The Contract, Appendices, and Exhibits constitute the entire agreement between DIR and the Vendor. B. Modification of Contract Terms and/or Amendments

- 1)** The terms and conditions of the Contract shall govern all transactions by Customers under the Contract. The Contract may only be modified or amended upon mutual written agreement of DIR and Vendor.
- 2)** Customers shall not have the authority to modify the terms of the Contract; however, additional Customer terms and conditions that do not conflict with the Contract and are acceptable to Order Fulfiller may be added in a Purchase Order and given effect. No additional term or condition added in a Purchase Order issued by a Customer can conflict with or diminish a term or condition of the Contract. Pre-printed terms and conditions on any Purchase Order issued by Customer hereunder will have no force and effect. In the event of a conflict between a Customer's Purchase Order and the Contract, the Contract term shall control.
- 3)** Customers and Vendor will negotiate and enter into written agreements regarding statements of work, service level agreements, remedies, acceptance criteria, information confidentiality and security requirements, and other terms specific to their Purchase Orders under the Contract with Vendors.

C. Invalid Term or Condition

- 1)** To the extent any term or condition in the Contract conflicts with the applicable State and/or United States law or regulation, such Contract term or condition is void and unenforceable. By executing a contract which contains the conflicting term or condition, DIR makes no representations or warranties regarding the enforceability of such term or condition and DIR does not waive the applicable State and/or United States law or regulation which conflicts with the Contract term or condition.
- 2)** If one or more terms or conditions in the Contract, or the application of any term or condition to any party or circumstance, is held invalid, unenforceable, or illegal in any respect by a final judgment or order of the State Office of Administrative Hearings or a court of competent jurisdiction, the remainder of the Contract and the application of the term or condition to other parties or circumstances shall remain valid and in full force and effect.

D. Assignment

DIR or Vendor may assign the Contract without prior written approval to: i) a successor in interest (for DIR, another state agency as designated by the Texas Legislature), or ii) a subsidiary, parent company or affiliate, or iii) as necessary to satisfy a regulatory requirement imposed upon a party by a governing body with the appropriate authority. Assignment of the Contract under the above terms shall require written notification by the assigning party and, for Vendor, a mutually agreed written Contract amendment. Any other assignment by a party shall require the written consent of the other party and a mutually agreed written Contract amendment.

E. Survival

All applicable software license agreements, warranties or service agreements that were entered into between Vendor and a Customer under the terms and conditions of the Contract shall survive the expiration or termination of the Contract. All Purchase Orders issued and accepted by Vendor or Order Fulfiller shall survive expiration or termination of the Contract for the term of the Purchase Order, unless the Customer terminates the Purchase Order sooner. However, regardless of the term of the Purchase Order, no Purchase Order shall survive the expiration or termination of the Contract for more than five years, unless Customer makes an express finding and justification for the longer term. The finding and justification must either be included in the Purchase Order, or referenced in it and maintained in Customer's procurement record. Rights and obligations under this Contract which by their nature should survive, including, but not limited to the DIR Administrative Fee; and any and all payment obligations invoiced prior to the termination or expiration hereof; obligations of confidentiality; and, indemnification, will remain in effect after termination or expiration hereof.

F. Choice of Law

Vendor may not incur any debts, obligations, expenses, or liabilities of any kind on behalf of the State or DIR.

H. Proof of Financial Stability

Either DIR or Customer may require Vendor to provide proof of financial stability prior to or at any time during the contract term.

5. Intellectual Property Matters

A. Definitions

1) "Work Product" means any and all deliverables produced by Vendor for Customer under a Statement of Work issued pursuant to this Contract, including any and all tangible or intangible items or things that have been or will be prepared, created, developed, invented or conceived at any time following the effective date of the Contract, including but not limited to any (i) works of authorship (such as manuals, instructions, printed material, graphics, artwork, images, illustrations, photographs, computer programs, computer software, scripts, object code, source code or other programming code, HTML code, flow charts, notes, outlines, lists, compilations, manuscripts, writings, pictorial materials, schematics, formulae, processes, algorithms, data, information, multimedia files, text web pages or web sites, other written or machine readable expression of such works fixed in any tangible media, and all other copyrightable works), (ii)

trademarks, service marks, trade dress, trade names, logos, or other indicia of source or origin, (iii) ideas, designs, concepts, personality rights, methods, processes, techniques, apparatuses, inventions, formulas, discoveries, or improvements, including any patents, trade secrets and know-how, (iv) domain names, (v) any copies, and similar or derivative works to any of the foregoing, (vi) all documentation and materials related to any of the foregoing, (vii) all other goods, services or deliverables to be provided to Customer under the Contract or a Statement of Work, and (viii) all Intellectual Property Rights in any of the foregoing, and which are or were created, prepared, developed, invented or conceived for the use or benefit of Customer in connection with this Contract or a Statement of Work, or with funds appropriated by or for Customer or Customer's benefit: (a) by any Vendor personnel or Customer personnel, or (b) any Customer personnel who then became personnel to Vendor or any of its affiliates or subcontractors, where, although creation or reduction-to-practice is completed while the person is affiliated with Vendor or its personnel, any portion of same was created, invented or conceived by such person while affiliated with Customer.

2) "Intellectual Property Rights" means the worldwide legal rights or interests evidenced by or embodied in: (i) any idea, design, concept, personality right, method, process, technique, apparatus, invention, discovery, or improvement, including any patents, trade secrets, and know-how; (ii) any work of authorship, including any copyrights, moral rights or neighboring rights; (iii) any trademark, service mark, trade dress, trade name, or other indicia of source or origin; (iv) domain name registrations; and (v) any other proprietary or similar rights. The Intellectual Property Rights of a party include all worldwide legal rights or interests that the party may have acquired by assignment or license with the right to grant sublicenses.

3) "Statement of Work" means a document signed by Customer and Vendor describing a specific set of activities and/or deliverables, which may include Work Product and Intellectual Property Rights, that Vendor is to provide Customer, issued pursuant to the Contract.

4) "Third Party IP" means the Intellectual Property Rights of any third party that is not a party to this Contract, and that is not directly or indirectly providing any goods or services to Customer under this Contract.

5) "Vendor IP" shall mean all tangible or intangible items or things, including the Intellectual Property Rights therein, created or developed by Vendor (a) prior to providing any Services or Work Product to Customer and prior to receiving any documents, materials, information or funding from or on behalf of Customer relating to the Services or Work Product, or (b) after the Effective Date of the Contract if such tangible or intangible items or things were independently developed by Vendor outside Vendor's provision of Services or Work Product for Customer hereunder and were not created, prepared, developed, invented or conceived by any Customer personnel who then became personnel to Vendor or any of its affiliates or subcontractors, where, although creation or reduction-to-practice is completed while the person is affiliated with Vendor or its personnel, any portion of same was created, invented or conceived by such person while affiliated with Customer.

B. Ownership.

As between Vendor and Customer, the Work Product and Intellectual Property Rights therein are and shall be owned exclusively by Customer, and not Vendor. Vendor specifically agrees that the Work Product shall be considered "works made for hire" and that the Work Product shall, upon creation, be owned exclusively by Customer. To the extent that the Work Product, under applicable law, may not be considered works made for hire, Vendor hereby agrees that the Contract effectively transfers, grants, conveys, assigns, and relinquishes exclusively to Customer all right, title and interest in and to all ownership rights in the Work Product, and all Intellectual Property Rights in

the Work Product, without the necessity of any further consideration, and Customer shall be entitled to obtain and hold in its own name all Intellectual Property Rights in and to the Work Product. Vendor acknowledges that Vendor and Customer do not intend Vendor to be a joint author of the Work Product within the meaning of the Copyright Act of 1976. Customer shall have access, during normal business hours (Monday through Friday, 8AM to 5PM) and upon reasonable prior notice to Vendor, to all Vendor materials, premises and computer files containing the Work Product. Vendor and Customer, as appropriate, will cooperate with one another and execute such other documents as may be reasonably appropriate to achieve the objectives herein. No license or other right is granted hereunder to any Third Party IP, except as may be incorporated in the Work Product by Vendor.

C. Further Actions.

Vendor, upon request and without further consideration, shall perform any acts that may be deemed reasonably necessary or desirable by Customer to evidence more fully the transfer of ownership and/or registration of all Intellectual Property Rights in all Work Product to Customer to the fullest extent possible, including but not limited to the execution, acknowledgement and delivery of such further documents in a form determined by Customer. In the event Customer shall be unable to obtain Vendor's signature due to the dissolution of Vendor or Vendor's unreasonable failure to respond to Customer's repeated requests for such signature on any document reasonably necessary for any purpose set forth in the foregoing sentence, Vendor hereby irrevocably designates and appoints Customer and its duly authorized officers and agents as Vendor's agent and Vendor's attorney-in-fact to act for and in Vendor's behalf and stead to execute and file any such document and to do all other lawfully permitted acts to further any such purpose with the same force and effect as if executed and delivered by Vendor, provided however that no such grant of right to Customer is applicable if Vendor fails to execute any document due to a good faith dispute by Vendor with respect to such document. It is understood that such power is coupled with an interest and is therefore irrevocable. Customer shall have the full and sole power to prosecute such applications and to take all other action concerning the Work Product, and Vendor shall cooperate, at Customer's sole expense, in the preparation and prosecution of all such applications and in any legal actions and proceedings concerning the Work Product.

D. Waiver of Moral Rights.

Vendor hereby irrevocably and forever waives, and agrees never to assert, any Moral Rights in or to the Work Product which Vendor may now have or which may accrue to Vendor's benefit under U.S. or foreign copyright or other laws and any and all other residual rights and benefits which arise under any other applicable law now in force or hereafter enacted. Vendor acknowledges the receipt of equitable compensation for its assignment and waiver of such Moral Rights. The term "Moral Rights" shall mean any and all rights of paternity or integrity of the Work Product and the right to object to any modification, translation or use of the Work Product, and any similar rights existing under the judicial or statutory law of any country in the world or under any treaty, regardless of whether or not such right is denominated or referred to as a moral right.

E. Confidentiality.

All documents, information and materials forwarded to Vendor by Customer for use in and preparation of the Work Product shall be deemed the confidential information of Customer, and subject to the license granted by Customer to Vendor under sub-paragraph H. hereunder. Vendor shall not use, disclose, or permit any person to use or obtain the Work Product, or any portion thereof, in any manner without the prior written approval of Customer.

F. Injunctive Relief.

The Contract is intended to protect Customer's proprietary rights pertaining to the Work Product, and the Intellectual Property Rights therein, and any misuse of such rights would cause substantial and irreparable harm to Customer's business. Therefore, Vendor acknowledges and stipulates that a

court of competent jurisdiction may immediately enjoin any material breach of the intellectual property, use, and confidentiality provisions of this Contract, upon a request by Customer, without requiring proof of irreparable injury as same should be presumed.

G. Return of Materials Pertaining to Work Product.

Upon the request of Customer, but in any event upon termination or expiration of this Contract or a Statement of Work, Vendor shall surrender to Customer all documents and things pertaining to the Work Product, including but not limited to drafts, memoranda, notes, records, drawings, manuals, computer software, reports, data, and all other documents or materials (and copies of same) generated or developed by Vendor or furnished by Customer to Vendor, including all materials embodying the Work Product, any Customer confidential information, or Intellectual Property Rights in such Work Product, regardless of whether complete or incomplete. This section is intended to apply to all Work Product as well as to all documents and things furnished to Vendor by Customer or by anyone else that pertain to the Work Product.

H. Vendor License to Use.

Customer hereby grants to Vendor a non-transferable, non-exclusive, royalty-free, fully paid-up license to use any Work Product solely as necessary to provide the Services to Customer. Except as provided in this Section, neither Vendor nor any Subcontractor shall have the right to use the Work Product in connection with the provision of services to its other customers without the prior written consent of Customer, which consent may be withheld in Customer's sole discretion.

I. Third-Party Underlying and Derivative Works.

To the extent that any Vendor IP or Third Party IP are embodied or reflected in the Work Product, or are necessary to provide the Services, Vendor hereby grants to the Customer, or shall obtain from the applicable third party for Customer's benefit, the irrevocable, perpetual, non-exclusive, worldwide, royalty-free right and license, for Customer's internal business purposes only, to (i) use, execute, reproduce, display, perform, distribute copies of, and prepare derivative works based upon such Vendor IP or Third Party IP and any derivative works thereof embodied in or delivered to Customer in conjunction with the Work Product, and (ii) authorize others to do any or all of the foregoing. Vendor agrees to notify Customer on delivery of the Work Product or Services if such materials include any Third Party IP. On request, Vendor shall provide Customer with documentation indicating a third party's written approval for Vendor to use any Third Party IP that may be embodied or reflected in the Work Product.

J. Agreement with Subcontracts.

Vendor agrees that it shall have written agreement(s) that are consistent with the provisions hereof related to Work Product and Intellectual Property Rights with any employees, agents, consultants, contractors or subcontractors providing Services or Work Product pursuant to the Contract, prior to their providing such Services or Work Product, and that it shall maintain such written agreements at all times during performance of this Contract, which are sufficient to support all performance and grants of rights by Vendor. Copies of such agreements shall be provided to the Customer promptly upon request.

K. License to Customer.

Vendor grants to Customer, a perpetual, irrevocable, royalty free license, solely for the Customer's internal business purposes, to use, copy, modify, display, perform (by any means), transmit and prepare derivative works of any Vendor IP embodied in or delivered to Customer in conjunction with the Work Product. The foregoing license includes the right to sublicense third parties, solely for the purpose of engaging such third parties to assist or carryout Customer's internal business use of the Work Product. Except for the preceding license, all rights in Vendor IP remain in Vendor.

L. Vendor Development Rights.

To the extent not inconsistent with Customer's rights in the Work Product or as set forth herein, nothing in this Contract shall preclude Vendor from developing for itself, or for others, materials which are competitive with those produced as a result of the Services provided hereunder, provided that no Work Product is utilized, and no Intellectual Property Rights of Customer therein are infringed by such competitive materials. To the extent that Vendor wishes to use the Work Product, or acquire licensed rights in certain Intellectual Property Rights of Customer therein in order to offer competitive goods or services to third parties, Vendor and Customer agree to negotiate in good faith regarding an appropriate license and royalty agreement to allow for such.

6. Product Terms and Conditions

Note: NO EXCEPTIONS OR REVISIONS WILL BE CONSIDERED

2) Upon request, but not later than thirty (30) calendar days after request, Vendor shall provide DIR with a completed Voluntary Product Accessibility Template (VPAT) of the specified product or a URL to the VPAT for reviewing compliance with the State Accessibility requirements (based on the federal standards established under Section 508 of the Rehabilitation Act).

B. Purchase of Commodity Items (Applicable to State Agency Purchases Only)

1) Texas Government Code, §2157.068 requires State agencies to buy commodity items, as defined in 6.B.2, below, in accordance with contracts developed by DIR, unless the agency obtains an exemption from DIR or a written certification that a commodity is not on DIR contract (for the limited purpose of purchasing from a local government purchasing cooperative).

2) Commodity items are commercially available software, hardware and technology services that are generally available to businesses or the public and for which DIR determines that a reasonable demand exists in two or more state agencies. Hardware is the physical technology used to process, manage, store, transmit, receive or deliver information. 7. Contract Fulfillment and Promotion

All sales to Customers for products and services available under the Contract shall be processed through the Contract.

B. Use of Order Fulfillers

1) Designation of Order Fulfillers

a) Vendor may designate Order Fulfillers to act as the distributors for products and services available under the Contract. In designating Order Fulfillers, Vendor must be in compliance with the State's Policy on Utilization of Historically Underutilized Businesses. In addition to the required Subcontracting Plan, Vendor shall provide DIR with the following Order Filler information: Order Filler name, Order Filler business address, Order Filler CPA Identification Number, Order Filler contact person email address and phone number.

b) DIR reserves the right to require the Vendor to rescind any such Order Filler participation or request that Vendor name additional Order Fulfillers should DIR determine it is in the best interest of the State.

c) Vendor shall be fully liable for its Order Fulfillers' performance under and compliance with the terms and conditions of the Contract. Vendor shall enter into contracts with Order Fulfillers and use terms and conditions that are consistent with the terms and conditions of the Contract.

2) Changes in Order Filler List

Vendor may add or delete Order Fulfillers throughout the term of the Contract upon written authorization by DIR. Prior to adding or deleting Order Fulfillers, Vendor must make a good faith effort in the revision of its Subcontracting Plan in accordance with the State's Policy on Utilization of Historically Underutilized Businesses. Vendor may revise its pricing (but not its discount rate, if any, and not the products or services on its contract pricing list) by posting a revised pricing list. Such revised pricing lists are subject to review by DIR. If DIR finds that a product's or service's price has been increased unreasonably, DIR may request Vendor to reduce its pricing for the product or service to the level published before the revision. Vendor must reduce its pricing, or remove the product from its pricing list. Failure to do so will constitute an act of default by Vendor.

DIR will select the auditor (and all payments to auditor will require DIR approval).

Failure to timely submit three (3) reports or administrative fee payments within any rolling twelve (12) month period may, at DIR's discretion, result in the addition of late fees of \$100/day for each day the report or payment is due (up to \$1000/month) or suspension or termination of Vendor's Contract..
