Diesel Fuel De-Icer

High pressure common rail diesel injection systems, along with smart exhaust systems, and smaller micron diesel fuel filters, have resulted in unique diesel winter challenges. It is now quite common for these fuel systems to have icing issues, as well as gelling issues. BG Diesel Fuel De-Icer addresses this issue as a preventive maintenance diesel fuel additive.

Part Number: 2331

Description: BG Diesel Fuel De-Icer

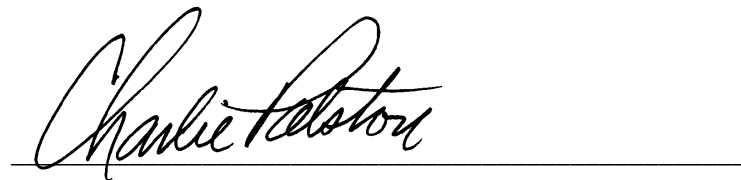

Cost: \$184.00 per gallon

Unit Size: 1 Gallon

Treat Ratio: 1:10,000

Cost Per Treated Gallon: \$0.018

We authorize this product to be added to SW0039.
