**STATE OF OKLAHOMA AMENDMENT No. 1 TO STATEWIDE CONTRACT  
AMENDMENT CONTRACT WITH XEROX CORP..**

This Amendment No. 1 (“Amendment”) to 1034 - Managed Print Services IC-148 SW1034 - Managed Print Services with Xerox Corp. (“Contract”) is effective on the date of the last signature below (the “Amendment Effective Date”) and is entered into between the State of Oklahoma by and through the (“State”) and Xerox Corp. (“Supplier”). This Amendment supplements and amends the Contract effective August 22, 2024, including all supplements and amendments thereto. Unless otherwise indicated herein, capitalized terms used in this Amendment without definition shall have the respective meanings specified in the Contract.

For good and valuable consideration, the parties agree to amend the Contract as follows:

1. Due to a change in the pricing
2. In the event of a conflict between the terms and conditions hereof and the terms and conditions of the Contract, the specific terms set forth in this Amendment shall govern the subject matter herein.
3. Except as expressly modified in this Amendment, all terms and/or provisions of the Contract not addressed herein remain as executed by the parties in the Contract and remain in full force and effect.
4. This Amendment may be executed by electronic signature in counterparts (e-mail, facsimile or otherwise). The counterparts each of which shall constitute an original, but all of which together shall constitute one and the same instrument.

The undersigned represent and warrant that they are authorized, as representatives of the party on whose behalf they are signing, to sign this Amendment and to bind their respective party thereto:

**STATE OF OKLAHOMA**

## U.S. ONLY PRICING

More Detailed Description	Price Type
Xerox will support the clients resources and process to establish 1 Gold Configuration for each NEW Model Family during the Transition Phase of the project. The Client will complete the Integration testing/certification and provide signoff to the final device configurations.	per device model
Xerox will coordinate the delivery & installation of each device with a Client specified Location contact.	per device install
<p>Xerox Connect Key Apps can be deployed on (part of) the in-scope MPS multi-funtion device fleet to helps to streamline how your business with critical information. Ensure the right people have access to and benefit from Xerox Connect Key App capabilities such as scan and convert paper into the format you need; translate documents; share information securely.</p> <p>This capability option enables a Customer App administrator contact to deploy all purchased App licenses through Xerox App Gallery using Xerox App Gallery Discover and Install fulfilment option. App licenses are purchased seperately.</p>	per device install
<p>Xerox Connect Key Apps can be deployed on (part of) the in-scope MPS multi-funtion device fleet to helps to streamline how your business with critical information. Ensure the right people have access to and benefit from Xerox Connect Key App capabilities such as scan and convert paper into the format you need; translate documents; share information securely.</p> <p>This capability option enables a Xerox Apps Administrator contact to deploy all purchased App licenses through Xerox App Gallery using Xerox App Gallery Discover and Install fulfilment option. App licenses are purchased seperately.</p>	per device install
<p>Xerox Workflow Central help you to optimize document-intensive workflows, reduce manual tasks, and improve efficiency, productivity, and collaboration. Xerox Workflow Central offers a range of features and capabilities, including document capture and conversion, automated routing and approval workflows, and integration with existing business systems and applications. With Workflow Central(WFC), your teams can always have the right tools for the job with an ever-expanding suite of cloud-based, single, and multi-step combination workflows. WFC allows you to transform physical and digital files instantly and enjoy one-platform consistency for seamless productivity across computers, mobile devices, and multifunction printers (MFPs).</p> <p>This capability option enables a Customer App administrator contact to deploy all purchased WFC licenses through Xerox App Gallery using Xerox App Gallery Discover and Install fulfilment option. WFC licenses are purchased seperately.</p>	per device install

<p>Xerox Transition and Transformation Management is a service capability that helps businesses manage the transition from their current state to a new state that aligns with their strategic objectives. This service is designed to help organizations optimize their document-related managed print infrastructure and achieve their desired outcomes by identifying, planning, and executing a comprehensive transition and transformation plan. Xerox Transition and Transformation Management encompasses a range of services, including project management, change management, technology integration, and service adoption. It is a holistic approach that considers people, processes, and technology to ensure a smooth and successful transition to Xerox MPS.</p> <p>This Service Capability option provides effective Change Management and Project Management that provides the required Services transition &amp; transformation support. Whether your company is local or nationwide, you will benefit from specialist resources (people, processes, and technology) who support the MPS fleet implementation and Services Transition effectively.</p>	one-time
<p>End User Training courses are available through Xerox.com or other publicly provided sites (YouTube, etc.). Customers have the ability to initiate training when and where they require, using office PC platforms as well as other industry standard devices such as iPads, Smartphones and other mobile devices. Training courses are designed in modules to enable easy access for refresher training on specific product features and functionality. Students will require internet access in order to participate in on-demand training. For a list of available training courses go to: <a href="http://www.xerox.com/onlinelearning">http://www.xerox.com/onlinelearning</a></p>	included in equipment cost
<p>Device Monitoring services proactively enables automated meter submission along with managing the data flow needed to provide additional services such as help desk, device maintenance and supplies. This Xerox Device Agent (XDA) solution is the basis for Xerox to provide MPS services to our clients.</p>	per device per month
<p>Xerox Device Manager (XDM) enables proactive monitoring services (meter submission, help desk, device maintenance and supplies) and will also support additional services in the Smart Fleet Management section including configuration management, certificate management, XPSAS and security monitoring.</p>	per device per month
<p>MPS Service Desk Support for commercial clients where the end-user contacts Xerox directly via a shared phone number (see Direct phone line option below for customer-dedicated phone line). This is an off-shore location service desk with omni-channel end-user engagement to enable remote solve, pro-active and re-active break-fix and consumables ticket management. Key Client Benefits: Benchmark service desk with direct end-user interaction at optimum cost level. Standardized hours of operation tied to standard M-F Business Hours. Service Desk Operates appropriately to cover majority of time zones. Standardized SLA support consistent with industry standards. Standardized asset management process provided by focused asset coordinators.</p>	per device per month
<p>Xerox will provide a service desk with a dedicated phone line (number) to enable customer to contact for B/F service and supplies support on their Xerox &amp; Non-Xerox devices. All other elements of the base MPS Service Desk Support (Commercial Client - End User) package apply. Key Client Benefits: Provides dedicated client support vs. shared resources.</p>	per device install
<p>The Xerox Help Desk Integration Connector offer will allow for incident and service request information to be exchanged between the Xerox Services Manager (XSM) system and a supported Client Help Desk System via a Xerox standard web service integration. Ability to integrate with a Client Help Desk System and the method of integration to be used is subject to requirements gathering and technical assessment to identify feasibility.</p>	one-time
<p>Xerox will provide a service desk to enable customer to contact for B/F service and supplies support on their Xerox &amp; Non-Xerox devices. This service desk is a shared resource with no customized service desk scripts and resides in the "on-shore" US Location of Webster, NY to support clients with a contractual requirement for US Citizenship restrictions. All other elements of the MPS Service Desk Support (Commercial Client - End User) package apply.</p>	per device per month

Re-active Production Device Support for commercial clients where the end-user contacts Xerox directly via a shared phone number. This is an off-shore location service desk with omni-channel end-user engagement to enable remote solve, re-active break-fix and consumables ticket management for Xerox Production Devices. Support also includes centralized asset management function. Key Client Benefits: Single service desk for office and production devices Benchmark service desk with direct end-user interaction at optimum cost level. Standardized asset management process provided by focused asset coordinators.	per device
Xerox provides Asset Management Services as part of an MPS contract. This service includes the collection, storage, and direct management of the asset registry database within the Xerox Tools. This service provides for a controlled process in which the asset database is created, updated, and maintained over time to support key operational processes including Change Management, Asset Lifecycle Analysis, Data Quality, Asset Security, Billing, Reporting, etc. MPS Asset Management services are a standard requirement as part of Managed Print Services contracts for devices that are in scope for Help Desk Services, Break/Fix Services, and Supplies Services. In scope devices, are also eligible for additional optional services for an additional fee per service.	per device per month
Asset Management for Non-MPS devices extends the standard asset management services to devices that are not included in the MPS contract. This includes the collection, storage, and direct management of the asset registry database within the Xerox Tools. This service provides for a controlled process in which the asset database is created, updated, and maintained over time to support key operational processes including Change Management (MACD), Asset Lifecycle Analysis, Data Quality, Asset Security, Billing, Reporting.	per device per month
HDD and SSD Retention to allow customers to retain the HDD/SSD on leased Xerox products. This service may be required for customers with very sensitive data, internal policies or regulatory standards that mandate specific disposition processes for hard drives. A Xerox service technician will travel to the customer location, remove the HDD/SSD, and provide it, as is to a customer representative. Xerox does not provide hard drive sanitization, cleansing, or destruction services onsite at customer locations. Customers will need to make arrangements for final disposition of the physical drive received from the technician.	per device removal
Break Fix Services include service dispatch, tracking repair disposition, tracking of costs, and supply of parts. Remote Solve, which is a troubleshooting process performed between a remote Service Desk and a client representative, is included. Refer to Break-Fix SLAs (Xerox Devices) and Break-Fix SLAs (Multi-vendor Devices) section for metrics.	included in equipment cost
Xerox will allow the end-user to decline the standard help desk procedure of the initial triage and the attempt to solve all Break/Fix Service Calls remotely. Technical Service Representative (TSR) will be dispatched upon receipt of a Break/Fix Service Calls.	per device per month
Xerox ships consumables to the address specified by client, including OEM's or Xerox approved compatibles. Supplies will be shipped through Automatic Supplies Replenishment where the service is available or Xerox will select the appropriate alternative method. Xerox is responsible for determining which type of consumable is supplied, in what quantity, when the shipment is sent, which consumables are consolidated for shipment, and the method of shipment (standard is ground shipping) as determined by Xerox in order to maintain the desired level of service. Includes returns processing. The Client is responsible to receive, deliver, and install the sent consumables into the intended devices.	included in equipment cost
Xerox provides non-automatic supplies replenishment for devices which are not connected nor communicating to a Xerox network or where the client has device security requirements which prevents data to be transmitted to Xerox. This option requires the client to place consumable orders on-demand via website or portal. For phone orders to be supported, the client must have an Incident Management package which includes reactive phone call support. Key Client Benefits: Provides support for devices when client has requirement to not connect the network.	per device per month
Xerox will allow for the client to have an immediate shipment of a TONER reorder number when a toner item is swapped out in the machine vs. the traditional just in time replenishment process. This requires that the client replaces toner only when the toner is completely empty. Clients who replace their consumables early may be charged for unused toner. Key Client Benefits: Provides an allowance for "one on the shelf".	per device per month

Device Certificate Management manages security for in-scope Xerox equipment across the customer's fleet by ensuring that the communication for Xerox equipment conforms to the customers defined digital security requirements. Our Service Delivery Security Professionals review the customers baseline certificate requirements and then configures policies in Xerox Device Manager to obtain device certificates and distribute across the in-scope Managed Print Services (MPS) environment. The Device Certificate Management Security Compliance Dashboard enables views into compliance metrics related to device certificate policies, including insight into areas of non-compliance for in-scope Xerox equipment. This package provides fleet security for customers who want to manage device communication security by implementing device certificates on a fleet of Xerox equipment.	per device per month
Device Certificate Management manages security for in-scope Xerox equipment across the customer's fleet by ensuring that the communication for Xerox equipment conforms to the customers defined digital security requirements. For device certificates, there are additional policies included which are used to manage more comprehensive security requirements for digital certificates on the Xerox equipment fleet.	per device per month
XPSAS audits and manages in-scope Xerox equipment security across the customer's fleet by ensuring that the security capabilities and features on the Xerox equipment conforms to the customers defined security requirements. Our Service Delivery Security Professionals review the customers baseline requirements and then configure policies in Xerox Device Manager to drive uniform Xerox equipment behavior across the in-scope Managed Print Services (MPS) environment. The XPSAS Security Compliance Dashboard enables views into compliance metrics, including insight into areas of non-compliance for in-scope Xerox equipment. This package provides fleet security for customers who want to manage equipment security on a small fleet of Xerox equipment and/or on only a few model families.	per device per month
XPSAS - Advanced provides enhanced security for instances where there is a larger fleet of Xerox equipment with multiple model families or where there are more complex security requirements. For each category (security settings, firmware, and password) there are additional policies included which are used to manage more comprehensive security requirements for the Xerox equipment fleet. This option MUST be selected when automated firmware upgrades are not allowed based on customer requirements to certify firmware versions prior to deployment.	per device per month
Firmware Management - Additional Policies provides additional firmware policies (in packages of up to 5 policies) for customer who require more than the number of policies offered in the XPSAS - Advanced option.	
This service includes the creation, publication, and electronic delivery of standard reporting content that enables insight into Service Performance, Asset Status, Service Incident Details, and Volume. This reporting content is specified in the MPS Statement of Work and each element corresponds to a standard report available in Xerox Report Manager. Xerox provides standard reporting through Xerox Service Manager / Xerox Report Manager that summarizes Service Performance in relation to Service Level Agreement Targets. Asset Status by providing a monthly device asset properties. Account's detailed impression Volume for its devices. Allows account teams drill down and inspect all services related aspects of Incident Management.	per device per month
Provides customers the ability to view a large variety of actionable IWS service analytics via an internet accessible dashboard.	per device per month
Additional users licenses at additional cost per user. Incremental to the 5 user licenses included in Core License.	per device per month

<p>The Xerox Data Communicator enables the periodic transfer of a normalized snapshot of information from remote Xerox Workplace Suite (XWS), Equitrac, LRS and YSOFT Print Management database on non-Xerox premises to Xerox for the purposes of providing users with analytical information. The Data Communicator is a Windows service installed within the customers network at one or more locations. The service is then configured to extract data from a database and transmit a normalized stream of data to Xerox Systems and visualized via the MPS Advanced Analytics dashboard. Typically, this would be installed on the XDM server as Xerox typically has access rights, however any server that can access to the target Database/Databases can be used.</p>	per device per month
<p>Xerox intelligent devices provide Device On-Screen help with step by step instructions as well as how to videos direct from the user interface. In addition, Xerox provides access to omni-channel self-service support tools as part of the base self-service.</p>	included in equipment cost
<p>The MPS offering provides End Users with convenient and simple to use access to Xerox Services via a web portal. Xerox enables an End User facing web portal to provide access to Services, Device information, feedback forms, and other features. This section outlines the options and costs of utilizing various End User Portals within the MPS Service.</p>	per device per month
<p>Reforestation services based on client's paper consumption and printed volume. For every 8,333 pages printed, PrintReleaf will plant 1 tree, enabling biomass offset/neutrality. Clients can choose from 5+ global, certified reforestation projects to participate. Certifications available for reforestation contributions and Achievements. Clients can strengthen their outward facing sustainability messaging &amp; marketing to their clients / Industry audiences.</p>	per device per month
<p>Carbon offset service based on client's paper consumption and printed volume. For every 8,333 pages printed, PrintReleaf will issue 1 carbon credit, enabling carbon neutrality. Clients can strengthen their outward facing sustainability messaging &amp; marketing to their clients / Industry audiences. Certifications available for offset credits.</p>	per device per month
<p>Xerox Workplace Cloud is a next generation multi-tenant true cloud-based SaaS solution delivering print management and mobile printing workflows and is well-suited when a company's needs or capabilities include: Authentication and Access Control using methods ranging from traditional card / badge and PIN-based to modern mobile apps. Reduced IT overhead and infrastructure related to server management including activities such as security updates and upgrades. Preference for outsourcing to SaaS applications using industry-leading providers such as Microsoft Azure Cloud Services. Desire to eliminate or significantly reduce the cost associated with managing print drivers. A number of remote sites with network bandwidth challenges between locations, or locations spanning separate networks. Print monitoring for home workers.</p>	per device per month
<p>Xerox Service Delivery Management provides end-to-end management and oversight of Xerox's managed print services (MPS). This service capability ensures that Xerox delivers quality and consistent services to its customers. It also helps to identify and resolve issues before they affect the client's productivity or workflow. Overall, Xerox Service Delivery Management helps customers to manage and maintain service quality, and ensure the return on their investment in Xerox's managed print services and other document-related services.</p> <p>This capability option provides a centralised shared Service Delivery Management function to deliver service governance with accountability for escalation management.</p>	per device per month

<p>Xerox Service Delivery Management provides end-to-end management and oversight of Xerox's managed print services (MPS). This service capability ensures that Xerox delivers quality and consistent services to its customers by proactively monitoring the performance of their equipment, applications, and networks. It also helps to identify and resolve issues before they affect the client's productivity or workflow. Overall, Xerox Service Delivery Management helps customers reduce costs, manage and maintain service quality, and ensure the return on their investment in Xerox's managed print services and other document-related services.</p> <p>This capability option provides shared Service Delivery Management resource(s) who liaise with customer resources and have accountability on areas such governance, service performance, as well as respond and resolve to escalations and/or innovation requests. Three quarterly virtual Operations Review will be facilitated to the customer focusing on operational and Service Level performance and service improvement activities. One Annual Business Review focussing on Operational Performance and Service Improvement activities.</p>	per device per month
<p>Xerox Service Delivery Management provides end-to-end management and oversight of Xerox's managed print services (MPS).
