

SPORTS AND SPECIAL EVENTS INCIDENT MANAGEMENT MGT-404

Texas Engineering Extension Service
National Emergency Response and Rescue Training Center

The University of Southern Mississippi
National Center for Spectator Sports Safety and Security

SPORTS AND SPECIAL EVENTS INCIDENT MANAGEMENT (MGT-404)

This course develops athletic department staffs, facility management personnel, campus public safety personnel, emergency response supervisors, and others involved in sports/special event management to better manage incidents that could occur during an event. The course provides participants the skills necessary to effectively manage an incident by applying and implementing a multi-disciplinary management team approach as described in the National Incident Management System (NIMS). The course has specific emphasis on the unique aspects of response to an incident occurring during a sports/special event, including considerations for business continuity and after action activities. The course concludes with a practical application, role-play exercise that can be customized to the facility in which the course is delivered. It provides specific emphasis on incident action planning and resource management processes.

This course represents a cooperative effort between The University of Southern Mississippi's National Center for Spectator Sports Security and Safety (USM/NCS⁴) and the Texas Engineering Extension Service's National Emergency Response and Rescue Training Center (TEEX/NERRTC), a member of The Texas A&M University System.

Training Level:

Management and Planning

Venue:

Jurisdiction

Course Length:

Two days (16 hours)

Prerequisites:

In order to be prepared for this advanced level course all attendees must complete the National Incident Management System/incident command system training, ICS for Single Resources and Initial Action Incidents (IS-200.b), or equivalent basic incident command system training prior to attending this course. Attendees are also encouraged, but not required, to have completed Sport Event Risk Management (AWR-167) or equivalent training/experience.

Class Size:

27-40 participants

Participant Audience:

To reinforce the multi-discipline team approach, the target audience for this course will include stakeholders from:

- athletic departments;
- operators of large arenas/venues;
- campus public safety,
- campus emergency management,
- campus administration,
- campus environmental health and safety,
- campus physical plant / public works, and
- student life/affairs.
- public affairs
- sports information

The audience also includes stakeholders from communities that host, surround, or neighbor venues for sports/special events. These include:

- fire services;
- emergency medical services;
- law enforcement at the local, state, tribal, and federal levels;
- non-governmental organizations;
- local elected officials;
- public health;
- public works;
- other local, state, and federal agency representatives that would be involved in the planning and management of a sports/special event or large venue, as well as representatives from local and regional media services
