# IMPORTANT NOTICE

Prices shown in this book are list prices and do not include freight, setup, or handling unless specifically noted. Shipping weights listed in this book are approximate and include crating or skids where applicable. All prices are F.O.B. factory; freight shipments arranged by Rhino® will be per the published rate chart and subject to change. Rhino® reserves the right to ship items via motor freight collect at its discretion. Freight invoices are due 15 days after invoice date.

Prices, terms, and discounts are subject to change without notice. Orders placed will be accepted based on the price in effect at the time of shipment unless otherwise specified. Prices shown in this book do not include any applicable federal, provincial, state, or local taxes, or levies.

**Some products included in this book are only available to dealers authorized for the specific Alamo Group brand. Please contact your Alamo Ag sales representative with questions about availability or to inquire about adding the Rhino® or EarthMaster® brands to your account.**

Machines included in this price book conform to safety standards applicable to the products at the time of manufacture and may include safety devices such as shields, guards, or operator protective devices. Under no circumstances should machines be operated without the safety devices in place.

This document is confidential and is for use by authorized Rhino® or EarthMaster® dealership personnel only. It is not to be distributed for any purpose other than selling Rhino® or EarthMaster® branded products.

Rhino® and EarthMaster® reserve the right to make changes and/or improvements in design and construction of parts or machines shown herein without notice or obligation. Rhino® and EarthMaster® guarantee each piece of equipment against defective materials and workmanship for a period of one year from date of delivery unless otherwise noted.

## **ROTARY CUTTER OR FLAIL MOWER THROWN OBJECT PROTECTION**

Rhino offers three types of shielding to protect the operator, passersby, livestock, and property from mower thrown objects: deflectors, single chain guards, and double chain guards. Shielding should be selected based on the intended use of the mower. Double chain guards or deflectors should be used for highway, right-of-way, parks, or greenbelt mowing or other mowing where human dwellings, vehicles, or livestock could be within 300 feet of the mower. Chain guards are more durable, provide longer service life, and require less maintenance than deflectors. Single chain guards should be sufficient for agricultural and other mowing where passersby or property are not within 300 feet of the mower during operation.

No shielding is completely effective in preventing thrown objects. The possibility of injury or property damage from this hazard can be substantially reduced by selecting proper shielding, maintaining the mower and shielding in good operating condition, inspecting the area for foreign debris before mowing, operating the mower at a minimum cutting height of 4", and keeping people at least 300 feet from the mower at all times during operation.

## ***GENERAL PROVISIONS OF SALE***

1. No credit will be allowed for the return on any equipment or parts for Warranty unless arrangements for such are made prior to their return and Warranty Registration has been completed for the machine. Warranty registration must be done online at the following web address: [www.alamoagservicecenter.com](http://www.alamoagservicecenter.com).
2. In order to meet competitive situations, Rhino reserves the option to sell directly to Governmental Agencies or Private Experimental Organizations engaged in research and development without obligation to local Dealers or Distributors.
3. It is understood that the Dealer or Distributor will promptly unload implements from company trucks upon arrival at their place of business. Rhino must be notified within 30 days if shortages or overages are discovered.
4. It is understood that the Dealer or Distributor will promptly pick up Will-Call orders when notified that the order is ready.
5. Extra equipment and options listed in this Price Catalog may be ordered with Wholegoods units only.
6. Safety equipment may not be returned for credit.

# 3100

## Medium-Duty Offset Flex-Wing Rotary Cutter

Unit shown with extra equipment.

Double chain guards are highly recommended if the intended use is for highway, right of way, parks, green-belt mowing, and all other applications where humans, dwellings, vehicles, or livestock could be within 300 feet of the mower.

Blade Rotation for offset Flex-Wing Rotary Cutters have been designed to move cut material toward the wing for highway mowing purposes.

### BLADE ROTATION 10' OFFSET FLEX-WINGS

## ORDERING SECTION

To order complete machine, select one item each from groups 1 - 5.  
Order walking axle, special paint, and extra equipment as needed.

## Super-Duty Offset Flex-Wing Rotary Cutter

Unit shown with extra equipment.

Double chain guards are highly recommended if the intended use is for highway, right of way, parks, green-belt mowing, and all other applications where humans, dwellings, vehicles, or livestock could be within 300 feet of the mower.

Blade Rotation for offset Flex-Wing rotary cutters have been designed to move cut material toward the wing for highway mowing purposes.

\*\* Gearbox Ratings Based on Field Performance

These rotary cutters may be set up with single or double chain guards. For most agricultural applications, single chain guards may be used. If the intended use is for highway, right of way, parks, or greenbelt mowing, or all other mowing where human, dwellings, vehicles, or livestock could be within 300 feet of the mower, double chain guards should be ordered and used.

## Mechanically Driven Ditch Bank Mower

Shown with optional front right gauge wheel.

### STANDARD EQUIPMENT & SPECIFICATIONS

Cutting Width:	60"
Transport Width:	60"
Overall Width (Skid to Skid):	69 1/2"
Overall Length (Guard - Guard):	83 1/4"
Cutting Height:	1 1/2" - 12"
Hitch:	CAT 2 Std & CAT 3 Std
Blade Carrier:	Infinity - Cast
Blades:	1/2" x 4"
Blade Rotation:	Counter Clockwise
PTO HP Required (Min):	60 w/ 25% of Weight on Front Wheels
Min Tractor Weight:	5,000 lbs
Gearbox HP:	Center Deck 100 130
Tractor PTO Speed:	540 RPM 1000 RPM
Drive Type:	Mechanical
Mechanical Breakaway:	Std
Blade Tip Speed:	540 RPM 13,904 1000 RPM 14,128
Horizontal Reach (Max):	130"
Cutting Capacity (Max):	2"
Driveline Size:	CAT 4
Overload Protection:	Slip Clutch
Deck Thickness:	10 Ga
Side Skirt:	7 Ga x 9 1/8"
Range of Head Movement:	40° Up / 40° Down
Skid Shoes:	Replaceable/ Bolt on
Optional Gauge Wheel(s) (Max 3)	See Extra Equipment
Safety Guarding:	Single Chains
Weight (Approx):	1,900 lbs

**BACKHOE & EXCAVATOR MOUNTING BRACKET INFORMATION**  
**(See Section 2B for Weight and Price)**

Step 1: Choose H series digger that matches the hydraulic flow and pressure of the Backhoe or Excavator.

Step 2: Measure the width of the Backhoe or Excavator Dipper (outer boom section) at the connection point.

Step 3: Measure the pin diameter required to connect the digger to the Backhoe or Excavator.

Step 4: If the Dipper Width and Pin Diameter are the same as those listed in the chart below, order the part number that corresponds. If Part number is not shown for the size you need, contact Rhino Customer Service Department with your Dipper Width and Pin Diameter information so they can determine availability.

**Dipper Width & Pin Diameters for Mount Kits Listed in Section 2B**

Part Number	Dipper Width	Pin Diameter	Typical Application
