Value Added Plan

This template must be used. The Value Added Plan should identify any **value added options or ideas that may benefit the State**. Use this area to show how your company is different than others, what value can you bring to the State if awarded. The value added claims should be prioritized (identify the most important claims first). The Respondent may add or delete Value Added Claim table templates, but do not exceed the **2-page** limit for this section. Do NOT include any identifying information in the Plan. Information listed under the “Documented Performance” line may describe where the Respondent has used the approach or solution previously, and what the results were in terms of verifiable metrics.

Example (this example can be deleted to accommodate more claims)

Item Claim: *This would be the place to offer service/package/optional remittance method (etc) not requested in the solicitation-insert description here*

How will this add value? *How would the item described above add value to the State's contract?*

Documented Performance: *State in general terms where offered and the results*

Cost Impact (%): *What is cost or hourly rate?*
