system is activated, whether the vehicle is running or not

Allows officers to leave electronics, lights, AC/Heat running while they step away from the vehicle

THE KEY IS THE KEY TO PREVENT CRUISER THEFT

Step 1 - Always On 24/7 Toggle
Given its minimal amp draw, the Safestop system can be turned on once and left on indefinitely to provide around the clock protection for your cruisers

Step 2 - Remove Ignition Key
Once they system is turned on by the toggle switch, whenever the key is removed from the ignition, running or not, the vehicle is protected against theft

The module can be set up to provide additional theft protection to electronic gun racks

The module can be set up to provide additional theft protection for trunk contents

A brake pedal override functionality allows for cutting power to the engine and other functions when the system is turned on

AOI[™]

ELECTRICAL

THE SWITCH

a Pro-gard Products Company

Eliminates conflicts between airbags and aftermarket equipment mounted in the airbag's deployment zone

Front Passenger On/Off Switch
Create space for all the aftermarket electronic equipment that your officers need to make their job more efficient by shutting off the front passenger airbag when equipment is mounted

Creates additional space for mounting aftermarket electronics like video, LPRs, radar, lights, cameras and more

Safely use roof mounted gun racks that are mounted in the side curtain airbag's deployment zone

Side Curtain Airbag On/Off Switches
Rigid Wing Partition Panels and Roof Mounted Gun Racks can still be installed without fear of an airbag conflict when you use our dual bag, side curtain switch

Use rigid wing partition filler panels without worry that they will shatter when the side curtain airbag deploys

Police vehicles are often the target of theft, especially in situations where they must be left running at a crime scene or a traffic stop.

Expecting officers to activate an anti-theft device in the heat of the moment can be counter productive to their jobs especially when their focus should be completely on the incident at hand.

We have made our Safestop Anti-theft System as easy to activate as removing the ignition key with our Always-on Protection.

There is no doubt, airbags are a necessary OEM feature that save lives. But these very same airbags can be equally harmful if aftermarket equipment is mounted within their deployment zone.

Our AOI Airbag On/Off Switches give agencies the flexibility to turn off air bags when they want to mount this equipment in an airbag's deployment zone.

AOI switches can open up dash space for multiple aftermarket electronics as well as, allow for safe use of roof mount gun racks and rigid wing partitions or K-9 kennels.

Tri-Lock™ Gun Racks

Self-supporting Mounts

As technology improves, your officers are able to choose from a wide range of weapons and accessories that best match their firearms style and accessory preference without breaking the budget

Give officers freedom to use their weapon & accessories of choice

Partition Mounts

Tri-Locks are configured at the time of installation around the weapons and accessories

All Tri-Locks come with our patent pending Hand Gun Lock Box

Horizontal Mount

Compact Mount

Vertical Mounts

Partition Mount Gun Racks

Our most popular option is available in three mounting locations to meet your agency preference: Vertical, Horizontal, or Compact

Pro-clamp Roof Mount Gun

Discretely secure two guns along the roof liner in vehicles without Partitions - keeping weapons less conspicuous

Comes with AOI Side Curtain On/Off Switch

Self-supporting Gun Racks

Ideal for supervisor, detective, or other cars without partitions

Self-supporting Mounts sit over the transmission hump, directly behind the driver's seat in vehicles without Partitions

Universal Gun Racks

Ideal for mounting anywhere a gun will fit, in tight locations with a flat surface and 11" clearance

Ideal for Trunks, Rear Cargo Windows, Floor Mounts, and more

All of Pro-gard's Gun Racks come with 8-second timer with momentary switch and choice of gun lock style

Motorcycle Gun Racks

Now motor patrol can carry concealed ARs in the high side saddle bag for easy access

Having weapons both secured and ready when the situation demands is direly important to every officer. Having the weapon and accessories of choice can make all the difference when seconds count.

Officers will like that our Tri-Lock™ Weapon Mounting System accommodates any weapon or accessory at a cost fleet managers can work with.

We also offer a wide selection of other mounting locations/ styles to meet agency preference.

All of our gun racks come with a momentary switch with eight second timer and a choice of three gun lock key styles: handcuff, vending, or straight.

Trunk Mount shown in a Dodge Charger

STORAGE & ORGANIZATION PRODUCTS

Storage Drawers

Lightweight storage option that keeps gear concealed from view from outside the vehicle

The locking push button handle provides easy one handed access

Storage & Weapon/Storage Drawers maintain space underneath for access to the load floor and do not hinder driver's field of vision

Weapon/Storage Drawers

Secure weapons and expensive gear out of site with our Heavy Duty construction and programmable Symplex Lock

Trunk Trays

Mounted from the speaker deck keeping the space beneath open so officers can store plenty of equipment

Trays glide out easily for technicians when servicing and lock tightly in place during travel

Aluminum Storage Drawer shown in a Ford PI Utility

Being organized makes all the difference when seconds count

Cargo Cabinets

Keep files, gear, and weapons organized and accessible with our Cargo Cabinets

Weapons can be secured in drawers with Programmable Symplex Locks or Gun Racks with momentary switches and 8 second timers, dependant on the cabinet

Universal Trunk Organizers

Universal Options fit most vehicles

Flat bottom, rectangular designs can rest on the load floor or any other flat surface

Dimensions:

- D3825L Clear, Polycarbonate Lid - 29" d x 43" w x 10" h
- D3805 Black ABS Lid - 28" w x 18" d x 10½" h

Easy open lids and rearrangeable dividers

Vehicle Specific Trunk/Cargo Area Organizers

Vehicle Specific Options make new use of the spare tire well they fit snug into the cavity with the lid resting flush to the load floor for an out-of-the-way storage option

Portable Printer D2951

Open Slot D3000

Multi Slot D2950

Seat Organizers

Our Seat Organizers are ideal for toting around smaller items so they are close at hand and easy to find when needed

Perfect for pool cars when officers need to take their gear with them at the end of their shift

Heavy duty ABS organizers mount on any flat surface or seat

Dimensions:

- D2951 Portable Printer - 20" h x 14¾" w x 10" d, accommodates printers up to: 14" w x 8½" h x 5" d
- D3000 Open Slot - 19¼" h x 14¼" w x 4¼" d
- D2950 Multi Slot - 19¼" h x 14¼" w x 3½" d

Officers have a wide variety of tasks to perform on even their most normal routines. As such, they tend to acquire a lot of equipment and duty gear to help them with each individual task.

The more gear they put into their trunks and cargo areas, the harder it becomes to find the right item when seconds count.

Equipping them with our storage and organization units keeps them organized and prepared so they can grab what they need and focus on the situation at hand.

Trunk Tray and Trunk Organizer shown in a Ford PI Sedan

Push Bumpers

You can have both a push bumper for clearing roadways or as an additional lighting platform with either of our designs

We have recently redesigned our Push Bumper line to accommodate the changing profiles of today's police package vehicles

Three sizes are now available to best fit each police package vehicle

Of course if you prefer our Universal Style Push Bumpers, we still offer those as well, to maintain an existing look with your fleet

Choose either Integrated LEDs or standard Non-lighted

Integrated LEDs are recessed into the top rail

Rear Window Guards

Help protect expensive gear from smash and grab thefts by adding a layer of protection to the wrap-around style windows of SUVs that leave equipment and duty gear highly visible

Rear Window Guards shown on Chevy Tahoe

Protection for the vehicle directly effects officer safety

Ballistic Door Panels

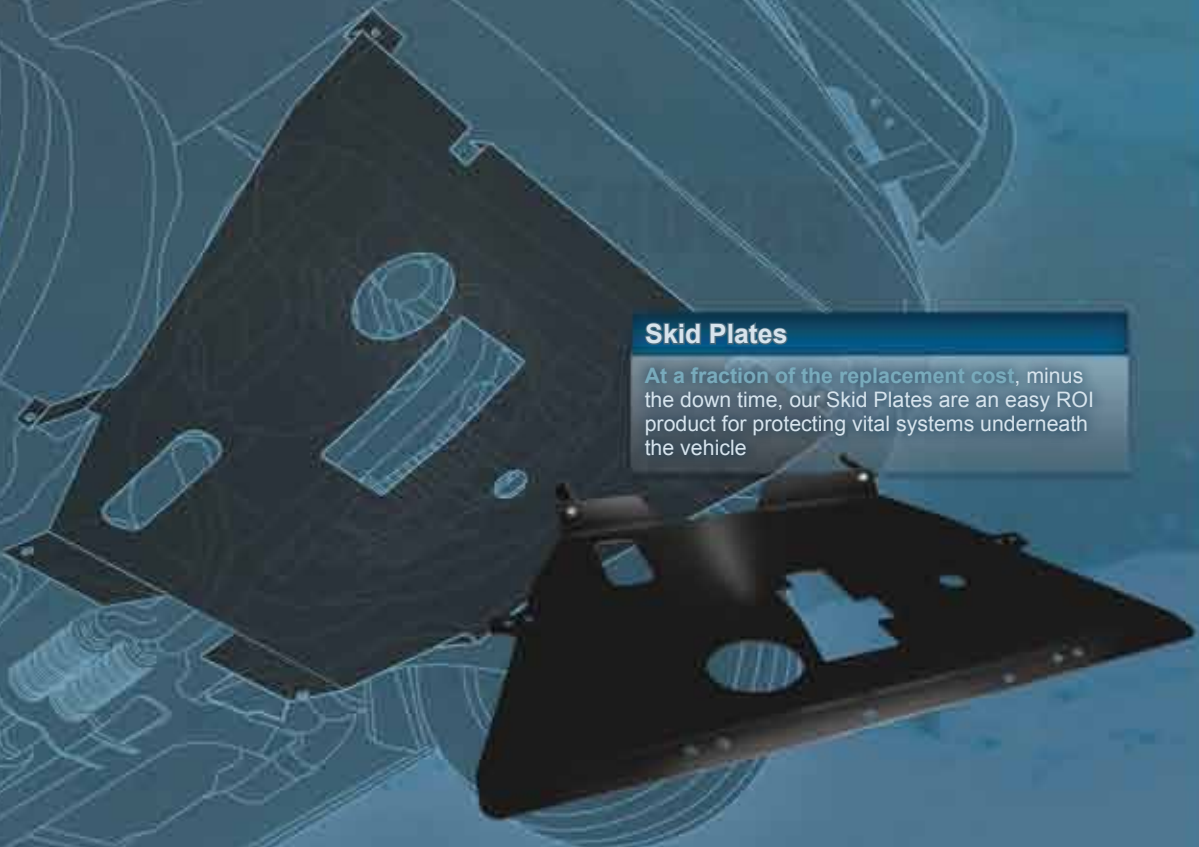

Easily add NIJ Level III or IIIA Ballistic Protective cover inside the doors with our Ballistic Door Panels that tuck between the exterior and interior door panel for additional concealed protection

Don't need them for the whole fleet? Consider a few for your most aggressive beats

Skid Plates

At a fraction of the replacement cost, minus the down time, our Skid Plates are an easy ROI product for protecting vital systems underneath the vehicle

Push Bumper shown on Chevy Tahoe

In today's market, officers have a plethora of protective gear options available to help them function safely. Likewise, adding our external protection to cruisers gives them and the officer added protection.

Whether it be mounting equipment to increase visibility or using existing OEM slots and bolts for easier, quicker installations, we design our products with the officer and agency in mind.

Prisoner Transport Products • Gun Racks • Electronic Vehicle Protection Products
Organization & Storage Products • Exterior Vehicle Protection Products

Since 1968, Pro-gard Products has been designing, engineering, and manufacturing products that help protect officers and make their jobs easier so they can keep their focus on the situation at hand. From our very first Prisoner Partition design to our most recent innovative Viper Shield Enhanced Partitions, our goal when designing products is that they are built strong, perform reliably, and remain secure.

For this reason, agencies have grown to trust the Pro-gard brand, knowing that we stand behind our designs and the officers and agencies we build our products for.
