- 1.2** At no time during the performance of the Contract shall the Supplier have the authority to obligate any Customer for payment for any products or services (a) when a corresponding encumbering document is not signed or (b) over and above an awarded Contract amount. Likewise, Supplier is not entitled to compensation for a product or service provided by or on behalf of Supplier that is neither requested nor accepted as satisfactory.

the same conditions and make identical certifications to the same facts and criteria, as the Supplier under the terms of all applicable Contract Documents. Supplier agrees that maintaining such agreement with any subcontractor and obtaining prior written approval by the State of any subcontractor and associated employees shall be a continuing obligation. The State further reserves the right to revoke approval of a subcontractor or an employee thereof in instances of poor performance, misconduct or for other similar reasons.

Supplier's access to facilities, data and information may be withheld prior to completion of background verification acceptable to the State. The costs of additional background checks beyond Supplier's normal hiring practices shall be the responsibility of the Customer unless such additional background checks are required solely because Supplier will not provide results of its otherwise acceptable normal background checks; in such an instance, Supplier shall pay for the additional background checks. Supplier will coordinate with the State and its employees to complete the necessary background checks and criminal history investigations. Should any employee or subcontractor of the Supplier who will be providing services under the Contract not be acceptable as a result of the background check or criminal history investigation, the Customer may require replacement of the employee or subcontractor in question and, if no suitable replacement is made within a reasonable time, terminate the purchase order or other payment mechanism associated with the project or services.

Should any third party threaten or make a claim that any portion of a product or service provided by Supplier under the Contract infringes that party's patent, intellectual property,

copyright or other property right, Supplier shall enable each affected Customer to legally continue to use, or modify for use, the portion of the product or service at issue or replace such potentially infringing product, or re-perform or redeliver in the case of a service, with at least a functional non-infringing equivalent. Supplier's duty under this section shall extend to include any other product or service rendered materially unusable as intended due to replacement or modification of the product or service at issue. If the Supplier determines that none of these alternatives are reasonably available, the State shall return such portion of the product or deliverable at issue to the Supplier, upon written request, in exchange for a refund of the price paid for such returned goods as well as a refund or reimbursement, if applicable, of the cost of any other product or deliverable rendered materially unusable as intended due to removal of the portion of product or deliverable at issue. Any remedy provided under this section is not an exclusive remedy and is not intended to operate as a waiver of legal or equitable remedies because of acceptance of relief provided by Supplier.

## **16 Indemnification**

### **16.1 Acts or Omissions**

- A.** Supplier shall defend and indemnify the Indemnified Parties, as applicable, for any and all liability, claims, damages, losses, costs, expenses, demands, suits and actions of third parties (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) arising out of, or resulting from any action or claim for bodily injury, death, or property damage brought against any of the Indemnified parties to the extent arising from any negligent act or omission or willful misconduct of the Supplier or its agents, employees, or subcontractors in the execution or performance of the Contract.
- B.** To the extent Supplier is found liable for loss, damage, or destruction of any property of Customer due to negligence, misconduct, wrongful act, or omission on the part of the Supplier, its employees, agents, representatives, or subcontractors, the Supplier and Customer shall use best efforts to mutually negotiate an equitable settlement amount to repair or replace the property unless such loss, damage or destruction is of such a magnitude that repair or replacement is not a reasonable option. Such amount shall be invoiced to, and is payable by, Supplier sixty (60) calendar days after the date of Supplier's receipt of an invoice for the negotiated settlement amount.

### **16.2 Infringement**

Supplier shall indemnify the Indemnified Parties, as applicable, for all liability, claims, damages, losses, costs, expenses, demands, suits and actions of third parties (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification) arising from or in connection with Supplier's breach of its representations and warranties in the Contract or alleged infringement of any patent, intellectual property, copyright or other property right in connection with a product or service provided under the Contract. Supplier's duty under this section is reduced to the extent a claimed infringement results from: (a) a Customer's or user's content; (b) modifications by Customer or third party to a product delivered under the Contract or combinations of the product with any non-Supplier-provided services or products unless Supplier recommended or participated in such modification or combination; (c) use of a product or service by Customer in violation of the Contract unless done so at the direction of Supplier, or (d) a non-Supplier product that has not been provided to the State by, through or on behalf of Supplier as opposed to its combination with products Supplier provides to or develops for the State or a Customer as a system.

### **16.3 Notice and Cooperation**

In connection with indemnification obligations under the Contract, the parties agree to furnish prompt written notice to each other of any third-party claim. Any Customer affected by the claim will reasonably cooperate with Supplier and defense of the claim to the extent its interests are aligned with Supplier. Supplier shall use counsel reasonably experienced in the subject matter at issue and will not settle a claim without the written consent of the party being defended, which consent will not be unreasonably withheld or delayed, except that no consent will be required to settle a claim against Indemnified Parties that are not a State agency, where relief against the Indemnified Parties is limited to monetary damages that are paid by the defending party under indemnification provisions of the Contract.

### **16.4 Coordination of Defense**

In connection with indemnification obligations under the Contract, when a State agency is a named defendant in any filed or threatened lawsuit, the defense of the State agency shall be coordinated by the Attorney General of Oklahoma, or the Attorney General may authorize the Supplier to control the defense and any related settlement negotiations; provided, however, Supplier shall not agree to any settlement of claims against the State without obtaining advance written concurrence from the Attorney General. If the Attorney General does not authorize sole control of the defense and settlement negotiations to Supplier, Supplier shall have authorization to equally

participate in any proceeding related to the indemnity obligation under the Contract and shall remain responsible to indemnify the applicable Indemnified Parties.

#### **16.5 Limitation of Liability**

- A.** With respect to any claim or cause of action arising under or related to the Contract, neither the State nor any Customer shall be liable to Supplier for lost profits, lost sales or business expenditures, investments, or commitments in connection with any business, loss of any goodwill, or for any other indirect, incidental, punitive, special or consequential damages, even if advised of the possibility of such damages.
- B.** Notwithstanding anything to the contrary in the Contract, no provision shall limit damages, expenses, costs, actions, claims, and liabilities arising from or related to property damage, bodily injury or death caused by Supplier or its employees, agents or subcontractors; indemnity, security or confidentiality obligations under the Contract; the bad faith, negligence, intentional misconduct or other acts for which applicable law does not allow exemption from liability of Supplier or its employees, agents or subcontractors.
- C.** The limitation of liability and disclaimers set forth in the Contract will apply regardless of whether Customer has accepted a product or service. The parties agree that Supplier has set its fees and entered into the Contract in reliance on the disclaimers and limitations set forth herein, that the same reflect an allocation of risk between the parties and form an essential basis of the bargain between the parties. These limitations shall apply notwithstanding any failure of essential purpose of any limited remedy.

### **17 Termination for Funding Insufficiency**

- 17.1** Notwithstanding anything to the contrary in any Contract Document, the State may terminate the Contract in whole or in part if funds sufficient to pay obligations under the Contract are not appropriated or received from an intended third-party funding source. In the event of such insufficiency, Supplier will be provided at least fifteen (15) calendar days' written notice of termination. Any partial termination of the Contract under this section shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that are not terminated. The determination by the State of insufficient funding shall be accepted by, and shall be final and binding on, the Supplier.

- 17.2** Upon receipt of notice of a termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contractor certain obligations are terminated shall be refunded.
- 17.3** The State's exercise of its right to terminate the Contract under this section shall not be considered a default or breach under the Contract or relieve the Supplier of any liability for claims arising under the Contract.

## **18 Termination for Cause**

- 18.1** Supplier may terminate the Contract if (i) it has provided the State with written notice of material breach and (ii) the State fails to cure such material breach within thirty (30) days of receipt of written notice. If there is more than one Customer, material breach by a Customer does not give rise to a claim of material breach as grounds for termination by Supplier of the Contract as a whole. The State may terminate the Contract in whole or in part if (i) it has provided Supplier with written notice of material breach, and (ii) Supplier fails to cure such material breach within thirty (30) days of receipt of written notice. Any partial termination of the Contract under this section shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that are not terminated.
- 18.2** The State may terminate the Contract in whole or in part immediately without a thirty (30) day written notice to Supplier if (i) Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract; (ii) Supplier's material breach is reasonably determined to be an impediment to the function of the State and detrimental to the State or to cause a condition precluding the thirty (30) day notice or (iii) when the State determines that an administrative error in connection with award of the Contract occurred prior to Contract performance.
- 18.3** Upon receipt of notice of a termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence

of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Such termination is not an exclusive remedy but is in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contract or certain obligations are terminated shall be refunded. Termination of the Contract under this section, in whole or in part, shall not relieve the Supplier of liability for claims arising under the Contract.

- 18.4** The Supplier's repeated failure to provide an acceptable product or service; Supplier's unilateral revision of linked or supplemental terms that have a materially adverse impact on a Customer's rights or obligations under the Contract (except as required by a governmental authority); actual or anticipated failure of Supplier to perform its obligations under the Contract; Supplier's inability to pay its debts when due; assignment for the benefit of Supplier's creditors; or voluntary or involuntary appointment of a receiver or filing of bankruptcy of Supplier shall constitute a material breach of the Supplier's obligations, which may result in partial or whole termination of the Contract. This subsection is not intended as an exhaustive list of material breach conditions. Termination may also result from other instances of failure to adhere to the Contract provisions and for other reasons provided for by applicable law, rules or regulations; without limitation, OAC 260:115-9-9 is an example.

## **19 Termination for Convenience**

- 19.1** The State may terminate the Contract, in whole or in part, for convenience if it is determined that termination is in the State's best interest. In the event of a termination for convenience, Supplier will be provided at least thirty (30) days' written notice of termination. Any partial termination of the Contract shall not be construed as a waiver of, and shall not affect, the rights and obligations of any party regarding portions of the Contract that remain in effect.
- 19.2** Upon receipt of notice of such termination, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to the effective date of termination, the termination does not relieve an obligation to pay for the product or service but

there shall not be any liability for further payments ordinarily due under the Contract or for any damages or other amounts caused by or associated with such termination. Such termination shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees that are unused when the Contract or certain obligations are terminated shall be refunded. Termination of the Contract under this section, in whole or in part, shall not relieve the Supplier of liability for claims arising under the Contract.

## **20 Suspension of Supplier**

- 20.1** Supplier may be subject to Suspension without advance notice and may additionally be suspended from activities under the Contract if Supplier fails to comply with confidentiality, privacy, security, environmental or safety requirements applicable to Supplier's performance or obligations under the Contract.
- 20.2** Upon receipt of a notice pursuant to this section, Supplier shall immediately comply with the notice terms and take all necessary steps to minimize the incurrence of costs allocable to the work affected by the notice. If a purchase order or other payment mechanism has been issued and a product or service has been accepted as satisfactory prior to receipt of notice by Supplier, the Suspension does not relieve an obligation to pay for the product or service but there shall not be any liability for further payments ordinarily due under the Contract during a period of Suspension or suspended activity or for any damages or other amounts caused by or associated with such Suspension or suspended activity. A right exercised under this section shall not be an exclusive remedy but shall be in addition to any other rights and remedies provided for by law. Any amount paid to Supplier in the form of prepaid fees attributable to a period of Suspension or suspended activity shall be refunded.
- 20.3** Such Suspension may be removed, or suspended activity may resume, at the earlier of such time as a formal notice is issued that authorizes the resumption of performance under the Contract or at such time as a purchase order or other appropriate encumbrance document is issued. This subsection is not intended to operate as an affirmative statement that such resumption will occur.

## **21 Certification Regarding Debarment, Suspension, and Other Responsibility Matters**

The certification made by Supplier with respect to Debarment, Suspension, certain indictments, convictions, civil judgments and terminated public contracts is a material representation of fact upon which reliance was placed when entering into the Contract.

A determination that Supplier knowingly rendered an erroneous certification, in addition to other available remedies, may result in whole or partial termination of the Contract for Supplier's default. Additionally, Supplier shall promptly provide written notice to the State Purchasing Director if the certification becomes erroneous due to changed circumstances.

## **22 Certification Regarding State Employees Prohibition From Fulfilling Services**

Pursuant to 74 O.S. § 85.42, the Supplier certifies that no person involved in any manner in development of the Contract employed by the State shall be employed to fulfill any services provided under the Contract.

## **23 Force Majeure**

**23.1** Either party shall be temporarily excused from performance to the extent delayed as a result of unforeseen causes beyond its reasonable control including fire or other similar casualty, act of God, strike or labor dispute, war or other violence, or any law, order or requirement of any governmental agency or authority provided the party experiencing the force majeure event has prudently and promptly acted to take any and all steps within the party's control to ensure continued performance and to shorten duration of the event. If a party's performance of its obligations is materially hindered as a result of a force majeure event, such party shall promptly notify the other party of its best reasonable assessment of the nature and duration of the force majeure event and steps it is taking, and plans to take, to mitigate the effects of the force majeure event. The party shall use commercially reasonable best efforts to continue performance to the extent possible during such event and resume full performance as soon as reasonably practicable.

**23.2** Subject to the conditions set forth above, non-performance as a result of a force majeure event shall not be deemed a default. However, a purchase order or other payment mechanism may be terminated if Supplier cannot cause delivery of a product or service in a timely manner to meet the business needs of Customer. Supplier is not entitled to payment for products or services not received and, therefore, amounts payable to Supplier during the force majeure event shall be equitably adjusted downward.

**23.3** Notwithstanding the foregoing or any other provision in the Contract, (i) the following are not a force majeure event under the Contract: (a) shutdowns, disruptions or malfunctions in Supplier's system or any of Supplier's telecommunication or internet services other than as a result of general and widespread internet or telecommunications failures that are not limited to Supplier's systems or (b) the delay or failure of Supplier or subcontractor personnel to perform any obligation of Supplier hereunder unless such delay

or failure to perform is itself by reason of a force majeure event and (ii) no force majeure event modifies or excuses Supplier's obligations related to confidentiality, indemnification, data security or breach notification obligations set forth herein.

## **24 Security of Property and Personnel**

In connection with Supplier's performance under the Contract, Supplier may have access to Customer personnel, premises, data, records, equipment and other property. Supplier shall use commercially reasonable best efforts to preserve the safety and security of such personnel, premises, data, records, equipment, and other property of Customer. Supplier shall be responsible for damage to such property to the extent such damage is caused by its employees or subcontractors and shall be responsible for loss of Customer property in its possession, regardless of cause. If Supplier fails to comply with Customer's security requirements, Supplier is subject to immediate suspension of work as well as termination of the associated purchase order or other payment mechanism.

## **25 Notices**

All notices, approvals or requests allowed or required by the terms of any Contract Document shall be in writing, reference the Contract with specificity and deemed delivered upon receipt or upon refusal of the intended party to accept receipt of the notice. In addition to other notice requirements in the Contract and the designated Supplier contact provided in a successful Bid, notices shall be sent to the State at the physical address set forth below. Notwithstanding any other provision of the Contract, confidentiality, breach and termination-related notices shall not be delivered solely via e-mail.

If transition services are needed at the time of Contract expiration or termination, Supplier shall provide such services on a month-to-month basis, at the contract rate or other mutually agreed rate. Supplier shall provide a proposed transition plan, upon request, and cooperate with any successor supplier and with establishing a mutually agreeable transition plan. Failure to cooperate may be documented as poor performance of Supplier.

#### **26.5 Publicity**

Supplier agrees to submit to the State all advertising, sales, promotion, and other publicity matters relating to the Contract wherein the name of the State or any Customer is mentioned or language used from which, in the State's judgment, an endorsement may be inferred or implied. Supplier further agrees not to publish or use such advertising, sales promotion, or publicity matter or release any informational pamphlets, notices, press releases, research reports, or similar public notices concerning the Contract or any Acquisition hereunder without obtaining the prior written approval of the State.

## **26.6 Open Records Act**

Such failure to enforce or exercise shall not affect the validity of any Contract Document, or any part thereof, or the right of the State or a Customer to enforce any provision of, or exercise any right under, the Contract at any time in accordance with its terms. Likewise, a waiver of a breach of any provision of a Contract Document shall not affect or waive a subsequent breach of the same provision or a breach of any other provision in the Contract.

## **26.8 Mutual Responsibilities**

- A.** No party to the Contract grants the other the right to use any trademarks, trade names, other designations in any promotion or publication without the express written consent by the other party.

#### **26.10 Severability**

If any provision of a Contract Document, or the application of any term or condition to any party or circumstances, is held invalid or unenforceable for any reason, the remaining provisions shall continue to be valid and enforceable and the application of such provision to other parties or circumstances shall remain valid and in full force and effect. If a court finds that any provision of this contract is invalid or unenforceable, but that by limiting such provision it would become valid and enforceable, then such provision shall be deemed to be written, construed, and enforced as so limited.

#### **26.11 Section Headings**

The headings used in any Contract Document are for convenience only and do not constitute terms of the Contract.

#### **26.12 Sovereign Immunity**

#### **26.13 Survival**

- 4.2** Personal information may be retained within electronic media devices and components; therefore, electronic media shall not be released either between Customers or for the resale, of refurbished equipment that has been in use by a Customer, by the Supplier to the general public or other entities. This provision applies to replacement devices and components, whether purchased or leased, supplied by Supplier, its agents or subcontractors during the downtime (repair) of products purchased or leased through the Contract. If a device is removed from a location for repairs, the Customer shall have sole discretion, prior to removal, to determine and implement sufficient safeguards (such as a record of hard drive serial numbers) to protect personal information that may be stored within the hard drive or memory of the device.

#### **5 Offshore Services**

No offshore services are provided for under the Contract. State data shall not be used or accessed internationally for troubleshooting or any other use not specifically provided for herein without the prior written permission, which may be withheld in the State's sole discretion, from the appropriate authorized representative of the State. Notwithstanding the above, back office administrative functions of the Supplier may be located offshore and the follow-the-sun support model may be used by the Supplier to the extent allowed by law applicable to any Customer data being accessed or used.

#### **6 Compliance with Technology Policies**

- 6.1** The Supplier agrees to adhere to the State of Oklahoma "Information Security Policy, Procedures, and Guidelines" available at [Information Security Policy, Procedures, Guidelines \(oklahoma.gov\)](https://oklahoma.gov/omes/services/information-services/is/policies-and-standards.html)

Supplier's employees and subcontractors shall adhere to the applicable State IT Standard Methodologies and Templates including but not limited to Project Management, Business Analysis, System Analysis, Enterprise and IT Architecture, Quality, Application and Security Methodologies and Templates as set forth at <https://oklahoma.gov/omes/services/information-services/is/policies-and-standards.html>

- 6.2** Supplier shall comply with applicable Federal Information Processing Standards including, without limitation, FIPS 200, FIPS 140-2 or successor standards and all recommendations from the National Institute of Standards and Technology. The confidentiality of Customer Data shall be protected and maintained in accordance with these standards as well as other

applicable Customer standards.

- 6.3** Supplier shall comply with the CJIS Security Policy as more particularly described at Appendix 2 attached hereto and incorporated herein.

## **7 Emerging Technologies**

## **8 Extension Right**

In addition to extension rights of the State set forth in the Contract, the State CIO reserves the right to extend any Contract if the State CIO determines such extension to be in the best interest of the State.

## **9 Source Code Escrow**

Pursuant to 62 O.S. § 34.31, if customized computer software is developed or modified exclusively for a State agency, the Supplier has a continuing obligation to comply with such law and place the source code for such software and any modifications thereto into escrow with an independent third-party escrow agent. Supplier shall pay all fees charged by the escrow agent and enter into an escrow agreement, the terms of which are subject to the prior written approval of the State, including terms that provide the State receives ownership of all escrowed source code upon the occurrence of any of the following:

- 9.1** A bona fide material default of the obligations of the Supplier under the agreement with the applicable Customer;
- 9.2** An assignment by the Supplier for the benefit of its creditors;
- 9.3** A failure by the Supplier to pay, or an admission by the Supplier of its inability to pay, its debts as they mature;
- 9.4** The filing of a petition in bankruptcy by or against the Supplier when such petition is not dismissed within sixty (60) days of the filing date;
- 9.5** The appointment of a receiver, liquidator or trustee appointed for any substantial part of the Supplier's property;
- 9.6** The inability or unwillingness of the Supplier to provide the maintenance and support services in accordance with the agreement with the agency;
- 9.7** Supplier's ceasing of maintenance and support of the software; or
- 9.8** Such other condition as may be statutorily imposed by the future amendment or enactment of applicable Oklahoma law.

## **10 Commercial Off The Shelf Software**

If Supplier specifies terms and conditions or clauses in an electronic license, subscription, maintenance, support or similar agreement that conflict with the terms of this Contract, the additional terms and conditions or conflicting clauses shall not be binding on the State and the provisions of this Contract shall prevail.

## **11 Ownership Rights**

Any software developed by the Supplier under the terms of the Contract is for the sole and exclusive use of the State including but not limited to the right to use, reproduce, re-use, alter, modify, edit, or change the software as it sees fit and for any purpose. Moreover, except with regard to any deliverable based on Supplier Intellectual Property, the State shall be deemed the sole and exclusive owner of all right, title, and interest therein, including but not limited to all source data, information and materials furnished to the State, together with all plans, system analysis, and design specifications and drawings, completed programs and documentation thereof, reports and listing, all data and test procedures and all other items pertaining to the work and services to be performed pursuant to this Contract including all copyright and proprietary rights relating thereto. With respect to Supplier Intellectual Property, the Supplier grants the State, for no additional consideration, a perpetual, irrevocable, royalty-free license, solely for the internal business use of the State, to use, copy, modify, display, perform, transmit and prepare derivative works of Supplier Intellectual Property embodied in or delivered to the State in conjunction with the products.

Except for any Supplier Intellectual Property, all work performed by the Supplier of developing, modifying or customizing software and any related supporting documentation shall be considered as Work for Hire (as defined under the U.S. copyright laws) and, as such, shall be owned by and for the benefit of State.

In the event that it should be determined that any portion of such software or related supporting documentation does not qualify as “Work for Hire”, Supplier hereby irrevocably grants to the State, for no additional consideration, a non-exclusive, irrevocable, royalty-free license to use, copy, modify, display, perform, transmit and prepare derivative works of any such software and any Supplier Intellectual Property embodied in or delivered to the State in conjunction with the products.

Supplier shall assist the State and its agents, upon request, in preparing U.S. and foreign copyright, trademark, and/or patent applications covering software developed, modified or customized for the State. Supplier shall sign any such applications, upon request, and deliver them to the State. The State shall bear all expenses that incurred in connection with such copyright, trademark, and/or patent applications.

If any Acquisition pursuant to this Contract is funded wholly or in part with federal funds, the source code and all associated software and related documentation owned by the State may be

shared with other publicly funded agencies at the discretion of the State without permission from or additional compensation to the Supplier.

## **12 Intellectual Property Ownership**

The following terms apply to ownership and rights related to Intellectual Property:

- 12.1** As between Supplier and Customer, the Work Product and Intellectual Property Rights therein are and shall be owned exclusively by Customer, and not Supplier. Supplier specifically agrees that the Work Product shall be considered “works made for hire” and that the Work Product shall, upon creation, be owned exclusively by Customer. To the extent that the Work Product, under applicable law, may not be considered works made for hire, Supplier hereby agrees that all right, title and interest in and to all ownership rights and all Intellectual Property Rights in the Work Product is hereby effectively transferred, granted, conveyed, assigned and relinquished exclusively to Customer, without the necessity of any further consideration, and Customer shall be entitled to obtain and hold in its own name all Intellectual Property Rights in and to the Work Product. Supplier acknowledges that Supplier and Customer do not intend Supplier to be a joint author of the Work Product within the meaning of the Copyright Act of 1976. Customer shall have access, during normal business hours (Monday through Friday, 8:00 a.m. to 5:00 p.m.) and upon reasonable prior notice to Supplier, to all Supplier materials, premises and computer files containing the Work Product. Supplier and Customer, as appropriate, will cooperate with one another and execute such other documents as may be reasonably appropriate to achieve the objectives herein. No license or other right is granted under the Contract to any Third-Party Intellectual Property, except as may be incorporated in the Work Product by Supplier.
- 12.2** Supplier, upon request and without further consideration, shall perform any acts that may be deemed reasonably necessary or desirable by Customer to evidence more fully the transfer of ownership and/or registration of all Intellectual Property Rights in all Work Product to Customer to the fullest extent possible including, but not limited to, the execution, acknowledgement and delivery of such further documents in a form determined by Customer. In the event Customer shall be unable to obtain Supplier’s signature due to the dissolution of Supplier or Supplier’s failure to respond to Customer’s repeated requests for such signature on any document reasonably necessary for any purpose set forth in the foregoing sentence, Supplier hereby irrevocably designates and appoints Customer and its duly authorized officers and agents as Supplier’s agent and Supplier’s attorney-in-fact to act for and in Supplier’s behalf and stead to execute and file any such document and to do all other lawfully permitted acts to further any such purpose with the same force and effect as if executed and delivered by Supplier, provided however that no such grant of right to Customer is applicable if Supplier fails to execute any document due to a good faith dispute by Supplier with respect to such document. It is understood that such power is coupled with an interest and is therefore irrevocable. Customer shall have the full and sole power to prosecute such applications and to take all other action concerning the Work Product, and Supplier shall cooperate, at Customer’s sole expense, in the preparation and

prosecution of all such applications and in any legal actions and proceedings concerning the Work Product.

- 12.3** Supplier hereby irrevocably and forever waives, and agrees never to assert, any Moral Rights in or to the Work Product which Supplier may now have or which may accrue to Supplier's benefit under U.S. or foreign copyright or other laws and any and all other residual rights and benefits which arise under any other applicable law now in force or hereafter enacted. Supplier acknowledges the receipt of equitable compensation for its assignment and waiver of such Moral Rights.
- 12.4** All documents, information and materials forwarded to Supplier by Customer for use in and preparation of the Work Product shall be deemed the confidential information of Customer, subject to the license granted by Customer to Supplier hereunder. Supplier shall not otherwise use, disclose, or permit any third party to use or obtain the Work Product, or any portion thereof, in any manner without the prior written approval of Customer.
- 12.5** These provisions are intended to protect Customer's proprietary rights pertaining to the Work Product and the Intellectual Property Rights therein and any misuse of such rights would cause substantial and irreparable harm to Customer's business. Therefore, Supplier acknowledges and stipulates that a court of competent jurisdiction may immediately enjoin a material breach of the Supplier's obligations with respect to confidentiality provisions of the Contract and the Work Product and a Customer's Intellectual Property Rights, upon a request by Customer, without requiring proof of irreparable injury, as same is presumed.
- 12.6** Upon the request of Customer, but in any event upon termination or expiration of this Contract or a statement of work, Supplier shall surrender to Customer all documents and things pertaining to the Work Product, generated or developed by Supplier or furnished by Customer to Supplier, including all materials embodying the Work Product, any Customer confidential information and Intellectual Property Rights in such Work Product, regardless of whether complete or incomplete. This section is intended to apply to all Work Product as well as to all documents and things furnished to Supplier by Customer or by anyone else that pertains to the Work Product.
- 12.7** Customer hereby grants to Supplier a non-transferable, non-exclusive, royalty-free, fully paid license to use any Work Product solely as necessary to provide services to Customer. Except as provided in this section, neither Supplier nor any subcontractor shall have the right to use the Work Product in connection with the provision of services to its other customers without the prior written consent of Customer, which consent may be withheld in Customer's sole discretion.
- 12.8** To the extent that any Third-Party Intellectual Property is embodied or reflected in the Work Product or is necessary to provide services, Supplier shall obtain from the applicable third party for the Customer's benefit, an irrevocable, perpetual, non-exclusive, worldwide, royalty-free license, solely for Customer's internal business purposes; likewise, with respect to any Supplier Intellectual Property embodied or reflected in the Work Product or

necessary to provide services, Supplier grants to Customer an irrevocable, perpetual, non-exclusive, worldwide, royalty-free license, solely for the Customer's internal business purposes. Each such license shall allow the applicable Customer to (i) use, copy, modify, display, perform (by any means), transmit and prepare derivative works of any Third-Party Intellectual Property or Supplier Intellectual Property embodied in or delivered to Customer in conjunction with the Work Product and (ii) authorize others to do any or all of the foregoing. Supplier agrees to notify Customer on delivery of the Work Product or services if such materials include any Third-Party Intellectual Property. The foregoing license includes the right to sublicense third parties, solely for the purpose of engaging such third parties to assist or carry out Customer's internal business use of the Work Product. Except for the preceding license, all rights in Supplier Intellectual Property remain in Supplier. On request, Supplier shall provide Customer with documentation indicating a third party's written approval for Supplier to use any Third-Party Intellectual Property that may be embodied or reflected in the Work Product.

- 12.9** Supplier agrees that it shall have written agreement(s) that are consistent with the provisions hereof related to Work Product and Intellectual Property Rights with any employees, agents, consultants, contractors or subcontractors providing services or Work Product pursuant to the Contract, prior to the provision of such services or Work Product and that it shall maintain such written agreements at all times during performance of this Contract which are sufficient to support all performance and grants of rights by Supplier. Copies of such agreements shall be provided to the Customer promptly upon request.
- 12.10** To the extent not inconsistent with Customer's rights in the Work Product or other provisions, nothing in this Contract shall preclude Supplier from developing for itself, or for others, materials which are competitive with those produced as a result of the services provided under the Contract, provided that no Work Product is utilized, and no Intellectual Property Rights of Customer therein are infringed by such competitive materials. To the extent that Supplier wishes to use the Work Product or acquire licensed rights in certain Intellectual Property Rights of Customer therein in order to offer competitive goods or services to third parties, Supplier and Customer agree to negotiate in good faith regarding an appropriate license and royalty agreement to allow for such.
- 12.11** If any Acquisition pursuant to the Contract is funded wholly or in part with federal funds, the source code and all associated software and related documentation and materials owned by a Customer may be shared with other publicly funded agencies at the discretion of such Customer without permission from or additional compensation to the Supplier.

## **13     Hosting Services**

- 13.1** If Supplier or its subcontractor, affiliate or any other person or entity providing products or services under the Contract Hosts Customer Data in connection with an Acquisition, the provisions of Appendix 1, attached hereto and incorporated herein, apply to such Acquisition.

**13.2** If the Hosting of Customer Data by Supplier or its subcontractor, affiliate or any other person or entity providing products or services under the Contract contributes to or directly causes a Data Breach, Supplier shall be responsible for the obligations set forth in Appendix 1 related to breach reporting requirements and associated costs. Likewise if such Hosting contributes to or directly causes a Security Incident, Supplier shall be responsible for the obligations set forth in Appendix 1, as applicable.

## **14 Change Management**

When a scheduled change is made to products or services provided to a Customer that impacts the Customer's system related to such product or service, Supplier shall provide two (2) weeks' prior written notice of such change. When the change is an emergency change, Supplier shall provide twenty-four (24) hours' prior written notice of the change. Repeated failure to provide such notice may be an evaluation factor (as indicative of Supplier's past performance) upon renewal or if future bids submitted by Supplier are evaluated by the State.

## **15 Service Level Deficiency**

In addition to other terms of the Contract, in instances of the Supplier's repeated failure to provide an acceptable level of service or meet service level agreement metrics, service credits shall be provided by Supplier and may be used as an offset to payment due.

## **16 Notices**

In addition to notice requirements under the terms of the Contract otherwise, the following individuals shall also be provided the request, approval or notice, as applicable:

Chief Information Officer  
3115 N. Lincoln Blvd  
Oklahoma City, OK 73105

**With a copy, which shall not constitute notice, to:**

Information Services Deputy Counsel  
3115 North Lincoln Boulevard  
Oklahoma City, Oklahoma 73105

## **Appendix 1 to State of Oklahoma Information Technology Terms**

The parties agree to the following provisions in connection with any Customer Data accessed, processed or stored by or on behalf of the Supplier and the obligations, representations and warranties set forth below shall continue as long as the Supplier has an obligation under the Contract

### **A. Customer Data**

1. Customer will be responsible for the accuracy and completeness of all Customer Data provided to Supplier by Customer. Customer shall retain exclusive ownership of all Customer Data. Non-Public Data and Personal Data shall be deemed to be Customer's confidential information. Supplier shall restrict access to Customer Data to their employees with a need to know (and advise such employees of the confidentiality and non-disclosure obligations assumed herein).
2. Supplier shall promptly notify the Customer upon receipt of any requests from unauthorized third parties which in any way might reasonably require access to Customer Data or Customer's use of the Hosted environment. Supplier shall notify the Customer by the fastest means available and also in writing pursuant to Contract notice provisions and the notice provision herein. Except to the extent required by law, Supplier shall not respond to subpoenas, service or process, Freedom of Information Act or other open records requests, and other legal request related to Customer without first notifying the Customer and obtaining the Customer's prior approval, which shall not be unreasonably withheld, of Supplier's proposed responses. Supplier agrees to provide its completed responses to the Customer with adequate time for Customer review, revision and approval.
3. Supplier will use commercially reasonable efforts to prevent the loss of or damage to Customer Data in its possession and will maintain commercially reasonable back-up procedures and copies to facilitate the reconstruction of any Customer Data that may be lost or damaged by Supplier. Supplier will promptly notify Customer of any loss, damage to, or unauthorized access of Customer Data. Supplier will use commercially reasonable efforts to reconstruct any Customer Data that has been lost or damaged by Supplier as a result of its negligence or willful misconduct. If Customer Data is lost or damaged for reasons other than as a result of Supplier's negligence or willful misconduct, Supplier, at the Customer's expense, will, at the request of the State, use commercially reasonable efforts to reconstruct any Customer Data lost or damaged.

### **B. Data Security**

1. Supplier will use commercially reasonable efforts, consistent with industry standards, to provide security for the Hosted environment and Customer Data and to protect against both unauthorized access to the Hosting environment, and unauthorized communications between the Hosting environment and the Customer's browser. Supplier shall implement and maintain appropriate administrative, technical and organizational security measures to safeguard against unauthorized access, disclosure or theft of Personal Data and Non-Public

Data. Such security measures shall be in accordance with recognized industry practice and not less stringent than the measures the service provider applies to its own personal data and non-public data of similar kind.

2. All Personal Data and Non-public Data shall be encrypted at rest and in transit with controlled access. Unless otherwise stipulated, the service provider is responsible for encryption of Personal Data.
3. Supplier represents and warrants to the Customer that the Hosting equipment and environment will be routinely checked with a commercially available, industry standard software application with up-to-date virus definitions. Supplier will regularly update the virus definitions to ensure that the definitions are as up-to-date as is commercially reasonable. Supplier will promptly purge all viruses discovered during virus checks. If there is a reasonable basis to believe that a virus may have been transmitted to Customer by Supplier, Supplier will promptly notify Customer of such possibility in a writing that states the nature of the virus, the date on which transmission may have occurred, and the means Supplier has used to remediate the virus. Should the virus propagate to Customer's IT infrastructure, Supplier is responsible for costs incurred by Customer for Customer to remediate the virus.
4. Supplier shall provide its services to Customer and its users solely from data centers in the U.S. Storage of Customer Data at rest shall be located solely in data centers in the U.S. Supplier shall not allow its personnel or contractors to store Customer Data on portable devices, including personal computers, except for devices that are used and kept only at its U.S. data centers. Supplier shall permit its personnel and contractors to access Customer Data remotely only as required to fulfill Supplier's obligations under the Contract.
5. Supplier shall allow the Customer to audit conformance to the Contract terms. The Customer may perform this audit or contract with a third party at its discretion and at Customer's expense.
6. Supplier shall perform an independent audit of its data centers at least annually at its expense and provide a redacted version of the audit report upon request. Supplier may remove its proprietary information from the redacted version. A Service Organization Control (SOC) 2 audit report or approved equivalent sets the minimum level of a third-party audit.
7. Any remedies provided in this Appendix are not exclusive and are in addition to other rights and remedies available under the terms of the Contract, at law or in equity.

#### **C. Security Assessment**

1. The State requires any entity or third-party Supplier Hosting Oklahoma Customer Data to submit to a State Certification and Accreditation Review process to assess initial security risk. Supplier submitted to the review and met the State's minimum security standards at time the Contract was executed. Failure to maintain the State's minimum security standards

during the term of the contract, including renewals, constitutes a material breach. Upon request, the Supplier shall provide updated data security information in connection with a potential renewal. If information provided in the security risk assessment changes, Supplier shall promptly notify the State and include in such notification the updated information; provided, however, Supplier shall make no change that results in lessened data protection or increased data security risk. Failure to provide the notice required by this section or maintain the level of security required in the Contract constitutes a material breach by Supplier and may result in a whole or partial termination of the Contract.

2. Any Hosting entity change must be approved in writing prior to such change. To the extent Supplier requests a different sub-contractor than the third-party Hosting Supplier already approved by the State, the different sub-contractor is subject to the State's approval. Supplier agrees not to migrate State's data or otherwise utilize the different third-party Hosting Supplier in connection with key business functions that are Supplier's obligations under the contract until the State approves the third-party Hosting Supplier's State Certification and Accreditation Review, which approval shall not be unreasonably withheld or delayed. In the event the third-party Hosting Supplier does not meet the State's requirements under the State Certification and Accreditation Review, Supplier acknowledges and agrees it will not utilize the third-party Supplier in connection with key business functions that are Supplier's obligations under the contract, until such third party meets such requirements.

**D. Security Incident or Data Breach Notification:** Supplier shall inform Customer of any Security Incident or Data Breach.

1. Supplier may need to communicate with outside parties regarding a Security Incident, which may include contacting law enforcement, fielding media inquiries and seeking external expertise as mutually agreed upon, defined by law or contained in the Contract. If a Security Incident involves Customer Data, Supplier will coordinate with Customer prior to any such communication.
2. Supplier shall report a Security Incident to the Customer identified contact set forth herein within five (5) days of discovery of the Security Incident or within a shorter notice period required by applicable law or regulation (i.e. HIPAA requires notice to be provided within 24 hours).
3. Supplier shall:
  - a. Maintain processes and procedures to identify, respond to and analyze Security Incidents;
  - b. Make summary information regarding such procedures available to Customer at Customer's request;
  - c. Mitigate, to the extent practicable, harmful effects of Security Incidents that are known to Supplier; and

d. Document all Security Incidents and their outcomes.

4. If Supplier has reasonable belief or actual knowledge of a Data Breach, Supplier shall (1) promptly notify the appropriate Customer identified contact set forth herein within 24 hours or sooner, unless shorter time is required by applicable law, and (2) take commercially reasonable measures to address the Data Breach in a timely manner.

E. **Breach Responsibilities:** This section only applies when a Data Breach occurs with respect to Personal Data or Non-Public Data within the possession or control of Supplier.

1. Supplier shall (1) cooperate with Customer as reasonably requested by Customer to investigate and resolve the Data Breach, (2) promptly implement necessary remedial measures, if necessary, and (3) document responsive actions taken related to the Data Breach, including any post-incident review of events and actions taken to make changes in business practices in providing the services, if necessary.
2. Unless otherwise stipulated, if a Data Breach is a direct result of Supplier's breach of its obligation to encrypt Personal Data and Non-Public Data or otherwise prevent its release, Supplier shall bear the costs associated with (1) the investigation and resolution of the Data Breach; (2) notifications to individuals, regulators or others required by state law; (3) credit monitoring services required by state or federal law; (4) a website or toll-free numbers and call center for affected individuals required by state law – all not to exceed the agency per record per person cost calculated for data breaches in the United States on the most recent Cost of Data breach Study: Global Analysis published by the Ponemon Institute at the time of the data breach; and (5) complete all corrective actions as reasonably determined by Supplier based on root cause.
3. If a Data Breach is a direct result of Supplier's breach of its obligations to encrypt Personal Data and Non-Public Data or otherwise prevent its release, Supplier shall indemnify and hold harmless the Customer against all penalties assessed to Indemnified Parties by governmental authorities in connection with the Data Breach.

F. **Notices**

In addition to notice requirements under the terms of the Contract and those set forth above, a request, an approval or a notice in connection with this Appendix provided by Supplier shall be provided to:

Chief Information Security Officer

3115 N. Lincoln Blvd

Oklahoma City, OK 73105

and

servicedesk@omes.ok.gov.

## **G. Supplier Representations and Warranties**

Supplier represents and warrants the following:

1. The product and services provided in connection with Hosting services do not infringe a third party's patent or copyright or other intellectual property rights.
2. Supplier will protect Customer's Non-Public Data and Personal Data from unauthorized dissemination and use with the same degree of care that each such party uses to protect its own confidential information and, in any event, will use no less than a reasonable degree of care in protecting such confidential information.
3. The execution, delivery and performance of the Contract and any ancillary documents and the consummation of the transactions contemplated by the Contract or any ancillary documents by Supplier will not violate, conflict with, or result in a breach of any provision of, or constitute a default (or an event which, with notice or lapse of time or both, would constitute a default) under, or result in the termination of, any written contract or other instrument between Supplier and any third parties retained or utilized by Supplier to provide goods or services for the benefit of the Customer.
4. Supplier shall not knowingly upload, store, post, e-mail or otherwise transmit, distribute, publish or disseminate to or through the Hosting environment any material that contains software viruses, malware or other surreptitious code designed to interrupt, destroy or limit the functionality of any computer software or hardware or telecommunications equipment or circumvent any "copy-protected" devices, or any other harmful or disruptive program.

## **H. Indemnity**

Supplier agrees to defend, indemnify and hold the State, its officers, directors, employees, and agents harmless from all liabilities, claims, damages, losses, costs, expenses, demands, suits and actions (including without limitation reasonable attorneys' fees and costs required to establish the right to indemnification), excluding damages that are the sole fault of Customer, arising from or in connection with Supplier's breach of its express representations and warranties in these Information Technology Terms and the Contract. If a third party claims that any portion of the products or services provided by Supplier under the terms of another Contract Document or these Information Technology Terms infringes that party's patent or copyright, Supplier shall defend, indemnify and hold harmless the State and Customer against the claim at Supplier's expense and pay all related costs, damages, and attorney's fees incurred by or assessed to, the State and/or Customer. The State and/or Customer shall promptly notify Supplier of any third party claims and to the extent authorized by the Attorney General of the State, allow Supplier to control the defense and any related settlement negotiations. If the Attorney General of the State does not authorize sole control of the defense and settlement negotiations to Supplier, Supplier shall be granted authorization to equally participate in any proceeding related to this section but Supplier shall remain responsible to indemnify Customer and the State for all associated costs, damages and fees incurred by or assessed to the State and/or Customer. Should the software become, or in Supplier's

opinion, be likely to become the subject of a claim or an injunction preventing its use as contemplated in connection with Hosting services, Supplier may, at its option (i) procure for the State the right to continue using the software or (ii) replace or modify the software with a like or similar product so that it becomes non-infringing.

## **I. Termination, Expiration and Suspension of Service**

1. During any period of service suspension, Supplier shall not take any action to intentionally disclose, alter or erase any Customer Data.

2. In the event of a termination or expiration of the Contract, the parties further agree:

Supplier shall implement an orderly return of Customer Data in a format specified by the Customer and, as determined by the Customer:

a. return the Customer Data to Customer at no additional cost, at a time agreed to by the parties and the subsequent secure disposal of State Data;

b. transitioned to a different Supplier at a mutually agreed cost and in accordance with a mutually agreed data transition plan and the subsequent secure disposal of State Data or

c. a combination of the two immediately preceding options.

3. Supplier shall not take any action to intentionally erase any Customer Data for a period of:

a. 10 days after the effective date of termination, if the termination is in accordance with the contract period;

b. 30 days after the effective date of termination, if the termination is for convenience; or

c. 60 days after the effective date of termination, if the termination is for cause.

After such period, Supplier shall, unless legally prohibited or otherwise stipulated, delete all Customer Data in its systems or otherwise in its possession or under its control.

4. The State shall be entitled to any post termination or expiration assistance generally made available with respect to the services.

5. Disposal by Supplier of Customer Data in all of its forms, such as disk, CD/DVD, backup tape and paper, when requested by the Customer, shall be performed in a secure manner. Data shall be permanently deleted and shall not be recoverable, according to National Institute of Standards and Technology (NIST)-approved methods. Certificates of destruction shall be provided to Customer within thirty (30) calendar day of its request for disposal of data.

## Appendix 2 to State of Oklahoma Information Technology Terms

### INTRODUCTION

The use and maintenance of all items of software or equipment offered for purchase herein must be in compliance with the most current version of the U.S. Department of Justice, Federal Bureau of Investigation (“FBI”), Criminal Justice Information Services (CJIS) Division’s CJIS Security Policy (“CJIS Security Policy” or “Security Policy” herein).

The Entity or Affiliate acquiring the data or system is hereby ultimately responsible for compliance with the CJIS Security Policy and will be subject to an audit by the State of Oklahoma CJIS Systems Officer (“CSO”) and the FBI CJIS Division’s Audit Staff.

### CJIS SECURITY POLICY REQUIREMENTS GENERALLY

The CJIS Security Policy outlines a number of administrative, procedural, and technical controls agencies must have in place to protect Criminal Justice Information (“CJI”). Our experience is that agencies will generally have many of the administrative and procedural controls in place but will need to implement additional technical safeguards in order to be in complete compliance with the mandate. A Criminal Justice Agency (“CJA”) and certain other governmental agencies procuring technology equipment and services that could be used in hosting or connecting or transmitting or receiving CJI data may need to use the check list herein to make sure that the software, equipment, location, security, and persons having the ability to access CJI will meet the CJIS requirements per the then current CJIS Security Policy. A completed Appendix H to said Security Policy will need to be signed by Vendor or a 3<sup>rd</sup> party if it has access to CJI, such as incident to the maintenance or support of the purchased hardware or software within which resides CJI. **Per Appendix “A” to said Security Policy, “access to CJI is the physical or logical (electronic) ability, right or privilege to view, modify or make use of CJI.”**

### DIRECTIVE CONCERNING ACCESS TO CRIMINAL JUSTICE INFORMATION AND TO HARDWARE OR SOFTWARE WHICH INTERACTS WITH CJI and CERTIFICATION

The FBI CJIS Division provides state-of-the-art identification and information services to the local, state, tribal, federal, and international criminal justice communities for criminal justice purposes, as well as the noncriminal justice communities for noncriminal justice purposes.

**This Directive primarily concerns access to CJI and access to hardware and software in the use, retention, transmission, reception, and hosting of CJI for criminal justice purposes and not for noncriminal justice purposes.** In that regard, this Directive is not only applicable to such data, but also to the hardware and software interacting with such data, their location(s), and persons having the ability to access such data. The CJIS data applicable to the Security Policy is the data described as such in said Policy **plus all data transmitted over the Oklahoma Law Enforcement Telecommunications System (“OLETS”) which is operated by DPS.**

In order to have access to CJI or to the aforesaid hardware or software, the vendor must be familiar with the FBI CJIS Security Policy, including but not limited to the following portions of said Security Policy:

1. the Definitions and Acronyms in §3 & Appendices “A” & “B”;

2. the general policies in §4;
3. the Policies in §5;
4. the appropriate forms in Appendices “D”, “E”, “F” & “H”; and
5. the Supplemental Guidance in Appendices “J” & “K”.

This FBI Security Policy is located and may be downloaded at: <https://www.fbi.gov/services/cjis/cjis-security-policy-resource-center>.

By executing the Contract to which this Directive is attached, the vendor hereby CERTIFIES that the foregoing directive has and will be followed, including but not limited to full compliance with the FBI CJIS Security Policy, as amended and as applicable.

  - xv. The Client shall have the right to void the contract if the contractor fails to provide the safeguards described above.
- b. **CRIMINAL/CIVIL SANCTIONS:** The Act specifically provides civil remedies, 5 U.S.C. Sec. 552a(g), including damages, and criminal penalties, 5 U.S.C. Sec. 552a(i), for violations of the Act. The civil action provisions are premised violations of the Act committed by parties subject to this Agreement or regulations promulgated thereunder. An individual claiming such a violation by parties subject to this Agreement may bring civil action in a federal district court. If the individual substantially prevails, the court may assess reasonable attorney fees and other litigation costs. In addition, the court may direct the parties subject to this Agreement to grant the plaintiff access to his/her records, and when appropriate direct an amendment or correction of records subject to the Act. Actual damages may be awarded to the plaintiff for intentional or willful refusal by parties subject to this Agreement to comply with the Act.
- i. **Civil Remedies.**
    - (1) In any suit brought under the provisions of 5 U.S.C. § 552a(g)(1)(C) or (D) in which the court determines that the parties subject to this Agreement acted in a manner which was intentional or willful, shall be liable in an amount equal to the sum of —
      - (a) actual damages sustained by the individual because of the refusal or failure, but in no case, shall a person entitled to recovery receive less than the sum of \$1,000; and
      - (b) the costs of the action together with reasonable attorney fees as determined by the court.
    - (2) An action to enforce any liability created under 5 U.S.C. § 552a may be brought in the district court of the United States in the district in which the complainant resides, or has his principal place of business, or in which the records are situated, or in the District of Columbia, without regard to the amount in controversy, within two years from the date on which the cause of action arises, except that where

parties subject to this Agreement have materially and willfully misrepresented any information required under this section to be disclosed to an individual and the information so misrepresented is material to establishment of the liability of the agency to the individual under 5 U.S.C. § 552a, the action may be brought at any time within two years after discovery by the individual of the misrepresentation. Nothing in this section shall be construed to authorize any civil action because of any injury sustained as the result of a disclosure of a record prior to September 27, 1975.

ii. Criminal Penalties

- (1) Any officer or employee of an agency, who by virtue of his employment or official position, has possession of, or access to, agency records which contain individually identifiable information the disclosure of which is prohibited by this section or by rules or regulations established thereunder, and who knowing that disclosure of the specific material is so prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000. See 5 U.S.C. § 552a(i)(1).
- (2) Any officer or employee of any agency who willfully maintains a system of records without meeting the notice requirements of subsection (e)(4) of this section shall be guilty of a misdemeanor and fined not more than \$5,000. See 5 U.S.C. § 552a(i)(2).
- (3) Any person who knowingly and willfully requests or obtains any record concerning an individual from an agency under false pretenses shall be guilty of a misdemeanor and fined not more than \$5,000. See 5 U.S.C. § 552a(i)(3).

**6. Child Support FPLS Requirements (If applicable)**

- a. Contractor, when applicable and to the extent within Contractor's control, and the applicable State of Oklahoma agency must comply with the security requirements established by the Social Security Act, the Privacy Act of 1974, the Federal Information Security Management Act of 2002 (FISMA), 42 United States Code (USC) 654(26), 42 UCS 654a(d)(1)-(5), the U.S. Department of Health and Human Services (HHS), the U.S. Department of Health and Human Services Administration of Children and Families Office of Child Support Enforcement Security Agreement and the Automated Systems for Child Support Enforcement: A Guide for States Section H Security and Privacy. Contractor and applicable State of Oklahoma agency also agree to use Federal Parent Locator Service (FPLS) information and Child Support (CS) program information solely for the authorized purposes in accordance with the terms in this agreement. The information exchanged between state Child Support agencies and all other state program information must be used for authorized purposes and protected against unauthorized access to reduce fraudulent activities and protect the privacy rights of individuals against unauthorized disclosure of confidential information.

- i. This is applicable to the personnel, facilities, documentation, data, electronic and physical records and other machine-readable information systems of the applicable State of Oklahoma agency and Contractor, including, but not limited to, state employees and contractors working with FPLS information and CS program information and state CS agency data centers, statewide centralized data centers, contractor data centers, state Health and Human Services' data centers, comprehensive tribal agencies, data centers serving comprehensive tribes, and any other individual or entity collecting, storing, transmitting or processing FPLS information and CS program information. This is applicable to all FPLS information, which consists of the National Directory of New Hires (NDNH), Debtor File, and the Federal Case Registry (FCR). The NDNH, Debtor File and FCR are components of an automated national information system.
- ii. This is also applicable to all CS program information, which includes the state CS program information, other state and tribal program information, and confidential information. Confidential information means any information relating to a specified individual or an individual who can be identified by reference to one or more factors specific to him or her, including but not limited to the individual's Social Security number, residential and mailing addresses, employment information, and financial information. Ref. 45 Code of Federal Regulations (CFR) 303.21(a).

## **7. FERPA Requirements (If applicable)**

- a. If Contractor takes possession or control of Information covered by FERPA in performance of this Agreement, Contractor agrees to, when applicable and to the extent within Contractor's control comply with and assume responsibility for compliance by its employees with the Family Educational Rights and Privacy Act; (20 U.S.C. § 1232g; 34 CFR Part 99) ("FERPA") and the Oklahoma Student Data Accessibility, Transparency, and Accountability Act of 2013; (70 O.S. § 3-168), where personally identifiable student education data is exchanged.

## **8. CJIS Requirements (If applicable)**

- a. INTRODUCTION

This section shall be applicable to the extent that Contractor takes possession or control of CJIS data. The use and maintenance of all items of software or equipment offered for purchase herein must be in compliance with the most current version of the U.S. Department of Justice, Federal Bureau of Investigation ("FBI"), Criminal Justice Information Services (CJIS) Division's CJIS Security Policy ("CJIS Security Policy" or "Security Policy" herein).

The Entity or Affiliate acquiring the data or system is hereby ultimately responsible for compliance with the CJIS Security Policy and will be subject to an audit by the State of Oklahoma CJIS Systems Officer ("CSO") and the FBI CJIS Division's Audit Staff.

b. CJIS SECURITY POLICY REQUIREMENTS GENERALLY

The CJIS Security Policy outlines a number of administrative, procedural, and technical controls agencies must have in place to protect Criminal Justice Information (“CJI”). Our experience is that agencies will generally have many of the administrative and procedural controls in place but will need to implement additional technical safeguards in order to be in complete compliance with the mandate. A Criminal Justice Agency (“CJA”) and certain other governmental agencies procuring technology equipment and services that could be used in hosting or connecting or transmitting or receiving CJI data may need to use the check list herein to make sure that the software, equipment, location, security, and persons having the ability to access CJI will meet the CJIS requirements per the then current CJIS Security Policy. A completed Appendix H to said Security Policy will need to be signed by Vendor or a 3rd party if it has access to CJI, such as incident to the maintenance or support of the purchased hardware or software within which resides CJI. Per Appendix “A” to said Security Policy, “access to CJI is the physical or logical (electronic) ability, right or privilege to view, modify or make use of CJI.”

c. DIRECTIVE CONCERNING ACCESS TO CRIMINAL JUSTICE INFORMATION AND TO HARDWARE OR SOFTWARE WHICH INTERACTS WITH CJI AND CERTIFICATION

The FBI CJIS Division provides state-of-the-art identification and information services to the local, state, tribal, federal, and international criminal justice communities for criminal justice purposes, as well as the noncriminal justice communities for noncriminal justice purposes.

This Directive primarily concerns access to CJI and access to hardware and software in the use, retention, transmission, reception, and hosting of CJI for criminal justice purposes and not for noncriminal justice purposes. In that regard, this Directive is not only applicable to such data, but also to the hardware and software interacting with such data, their location(s), and persons having the ability to access such data. The CJIS data applicable to the Security Policy is the data described as such in said Policy plus all data transmitted over the Oklahoma Law Enforcement Telecommunications System (“OLETS”) which is operated by DPS.

In order to have access to CJI or to the aforesaid hardware or software, the vendor must be familiar with the FBI CJIS Security Policy, including but not limited to the following portions of said Security Policy:

1. the Definitions and Acronyms in §3 & Appendices “A” & “B”;

2. the general policies in §4;
3. the Policies in §5;
4. the appropriate forms in Appendices “D”, “E”, “F” & “H”; and
5. the Supplemental Guidance in Appendices “J” & “K”.

This FBI Security Policy is located and may be downloaded at:  
<https://www.fbi.gov/services/cjis/cjissecurity-policy-resource-center>.

By executing the Contract to which this Directive is attached, the vendor hereby CERTIFIES that the foregoing directive has and will be followed, including but not limited to full compliance with the FBI CJIS Security Policy, as amended and as applicable.

Customers have no proprietary or ownership rights to a specific number, IP address, or e-mail address assigned to Customer or Customer's device as part of a Service or Product. Customer and its users may not use the Service or Products to send harassing, threatening, obscene, fraudulent, unlawful, abusive or unsolicited commercial text, e-mail or other messages, or in such a way as to create damage, harm or risk to Supplier's business, reputation, employees, subscribers, facilities, third parties or to the public generally. Customer will cooperate with Supplier in investigating all unauthorized use and suspected unlawful or fraudulent use associated with its Master Accounts.

3. Surcharges; Taxes and Fees.

- a. Customer rates and charges for Products and Services do not include applicable Taxes, Fees, or Surcharges. If permitted by applicable federal and state laws, regulations, or rules Supplier may invoice Customer, and Customer will be responsible for paying, all Taxes and Fees, and all Surcharges. Taxes and Fees are calculated and invoiced to Customer's Master Account based on existing laws, regulations and guidance, and may change without notice. In certain cases, depending on the nature of Customer's business, Customer may be able to claim an exemption from some Taxes and Fees. If Customer is claiming a tax exemption, Customer must promptly provide Supplier with valid documentation evidencing its exemption. Surcharges are calculated by Supplier and may change from time to time without notice regardless of any pricing commitments elsewhere in this Contract.
- b. **Tax Situs.** Customer will provide Supplier with accurate address information, not including a P.O. Box, for each user. This street address is where Service will be provided to each of Customer's users (also known as a place of primary use, or "PPU"), and the address(es) is used to determine the Taxes, Fees

---

and Surcharges applied to the line(s) of Service in Customer's Master Account. Customer will notify Supplier of any changes in any users' PPU. If Customer does not provide Supplier with accurate address information, Supplier will use the best information available to determine a PPU, which might be a default location and that may result in Customer paying a higher or lower amount in Taxes and Fees, and Surcharges, than if Supplier had received accurate information.

- c. **Withholding.** Where Customer concludes that there is a requirement for Customer to withhold any tax or fee from any payments due under this Contract, Customer will promptly notify Supplier of its conclusion and why withholding applies, such as by providing a copy of a notice from the IRS or a state directing Customer to withhold such tax or fee from any payments due Supplier, and Customer will allow Supplier to remediate or resolve the withholding obligation. To the extent that Supplier cannot resolve the withholding obligation by the applicable due date, Supplier agrees that Customer may withhold the required taxes and fees, provided that Customer promptly provides Supplier evidence of the withheld taxes and fees paid to the government. If Customer neglects to promptly tell Supplier of Customer's obligation to withhold any taxes and fees from any payments due Customer, Customer agrees that it will pay Supplier the gross amount due as if no such withholding applied.

4. **Additional Terms and Conditions Regarding Suspension & Termination.**

- a. **Immediate Suspension and Termination.** Supplier may immediately, and without notice, suspend or terminate applicable lines of Service, or limit new Orders, if Supplier suspects unlawful or fraudulent use of the Services or Products.
- b. **Suspension and Termination with Notice.** For any material breach of this Contract by a Customer, Supplier may suspend or terminate the Services, or terminate this Contract (as to the Customer only), if Customer fails to cure such breach within thirty (30) days of the date of written notice from Supplier to Customer. If Supplier suspends or terminates Service or Customer's Master Account, and later reinstates Services or the Master Account, Customer may be charged a reactivation fee.
- c. Supplier will not honor any Orders placed after the expiration, cancellation or termination of the Contract, or otherwise inconsistent with its terms. Orders for any separate indefinite quantity, task orders, or other form of indefinite delivery order arrangement priced against the Contract may not be placed after the expiration, cancellation or termination of the Contract, notwithstanding the term of any such indefinite delivery order agreement. Any purchase order or other applicable payment mechanism dated prior to termination or expiration of the Contract shall be performed unless mutually agreed in writing otherwise.
- d. **Wireless Services Lines Following Termination of this Contract.** If Customer terminates an Order with respect to Customer lines purchased under this Contract, all lines of wireless services will, until such time as Customer terminates the line(s): (a) remain active under Customer's Master Account; and (b) be subject to the terms and conditions of this Contract. If Supplier terminates this Contract under this Section (with respect to a Customer's lines of wireless Service), all lines of wireless Services will be automatically terminated effective as of the effective date of such termination.
- e. Supplier's and Customers remedies under this Section are not exclusive, but are in addition to all other remedies permitted under this Contract.

5. **Disputed Charges.** If Customer disputes any Charges, Customer must notify Supplier of such dispute within sixty (60) days from the date the Charges were first billed. ALL SERVICES AND PRODUCTS ARE PROVIDED "AS IS" AND "WITH ALL FAULTS," AND CUSTOMER ASSUMES ALL RESPONSIBILITY AND RISK FOR USE OF THE SERVICE AND PRODUCTS, EXCEPT FOR ANY WRITTEN LIMITED WARRANTY THAT MAY BE PROVIDED BY THE MANUFACTURER WITH THE PRODUCTS OR IF CUSTOMER RECEIVED A WRITTEN "T-MOBILE LIMITED WARRANTY" WITH A PRODUCT. ANY STATEMENTS MADE IN PACKAGING, MANUALS OR OTHER DOCUMENTS, OR BY ANY OF SUPPLIER'S AGENTS (EXCEPT FOR THE "T-MOBILE LIMITED WARRANTY"), ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY AND NOT AS WARRANTIES BY SUPPLIER PARTIES. THE SUPPLIER PARTIES DO NOT AUTHORIZE ANYONE TO MAKE A WARRANTY OF ANY KIND ON THEIR BEHALF AND CUSTOMERS WILL NOT RELY ON ANY SUCH STATEMENT. THE SUPPLIER PARTIES DO NOT GUARANTEE THAT A CUSTOMER'S COMMUNICATIONS WILL BE PRIVATE OR SECURE; IT IS ILLEGAL FOR UNAUTHORIZED PEOPLE TO INTERCEPT CUSTOMER COMMUNICATIONS, BUT SUCH INTERCEPTIONS CAN OCCUR. CUSTOMER IS SOLELY RESPONSIBLE FOR MAINTAINING VIRUS AND OTHER INTERNET SECURITY PROTECTIONS WHEN ACCESSING THE INTERNET, SERVICES AND THIRD-PARTY PRODUCTS AND SERVICES. SOME STATES MAY LIMIT THE DISCLAIMER OF CERTAIN REMEDIES AND THE FOREGOING APPLIES TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW.

**7. Additional Disclaimers.**

Supplier Parties are not responsible for any download, installation, use, transmission failure, interruption, or delay related to any Third-Party Products, content, advertisements, or websites Customer or its Users may be able to access by using the Services or Products, even if Charges for the Third-Party Products appear on the Supplier invoice. In connection with the Apple Program: (a) Supplier Parties are not responsible for Apple's use, storage, transmission, processing, disclosure, or disposal of any Device Information in connection with the Apple Program; (b) Customer uses the Apple Program at Customer's own risk; and (c) Customer's use of the Apple Program will be governed solely by terms and conditions between Customer and Apple.

**8. Account Access Authorization.** Each Customer authorizes Supplier's authorized support staff to access Customer's Master Accounts to perform maintenance, service, or security functions where warranted by Supplier's business or security procedures, even in the absence of a direct request from the Customer. For example, such access includes, but is not limited to: change of address where Supplier receives notice of such a change from the United States Postal Service, or security passwords where Supplier detects a password compromise.

**9. Account Management (Customer Authorization).** Customer may authorize (via a written letter) a third-party to act as Customer's agent for purposes of procuring necessary support services related to this Contract.

**10. Technology Evolution.**

- a. In the normal course of technology evolution and enhancement, Supplier continually updates its Services, Products and networks. In some instances, these efforts will result in the need to ultimately replace or discontinue certain offerings or technologies. In such event, Supplier will undertake such efforts in a customer-focused and commercially reasonable manner. Accordingly and notwithstanding anything in this Agreement to the contrary, Supplier reserves the right, in its sole discretion, after providing the notice set forth in subsection (b) below, to: (a) migrate a Customer to a replacement technology; or (b) discontinue any Service, Product, network standard, or technology without either

---

Supplier, the State or Customer being in breach of this Contract or incurring early termination liability relating to the discontinuance of the affected Service, Product, network standard, or technology.

- b.** If Supplier takes any action set forth in subsection (a) above, Supplier will provide at least 45 day notice reasonably designed to inform each Customer (if affected) of such pending action..

**EXHIBIT B**  
**ADDITIONAL TERMS FOR MASTER ACCOUNT WIRELESS SERVICE**

**1. Pricing.** Most of T-Mobile Rate Plans have month-to-month Service terms. Customer may terminate a Master Account line of Wireless Service at any time upon written notice to T-Mobile. Customer remains responsible for all Charges incurred up to and including the date of termination of such line of Service. In addition, Customer remains responsible for all credits that need to be repaid to T-Mobile as a result of Customer's early termination of applicable lines of Service that received any credits prior to the end of the Subsidy Term of such lines of Service. If Customer purchases Devices through T-Mobile's EIP ("EIP Devices"), then the terms of the EIP agreement will supersede and control the purchase of the EIP Devices.

**2. Orders.** Orders will be processed pursuant to T-Mobile's standard activation procedures. By placing an Order for Devices, Customer agrees that Devices are intended to be activated on T-Mobile's Wireless Service for use only by Customer and its employees, and Customer will not materially modify the Devices' hardware or preloaded software, or assist any third party in doing so, in a way that would lead to security risks. For the avoidance of doubt, the foregoing restriction does not prohibit Customer from adding applications or Third-Party Products to Devices in accordance with the Agreement. Devices are subject to availability. The delivery address must fall within T-Mobile's licensed Wireless Service area. If Customer has a Device or accessory under T-Mobile's EIP or lease, then Customer will refer to the terms and conditions of that agreement.

**3. Changes.** For the Rate Plans listed in the Agreement, T-Mobile will not increase Customer's MRC for Wireless Services (excluding add-on features, Taxes and Fees, Surcharges, fees, or charges for additional features or Devices) for the period that applies to Customer's Rate Plan, or if no specific period applies, for as long as Customer continuously remains a T-Mobile customer in good standing on a qualifying Rate Plan. For clarity, T-Mobile shall honor all applicable tax exemptions of the State. T-Mobile may change the features and the terms of use of Rate Plans made available to lines of Wireless Services or Devices at any time. If the change to Customer's Wireless Services or Rate Plan has an adverse effect on Customer, T-Mobile will provide Customer with a minimum of 30 days' notice prior to the change. Subject to the Acceptance terms in Section 6.2 of Attachment B, Customer accepts the changes to the Wireless Services terms by using the Wireless Services after the effective date of the change. Rate Plan changes will be effective as of Customer's next billing cycle. For clarity, any term/feature change to the rate plans shall be agreed to by the State at the master agreement level and not at the purchase order level by the Customer.

**4. Service Availability, Service Coverage.**

**4.1** Wireless Service is available to a Device only when it is within the operating range of T-Mobile's Network or the network of an operator with which T-Mobile has an applicable roaming agreement. Coverage maps are available at [www.t-mobile.com](http://www.t-mobile.com) and are only estimates of T-Mobile's anticipated coverage area outdoors. Customer's actual Wireless Service area, network availability, coverage, and quality may vary and change without notice based upon a number of factors, including network capacity, terrain, weather, if Customer's Users are on a private or public Wi-Fi network, using a non-T-Mobile Device, or if a Device no longer supports network technologies compatible with, or available on, T-Mobile's network. Outages and interruptions in Wireless Service may occur, and speed of Wireless Service varies. Devices also have varying speed capabilities and may connect to different networks depending on technology. Even within coverage areas and with broadband-capable Devices, network changes, traffic volume, outages, technical limitations, signal strength, obstructions, weather, and other conditions may impact speeds and Wireless Service availability. T-Mobile may impose usage or Wireless Service limits, suspend Wireless Service, or exclude certain categories of

---

calls, messages, or sessions (e.g., conference and chat lines, broadcast, international, 900, 976 calls, etc.) in its sole discretion.

**4.2 Protective Measures.** T-Mobile engineers its Network to provide consistent high-speed data service, but at times and at locations where the number of customers using the network exceeds available network resources, customers will experience reduced data speeds. Further, to provide the best possible on-device experience for the most possible customers on T-Mobile branded rate plans, and to minimize capacity issues and degradation in network performance, T-Mobile may, without advance notice, take actions necessary to manage its network on a content-agnostic basis, including prioritizing all on-device data over Smartphone Mobile HotSpot (tethering) data and further prioritizing the data usage of a small percentage of heavy data users, specifically those using more than 50GB of data in a billing cycle, below that of all other customers in times and locations where there are competing customer demands for network resources, for the remainder of the billing cycle.

**4.3 Network Coverage.** Devices must be used predominantly within the T-Mobile-owned Network coverage area. Devices may connect to another provider's network ("**Off-Net**") even when Users are within the T-Mobile coverage area. Customer and its Users should check Customer's Device(s) to determine if Customer is Off-Net. Customer should not abuse Off-Net usage or T-Mobile may limit or terminate Customer's Wireless Service. T-Mobile may limit or terminate the affected line of Wireless Service in T-Mobile's discretion if (a) more than 50% of a User's voice and/or data usage is Off-Net for any two billing cycles within any twelve (12) month period; or (b) a User's Off-Net usage makes it unreasonable for T-Mobile to provide Wireless Service to such User. Additionally, T-Mobile may limit or terminate the affected line of Wireless Service in T-Mobile's discretion related to T-Mobile's arrangements with an Off-Net provider. If a User's Off-Net voice, data or messaging usage exceeds its associated rate plan allotment, such Users will be alerted and access to Off-Net coverage may be suspended or denied. Location services, including 911 location services, may not be available in Customer's area and are subject to the Wireless Service limitations in this Section 4.

**4.4 Compatibility of Wireless Products and Services.** Products may not be compatible with services provided by other wireless carriers, except for services provided in connection with roaming agreements. T-Mobile Devices may have a software programming lock that protects certain of the phone's operating parameters against unauthorized reprogramming. T-Mobile does not guarantee current or future compatibility of wireless Products or Wireless Services with Third-Party Products, features or applications. Apparent compatibility or notice from T-Mobile of compatibility is not a T-Mobile endorsement of a Third-Party Product, feature or application. T-Mobile may disable or discontinue use of any Third-Party Product, feature or application with the Wireless Services or Products.

## **5. Portability.**

**5.1** Under United States Federal law, Customer has no proprietary or ownership rights to a specific number ("**Number**"), IP address, or e-mail address assigned to Customer or Customer's Device. Customer may be able to transfer a Master Account User's Number to or from another provider with whom T-Mobile has a porting relationship in accordance with T-Mobile internal business policies and procedures. For additional information about local number portability, please contact Corporate Customer Care at (800) 375-1126 or email T-Mobile at [Businesscare@t-mobilesupport.com](mailto:Businesscare@t-mobilesupport.com). Customer acknowledges that the Device may not be compatible with the network and services provided by another service provider. Customer may buy Devices from T-Mobile, or from someone else, however, all existing account transfers will be handled in accordance with the terms of this Section 5.

---

**5.2** Upon submitting a change of responsibility (“**COR**”) request to change either (a) Customer’s CL to Customer’s employee(s)’ IL, Customer consents to change both the billing and legal responsibility for the applicable CL from Customer’s responsibility for the CL to Customer’s employee(s)’ responsibility, or (b) Customer’s employee(s)’ responsibility for IL to Customer’s responsibility for CL, Customer agrees to accept both the billing and legal responsibility for the employee(s)’ IL once released by the employee(s). If approved, the transfer of any EIP (as defined below) balance to the employee or Customer will not be effective until a new EIP agreement has been executed by the assuming party.

**6. Billing and Payment of Charges.**

**6.1** Charges for Wi-Fi usage may vary; see Customer Rate Plan for more details. Unused minutes or other allocated Wireless Services (e.g., text messages, data transmission) expire at the end of the billing cycle unless otherwise expressly stated by such Rate Plan’s terms and conditions. Airtime usage is measured from the time the Network begins to process a call (before the call rings or is answered) through its termination of the call, or if applicable, any fraction of a minute of usage is rounded up to the next full minute. Depending on the Rate Plan, data usage may be rounded up at the end of each data session, at the end of Customer’s billing cycle, and/or at the time Customer switches data plans. T-Mobile may change Customer’s billing cycle at any time upon 30 days’ prior notice (e-mail to Customer’s authorized representative is acceptable).

**7. International Roaming and Dialing.** Availability and features offered for international roaming and dialing vary depending on Master Account Users’ Rate Plan and Device. All countries may not be available for roaming, and available countries may change from time to time. Whether roaming internationally or making and sending international calls and messages while in the U.S. or Puerto Rico, Users may be charged international rates (including for voicemails left for such Users and for data usage). Such Charges include per minute rates for calls and per minute rates for calls transferred to Users’ voicemail and the relevant data rates for data usage. Users roaming internationally may be charged for more than one call for unanswered calls that are forwarded to voicemail regardless of whether the calls result in an actual voicemail message being left for such Users and regardless of whether the Device is on or off. Users may be able to disable these applications and features through a Device’s settings. Different rates and rounding increments apply in different countries. See [www.t-mobile.com](http://www.t-mobile.com) for information on international access, rates, Wireless Services and coverage. While roaming internationally, User data throughput may be reduced, and Wireless Service may be otherwise limited or terminated at any time without notice. Except in the case of fraudulent or suspicious activity, or activity posing imminent risk to T-Mobile or Customer, T-Mobile will make reasonable efforts to notify Customer prior to termination of User Service. Customer is responsible for complying with U.S. Export Control laws and regulations, and the import laws and regulations of foreign countries when traveling internationally with User Devices. Billing of roaming charges, data usage and minutes of use or Wireless Services may be delayed or applied against included data allotments, minutes or Wireless Services in a subsequent billing cycle, which may cause Customer to exceed Customer’s allocated data, minutes or Wireless Services in a particular billing cycle. Customer may request that T-Mobile block a Master Account line of Wireless Service from placing international calls (“**International Dialing Block**”) by calling Business Customer Care or by email at [Businesscare@t-mobilesupport.com](mailto:Businesscare@t-mobilesupport.com). The availability of, and access to, emergency calling services (e.g., 911 in the United States), may vary by country. Customer and its Users must familiarize themselves with how to access these services before using the Devices for international roaming.

**8. Lost/Stolen Devices.** If Customer’s Device is lost or stolen (“**Lost Device**”), Customer must promptly notify T-Mobile and T-Mobile will suspend Wireless Service for the Lost Device. Once Customer notifies T-

---

Mobile that Customer's Device is lost or stolen, T-Mobile will suspend Customer's Wireless Service and Customer will not be responsible for additional usage Charges incurred in excess of Customer's Rate Plan Charges, applicable Taxes and Fees, and Surcharges. If Customer completes the above requirements, Customer will not be liable for additional usage Charges incurred in excess of Customer's Rate Plan Charges, applicable Taxes and Fees, and Surcharges. If Customer purchased a Device through T-Mobile's EIP Program, Customer remains obligated for the total payments due on the Device. If Charges are incurred before Customer notifies T-Mobile, Customer is not liable for unauthorized Charges. Customer may request that T-Mobile investigate Charges Customer believes to be unauthorized. T-Mobile may ask Customer to provide information to support Customer's request. If T-Mobile determines the Charges were unauthorized, T-Mobile will credit Customer's account. If T-Mobile determines the Charges were authorized, T-Mobile will inform Customer within thirty (30) days and Customer will be responsible for all Charges incurred. If Customer requests that the Wireless Service not be suspended on the Lost Device, Customer will remain responsible for all Charges incurred under that specific line of Wireless Service. T-Mobile may prevent a lost or stolen Device from registering on T-Mobile's and other networks.

**9. Service Cancellation, Exchange, and Returns.** Customer may cancel a new line of Wireless Service within thirty (30) days of activation ("**Cancellation Period**") by contacting T-Mobile and returning any Device(s) Customer purchased with Wireless Service in Like New condition (defined below). Customer may exchange or return a Device within thirty (30) days from the Device or accessory purchase date ("**Return Period**"). Only Like New Devices returned with proof of purchase to Customer's T-Mobile account representative or team, or the location from which the Device was purchased within the Cancellation or Return Period are eligible for a refund of the purchase price. Refunds and exchanges will be less any rebates received and shipping costs. Certain promotional offers may require Customer to return all items received with the Device and could cause Customer to become ineligible for promotional discounts. Certain accessories, such as earpieces, may not be refunded or exchanged in some jurisdictions.

A "**Like New Device**" is a Device purchased from T-Mobile, in its original packaging with all contents, undamaged, and in good working condition with no material alterations to the Device's hardware or software, as determined by T-Mobile in its sole discretion. Customer may be required to pay a restocking fee for failing to return a Device with included packaging, manuals or accessories, or if the Device exchanged and/or returned is in a damaged, altered or destroyed condition. Even if Customer cancels Wireless Service and/or returns any Device as provided herein, Customer must pay all Wireless Service and usage Charges incurred thru the end of Customer's Wireless Service term or return date and any applicable subsequent penalties or assessments. If Customer attempts to cancel Wireless Service, but does not return the applicable Device, or if such Device is returned in a damaged, altered or destroyed condition or is locked with software or otherwise unusable, T-Mobile may take one or more of the following actions: (a) prevent such Device from working on any network; (b) elect not to process the Wireless Service cancellation; or (c) charge Customer the suggested retail price or the cost to repair the applicable Device, which may be greater than the price paid for such Device plus any shipping and handling charges. Except for the thirty (30) calendar day Return Period, the cancellation and return policies in this Section 9 will not apply to Customers who purchase Device(s) through T-Mobile's EIP or a T-Mobile leasing program, and the terms of that program's agreement will supersede and control the purchase or lease of those Devices.

**10. Third-Party Equipment.** If Customer uses third-party equipment, handsets or devices that are not provided to Customer directly by T-Mobile ("**Third-Party Equipment**") with the Wireless Service, Customer acknowledges and agrees: (a) T-Mobile will not accept any returns of the Third-Party Equipment; (b) Customer and its Users use the Third-Party Equipment at Customer's own risk and T-

---

Mobile provides no warranty of any kind on the Third-Party Equipment; (c) T-Mobile will not offer or provide Customer Care services for the Third-Party Equipment; (d) the Third-Party Equipment may not function properly with the Wireless Service or applicable network; and (e) Customer will be responsible for monthly service charges accrued from the date T-Mobile fulfills an order for a Subscriber Identity Module (“SIM”). T-Mobile disclaims all liability for Customer’s use of Third-Party Equipment. In the event that T-Mobile certifies or endorses the use of certain Third-Party Equipment with the Wireless Service, the above provisions will still apply. Customer is responsible for any impairment, interference, or harm caused by Third-Party Equipment.

**10.1 T-Mobile Equipment.** T-Mobile or its suppliers retain title and property rights to T-Mobile-provided equipment (excluding equipment sold to Customer under the Agreement). Upon termination or expiration of the Agreement or the applicable Service, Customer will surrender and immediately return the T-Mobile-provided equipment (excluding equipment sold to, and completely paid for by, Customer under the Agreement) to T-Mobile.

## **11. Third-Party Products.**

**11.1 Purchase of Third-Party Products.** Customer may purchase Third-Party Products using its Devices. If Customer purchases Third-Party Products from T-Mobile, T-Mobile will include the associated Charges on Customer’s Master Account invoice. Customer may block purchases of Third-Party Products by emailing T-Mobile at [businesscare@t-mobilesupport.com](mailto:businesscare@t-mobilesupport.com), or by contacting Customer Care at (800) 375-1126, or contacting the applicable T-Mobile sales representative. Some Devices or Third-Party Products may contact the Network without Customer’s knowledge, which may result in additional Charges, such as while roaming internationally. Upon termination or expiration of the Agreement for any reason, or if the Third-Party Product is no longer available, any applicable license will terminate, and Customer must immediately discontinue using the Third-Party Product. Unless otherwise expressly provided for, Customer must direct any support questions for Third-Party Products to the third-party seller identified at the point of purchase.

**11.2 No Liability for Use of Third-Party Products.** Customer’s download and use of Third-Party Products is at Customer’s own risk. T-Mobile expressly disclaims all liability related to, or arising from, Customer’s use of any Third-Party Products, including liability related to, or arising from, any updates, modifications, outages, failures, corruption of data, or loss of data, discontinuance of services. T-Mobile does not control, and is not responsible or liable for how, any Third-Party Products transmit, access, store, or use data. Some Third-Party Products may require Customer’s agreement to a license or other terms with the third party. To use, download, or install Third-Party Products that Customer purchases from T-Mobile, the Third-Party Products are licensed to Customer by T-Mobile and may be subject to additional license terms between Customer and the creator/owner of the Third-Party Products. T-Mobile may suspend, block, or terminate Customer’s use of any Third-Party Product(s) if Customer fails to comply with any applicable licensing requirement. Upon termination or expiration of the Agreement or the applicable Service, any applicable license will terminate, and Customer will immediately discontinue using the applicable Third-Party Product. Whether purchased from T-Mobile or a third-party seller, any Third-Party Products Customer purchases are licensed for personal, lawful, non-commercial use on User’s Device only. Customer may not transfer, copy, or reverse engineer any Third-Party Products, or alter, disable or circumvent any digital rights management security features embedded in the Third-Party Products. Customer may refer to T-Mobile’s Privacy Policy as well as the Third-Party Products creator or owner’s privacy policy for information regarding the collection, use and retention of information collected when a User downloads, installs, or uses any Third-Party Products.

---

**12. 911 Calls.** Calls to 911 from a TTY will not work when using Wi-Fi Calling or Voice over LTE (“VoLTE”). If Users cannot make a voice call to 911, T-Mobile recommends that Users use an internet-based Telecommunications Relay Service such as Video Relay Service, IP Relay Service, or IP Captioned Telephone Service. T-Mobile Real-Time Text (“RTT”) technology is available on T-Mobile’s network and can be used on select devices to contact 911. For more information, see [www.t-mobile.com/accessibilitypolicy](http://www.t-mobile.com/accessibilitypolicy). T-MOBILE WILL MEET ALL ITS LEGAL OBLIGATIONS TO DELIVER 911 CALLS AS REQUIRED BY LAW. TO THE EXTENT PERMITTED BY LAW, T-MOBILE IS NOT RESPONSIBLE FOR FAILURES TO CONNECT OR COMPLETE 911 CALLS OR TEXT TO 911 MESSAGES OR IF INACCURATE LOCATION INFORMATION IS PROVIDED, EXCEPT TO THE EXTENT SUCH FAILURES OR INACCURACIES ARE ATTRIBUTABLE, IN WHOLE OR IN PART, TO T-MOBILE. TO THE EXTENT PERMITTED BY LAW, 911 SERVICE MAY NOT BE AVAILABLE OR RELIABLE DUE TO SUCH THIRD-PARTY PRODUCTS AND, THEREFORE, CUSTOMER’S ABILITY TO RECEIVE EMERGENCY SERVICES MAY BE IMPEDED.

**13. Additional Terms for Plans and Other Features.** The following terms apply to Customer’s Master Account data plans.

**13.1 Permissible and Prohibited Uses.** Customer’s data plan is intended for Web browsing, messaging, and similar activities. Certain activities and uses of the Wireless Services and Devices are permitted and others are not. If Customer buys, leases, or finances a Device manufactured for use on the Network, Customer agrees that it intends it to be activated on T-Mobile’s Wireless Service and Customer will not resell or modify the Device, or assist anyone doing so. Examples of permitted uses include, but are not limited to: (a) voice calls; (b) web browsing; (c) messaging; (d) email; (e) streaming music; and (f) tethering a Device to other non-harmful devices pursuant to the terms and conditions and allotments of the associated Rate Plan. Examples of prohibited uses include, but are not limited to: (aa) except for a T-Mobile provided equipment, using a repeater or signal booster; (bb) compromising Network security or capacity, degrading Network performance, use of malicious software or “malware”, hindering other customers’ access to the Network, or otherwise adversely impacting Network service levels or legitimate data flows; (cc) using applications which automatically consume unreasonable amounts of available Network capacity; (dd) using applications which degrade Network capacity or functionality; (ee) misuse of the Wireless Service, including “spamming” or sending abusive, unsolicited, or other mass automated communications; (ff) monitoring services, transmission of broadcasts, transmission of recorded material, telemarketing, autodialed calls, or other connections that do not consist of uninterrupted live dialogue between individuals; (gg) unauthorized reprogramming or “unlocking” of a Device’s software programming lock; (hh) tampering with, reprogramming, altering, or otherwise modifying Customer’s Devices to circumvent any T-Mobile policies or violate anyone’s intellectual property rights; (ii) causing harm or adversely affects T-Mobile, the Network, T-Mobile customers, employees, business, or any other person; and (jj) causing T-Mobile to violate applicable laws and regulations. T-Mobile reserves the right, without notice or limitation, to limit throughput speeds or quantities or to deny, terminate, end, modify, disconnect, or suspend Wireless Service if a wireless Product engages in any of the prohibited voice or data uses detailed above or if T-Mobile, in its sole discretion, determines action is necessary to protect the Network from harm or degradation.

**13.2 Protective Measures.** T-Mobile engineers its network to provide consistent high-speed data service, but at times and at locations where the number of customers using the network exceeds available network resources, customers will experience reduced data speeds. To provide the best possible experience for the most possible T-Mobile customers, and to minimize capacity issues and degradation in Network performance, T-Mobile may, without advance notice, take actions necessary to manage the Network on a content-agnostic basis, including prioritizing the data usage of a small

---

percentage of unlimited high-speed data customers who use the highest amount of data below that of other customers in times and locations where there are competing customer demands for Network resources. Where the Network is lightly loaded in relation to available capacity, a customer whose data is de-prioritized will notice little, if any, effect from having lower priority. This will be the case in a vast majority of times and locations. At times and locations where the Network is heavily loaded in relation to available capacity, however, these customers will likely see significant reductions in data speeds, especially if they are engaged in data-intensive activities. T-Mobile constantly works to improve Network performance and capacity, but there are physical and technical limits on how much capacity is available, and in constrained locations the frequency of heavy loading in relation to available capacity may be greater than in other locations. When Network loading goes down, or the customer moves to a location that is less heavily loaded in relation to available capacity, the customer's speeds will likely improve. See [www.T-Mobile.com/OpenInternet](http://www.T-Mobile.com/OpenInternet) for details and for current data amount subject to this practice.

**13.3 Service Limitations, Connectivity and International Use.** Customer acknowledges and agrees that a User's use of any Wi-Fi network is permissible ***and that Customer (and not T-Mobile) is solely responsible for any Wi-Fi and Internet charges associated with a User's use of the Service.*** Cell Broadcasts (alerts that go to certain customers) and Wireless Priority Service ("WPS") may not be available with Wi-Fi Calling. Calls from certain designated countries and destinations\* are currently \$.20/min (subject to change) for international roaming (no charge for Wi-Fi calls to the United States, Mexico and Canada from these designated countries and destinations\*). Calls made from outside of these designated countries and destinations\* will be charged standard, prevailing international roaming rates. (\*Except as indicated in the Agreement, T-Mobile offers travel without limits with unlimited 2G data and texting in 210+ [countries and destinations](#) at no extra charge. The list of 210+ countries and destinations is subject to change at T-Mobile's sole discretion). For more information on international rates, service and coverage, see <https://www.t-mobile.com/business/international-coverage>.

**13.4 911 and Emergency Alerts Service and Wi-Fi Calling.** Customer agrees and will inform all Master Account Users as follows:

Services or Software provided by third parties (including voice applications), 911 or E911, text to 911, or other calling or messaging functionality, may work differently than Services offered by T-Mobile, or may not work at all. Customer agrees to review all terms and conditions of such Third-Party Products. **T-Mobile is not responsible for failures to connect or complete 911 calls or text to 911 messages if inaccurate location information is provided. 911 service may not be available or reliable and Customer's ability to receive emergency services may be impeded.** T-Mobile cannot assure Customer that if Customer places a 911 call or text Customer will be found.

**13.5 Emergency Alerts.** T-Mobile has chosen to offer wireless emergency alerts within portions of T-Mobile's coverage area on wireless alert capable Devices. There is no additional charge for these wireless emergency alerts. For details visit: [www.t-mobile.com/responsibility/consumer-info/safety/wireless-emergency-alerts](http://www.t-mobile.com/responsibility/consumer-info/safety/wireless-emergency-alerts).

T-Mobile may use a variety of information and methods to determine the location of a 911 call, including T-Mobile's GSM wireless Network if available in a User's location, or the location of a User's Primary Address. Even with this information, Customer acknowledges that an emergency operator may not be able to receive or use the address information (or a User's phone number) to locate the

---

User in order to provide emergency services. If a User dials 911 while outside the United States, 911 services may not be available. Customer is required to provide T-Mobile with a valid address for the location at which Customer's Master Account Users primarily use Wi-Fi Calling ("**Primary Address**"). If Customer does not provide T-Mobile with a Primary Address, T-Mobile may block User's usage of certain Wi-Fi networks. If such address changes, either temporarily or permanently, Customer will register the new address with T-Mobile. T-Mobile assumes no responsibility for securing the Primary Address. When Users use Wi-Fi Calling Service away from the Primary Address, T-Mobile may have no, or very limited, information about the User's location, which could result in (i) a 911 call being routed to an out-of-area public safety agency; (ii) the public safety agency receiving incomplete information about the User's call and the User's location; or (iii) a User's 911 call being routed to an emergency response center, which will ask the User for the User's location and use that information to route the call to a public safety agency.

**13.6 Text-to-911.** Text to 911 may be available in some locations where T-Mobile Wireless Service is provided and is dependent on the public safety agency's ability to receive text messaging. T-Mobile recommends that Customer uses voice communications as its primary method of contacting 911.

Calls to 911 from a TTY will not work when using Wi-Fi Calling or VoLTE. If Users cannot make a voice call to 911, T-Mobile recommends that Users use an internet-based Telecommunications Relay Service such as Video Relay Service, IP Relay Service, or IP Captioned Telephone Service. T-Mobile RTT technology is available on T-Mobile's network and can be used on select devices to contact 911. For more information, see [www.t-mobile.com/accessibilitypolicy](http://www.t-mobile.com/accessibilitypolicy).

**13.7 911 Access.** 911 services are made possible by state and local governments. T-Mobile handsets are capable of making calls to 911 in the United States, and 911 access is available to customers regardless of rate plan. The handset must have battery power and connectivity to complete a 911 call. When making 911 calls, Customer's Users must be prepared to provide information about where the User(s) is located. In some cases, 911 communications center operators may not know the User's phone number or have information about that User's location. Other third-party entities are involved in connecting a 911 call and T-Mobile does not determine the public safety agency to which the 911 call is routed. If Customer is porting a phone number to or from T-Mobile, T-Mobile may not be able to provide Customer with some Wireless Services, such as 911 location services, while the port is in process. If any User is outside the United States, such User may have to dial a different number than 911 to call emergency services.

**13.8 Wi-Fi Calling.** Wi-Fi Calling services use an internet connection to make calls, ("**Wi-Fi Calling**"), including 911 calls, and calls to 911 using Wi-Fi calling operate differently than traditional 911. When enabling Wi-Fi Calling, Customer must provide T-Mobile with the primary street address at which the Wi-Fi Calling service will be used ("**Registered Location**"). If Customer's Users call 911 over Wi-Fi, T-Mobile will provide Customer's Registered Location to the public service entity that answers the call, and it may be used to help emergency responders locate a User. Customer will update its Registered Location if Customer's Users use Wi-Fi service at a different location. Customer can update its Registered Location by contacting T-Mobile Customer Care.

**13.9 Location Based Services.** Some Services or Products, or some Third-Party Products (whether billed through Customer's Master Account or billed separately), may include or utilize location-based services ("**LBS**"). If Customer or its Users download, access, or otherwise use any Services, Products, or Third-Party Products that include or utilize LBS, Customer agrees that: (a) the LBS provider (whether

---

T-Mobile or a third party) may access, use and disclose as necessary the geographic location of Customer's Devices pursuant to the terms of service and privacy and other policies of the LBS provider (collectively, the "**LBS Terms**") that are applicable to the particular Product, Service, or Third-Party Product; and (b) any access, use, or disclosure of location information of Customer or its Users is governed by the LBS Terms applicable to the particular Product, Service, or Third-Party Product provided by the LBS provider.

Prior to any access or use by Customer or its Users of Services, Products, or Third-Party Products that include or utilize LBS, Customer should review the LBS Terms applicable to such Product, Service, or Third-Party Product, to understand how the provider will provide LBS and what data the provider may access, use, or store. Customer must clearly, conspicuously and regularly, and consistent with applicable laws and regulations, notify all of its Users using Services, Products, or Third-Party Products that include or utilize LBS that end-user location information may be accessed, used or disclosed in connection with the LBS in accordance with the applicable LBS Terms. Customer is solely responsible for determining its obligations under, and ensuring its compliance with, applicable laws and regulations governing the use of LBS, including those requiring notice to or consent from Users. Customer further acknowledges and agrees that: (i) T-Mobile is not responsible for notifying Users that use Products, Services, or Third-Party Products upon which Customer or its Users have enabled LBS, that end-user location information may be accessed, used or disclosed in connection with LBS, (ii) Users should be made aware of the LBS Terms applicable to the particular Product, Service, or Third-Party Product, and (iii) LBS use by Users may require notification by Customer to its Users. To the extent permitted by law, CUSTOMER WILL INDEMNIFY, DEFEND AND HOLD HARMLESS T-MOBILE PARTIES AGAINST ANY AND ALL THIRD-PARTY CLAIMS, LOSSES, EXPENSES, DEMANDS, ACTIONS OR CAUSES OF ACTION ARISING OUT OF THE USE OF LBS BY CUSTOMER OR ITS USERS INCLUDING, WITHOUT LIMITATION, CUSTOMER'S FAILURE TO NOTIFY USERS OF CUSTOMER'S ELECTION TO USE ANY LBS OR LOCATION INFORMATION THROUGH A PRODUCT, SERVICE, OR THIRD-PARTY PRODUCT.

**14. Network Security.** T-Mobile may monitor and inspect its network traffic to protect the Network from communications that pose a security threat.

**15. Employee Benefits Program.**

**15.1** The terms in this Section 15.1 (Employee Benefits Program) pertain to IL accounts ("**Employee Accounts**"). Employees may activate a line of Wireless Service under the T-Mobile Benefits Program in retail stores operated by T-Mobile or a T-Mobile authorized dealer, by calling T-Mobile's toll-free number at [1-855-570-9947](tel:1-855-570-9947), or as otherwise offered by T-Mobile. T-Mobile periodically reviews Employee Accounts to confirm continued proof of employment and employee eligibility or other methods of verification. Upon T-Mobile's request, Employees will provide proof that they are currently employed by Customer. After employment with Customer ends, Employees will be eligible to receive Wireless Service under T-Mobile's standard consumer rate plans, subject to the applicable terms and conditions under such rate plans. Customer will not be liable for payment on any Employee Account established under the Employee Benefits Program. In its sole discretion, T-Mobile may change or discontinue any or all of the benefits, offers, including eligibility, or features of its Employee Benefits Program.

**Requirements for the Government Unlimited Rate Plan with Subsidy Allowance and First Responder Government Rate Plan with Subsidy Allowance - Smartphones & Tablets**

- 1) For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without any suspension or termination of any line of Service (the "Subsidy Term");
- 2) Each line of Service must remain active, without suspension, for a 90-day period following the activation ("Minimum Activations Period");
- 3) Each line of Service must be activated in accordance with the terms of the Agreement;
- 4) Each line of Service which is activated under the Master Account can only qualify once for a device subsidy during the Initial Term;
- 5) The subsidy cannot be combined with any other discounts, credits or promotional offers; and
- 6) Customer's account with T-Mobile must be in good standing to receive the subsidy.

**Minimum Activation Period/Termination.** If any line of Service that received a Subsidy or any other future credit that T-Mobile may agree to provide to Customer is terminated prior to the end of the Subsidy Term, then Customer agrees to pay or reimburse T-Mobile the pro rata portion of the Subsidy that has been credited by T-Mobile to the Customer for each terminated line of Service (for purposes of illustration only, if Customer terminates the applicable line 12 months following activation, and if T-Mobile has issued a subsidy of \$150 for such line, then Customer will reimburse T-Mobile \$75 (i.e. 50% [12/24 months] X \$150) for such terminated line). Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected lines of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated lines of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated lines within 30 days of issuance of notice by T-Mobile.

**EmpowerED Program Plans** are available to elementary, middle, high schools, and school districts across the U.S. The eligibility criteria and EmpowerED Program offers are posted here: <https://www.t-mobile.com/business/education/empowered2>.

Each line of Service must be activated and maintained for at least the Term without any suspension or termination of any line of Service that received the Device Discount/Subsidy (the "Device Discount/Subsidy Term");
- Customer agrees that it cannot change or move the lines of Service with a Device Discount/Subsidy to a rate plan with a different or lower Rate Plan during the Device Discount/Subsidy Term and if it does, Customer will reimburse T-Mobile for a pro rata portion of the Device Discount/Subsidy received for each month remaining in the Device Discount/Subsidy Term.

Customer authorizes Mobiphiles to collect information in accordance with the Terms and Conditions and applicable privacy policies of Mobiphiles.

**Cradlepoint Terms.** Customer's use of the Cradlepoint Device in connection with T-Mobile's Business Internet Services is subject to the Cradlepoint Terms of Service and License Agreement, and Cradlepoint Privacy Policy (found <https://cradlepoint.com/about-us/terms-of-service/> and <http://cradlepoint.com/privacy-policy/>) (the "Cradlepoint Terms"). Customer's use of the Cradlepoint Device is deemed to be acceptance by the Customer of the Cradlepoint Terms, if any hardware or equipment purchased by Customer from T-Mobile includes any software necessary to use the Cradlepoint Services. Customer's use of such software is also governed by the Cradlepoint Services Agreement and such software is part of the "Cradlepoint Services." The Cradlepoint Terms are solely between Cradlepoint and Customer. T-Mobile is not bound by, and does not assume any obligations, commitments or liability under the Cradlepoint Terms. T-Mobile does not control and is not responsible or liable for how Cradlepoint transmits, accesses, stores, or uses data.

**Connected Laptop:** During congestion, customers on this plan may notice speeds lower than other customers due to data prioritization. Qualifying government account, credit approval, deposit, and \$20 SIM starter kit or, in stores, \$35 device connection charge may be required. Taxes and fees additional (including \$0.12/line Monthly Regulatory Programs and \$1.28/line Telco Recovery Fee) unless you already have a tax-inclusive voice line. Compatible device may be required for certain features. **Data:** High-speed data on our network up to allotment then max 600Kbps speeds. We notify you of approaching use thresholds via email. See account for usage. **Roaming:** U.S. roaming and on-network data allotments differ; includes 200 MB domestic roaming. Partial megabytes rounded up. **International Roaming:** Up to 5GB high-speed data in select Central European countries; otherwise standard speeds approx. 256 Kbps in 210+ countries and destinations; see [www.t-mobile.com](http://www.t-mobile.com) for included destinations (subject to change at our discretion). In Canada/Mexico, high-speed data up to 5GB, then unlimited at max 128Kbps speeds. **Not for extended international use; you must reside in the U.S. and primary usage must occur on our U.S. network.** Device must register on our network before international use. **Coverage** not available in some areas; we are not responsible for our partners' networks. Service may be terminated or restricted for excessive roaming. **Video streaming** at up to 2.5Mbps (SD); may affect speed of video downloads. For best performance, leave video streaming applications at default automatic resolution setting. **Network Management:** Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. See contract or T-Mobile.com/OpenInternet for details.

**Inseego Connect Terms.** Customer's use of the Inseego Connect device management platform (the "Inseego Connect Service") is subject to the Inseego Connect Service Agreement, located at: [Inseego Connect services agreement](#) | Inseego, as well as the Inseego Connect User Guide, located at: [Inseego Connect User Guide](#) (collectively, the "Inseego Terms"). Customer's use of the Inseego Connect Service is deemed to be acceptance by the Customer of the Inseego Terms. If any hardware or equipment purchased by Customer from T-Mobile includes any software necessary to use the Inseego Connect Service, Customer's use of such software is also governed by the Inseego Terms and such software is part of the Inseego Connect Service. The Inseego Terms are solely between Inseego and Customer. T-Mobile is not bound by, and does not assume any obligations, commitments or liability under the Inseego Terms. T-Mobile does not control and is not responsible or liable for how Inseego transmits, accesses, stores, or uses data.

**General Rate Plan Terms and Conditions:** On all T-Mobile plans, for the small fraction of customers using >50GB/mo., primary data usage must be on smartphone or tablet. Smartphone and tablet usage is prioritized over Mobile Hotspot Service (tethering) usage, which may result in higher speeds for data used on smartphones and tablets. Not all features available on all devices. Unlimited talk & text features for direct communications between 2 people. Not for extended international use; you must reside in the U.S. and primary usage must occur on our network. Device must register on our network before international use.

**Tethering:** Tethering at max 3G. Service may be terminated or restricted for excessive roaming.

**Simple Global:** Usage may be taxed in some countries. Calls from Simple Global countries over Wi-Fi are \$20/min. (no charge for Wi-Fi calls to US, Mexico and Canada). Standard speeds approx. 128Kbps without Plus; with Plus approx. 256 Kbps. See <http://www.t-mobile.com/optional-services/roaming.html> for included countries and destinations. The list is subject to change at T-Mobile's discretion.

**Statewide Int'l Talk:** Calls must originate on T-Mobile's U.S. network or in Canada/Mexico. Rates and included countries vary and may change. On-network and U.S. roaming data allotments differ; includes 200 MB domestic roaming. Partial megabytes rounded up. Select companion smartphone and separate qualifying service on each device required.

**Simple Choice North America General Terms:** Charges apply call to other countries. Call forwarding only to U.S. numbers. Partial minutes/megabytes rounded up. Full speeds available up to monthly allotment, including tethering (Unlimited on-smartphone 4G LTE data option includes 14 GB of tethering); then, slowed to up to 2G speeds through bill cycle. Certain uses, e.g., some speed test apps, may not count against high-speed data allotment or have speeds reduced after allotment reached. U.S. roaming and on-network data allotments differ; see your selected service for details.

**Data Stash:** Up to 20 GB of on-network data from past 12 months carries over to next billing cycle for as long as you maintain qualifying service. Coverage not available in some areas; we are not responsible for our partners' networks.

**Network Management:** Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. See T-Mobile.com/OpenInternet for data management details.

Customers will be required to sign a T-Mobile IOT Services Addendum to purchase IOT pricing. Usage will be measured at the end of each billing cycle and the MRC (monthly recurring charge, or "MRC") and any overage will be billed at the applicable rate. Customer will be billed within the United States in U.S. dollars. The IAS allowance is pooled among all active lines of service on the same price plan. An IAS allowance accrues for a billing cycle only for lines of service that pay an MRC for that billing cycle. Data usage will be billed by kilobytes. Every session will be rounded UP to the next kilobyte. Other taxes and government mandated fees may apply. IoT Services is not FedRAMP authorized.
