

UPDATED 02/12/07

Every two years the Oklahoma Firefighters Pension and Retirement System sends out signature letters to verify that participants receiving benefits are still living. We began this process at the end of summer 2006 and have still not received letters from the people listed below. If we do not receive the signed letters from these people by February 28, 2007, we will stop their benefits for March 2007. If you know of any of these people please encourage them to contact us and remit the letters.
