MRO Plumbing Supplies
RFP # SW 817- P
Attachment A: Cost Proposal

Instructions

There are eight (8) sheets in this workbook. The first sheet is the Tier 1 listing of products. The remaining sheets correspond to the six MRO plumbing sub-categories defined in the RFP Section C.1.

List of Sheets

1. Pipe
2. Fixtures
3. Brass
4. Pumps
5. Valves
6. Attached Plumbing Equipment

Respondents can go directly to the sheet(s) they are interested in bidding. However, Respondents are encouraged to go through all the sheets to maximize their bid coverage. Blank cells will be considered "No Response."

The pricing for the purposes of this RFP follows a tiered structure as defined in the RFP Section C.4. Each of the sub-category sheet asks the Respondents to fill out four sections:

a. Tier 1 Pricing

This is the firm fixed contract pricing part. A number of most frequently purchased items are listed, and the State expects the you to offer their most aggressive pricing in this tier. You are asked to bid on as many items as possible. You are expected to bid on the **identical items** as listed by filling out the columns under "Identical Items." However, in the event that the you do not carry the identical item but do carry a *similar* product, you may be respond by filling out the columns under "Functional Equivalents." You may also fill out both Identical Item and Functional Equivalent, if you carry the identical product but also carry a lower-priced functional equivalent. Please keep in mind if you carry the identical item, you should include it in the response. The quoted price will include Standard Shipping as defined in the RFP.

b. Tier 2 Pricing

A number of most popular manufacturers are listed in this section. Respondents are asked to enter a discount off list percentage specific to as many manufacturers as possible. You are also asked to provide the source of the list price. Additionally, there is space at the bottom to include more manufacturers for which you can offer the State deep discounts. The price calculated after applying the quoted discount percentage to the list price will include Standard Shipping as defined in the RFP.

Tier 2 - Pumps

| Ref # | Manufacturer | URL or Other Publicly Available Source of List Price | Proposed Discount Off List Price |
