Purpose

The ASI Up-Date Training is intended only for those individuals who have previously attended the two day ASI Training. Some ODMHSAS contracts require providers to up-date ASI training every five years; this training satisfies that up-date requirement. Further, this training is intended to: enhance interviewer competencies in the correct utilization of the Addiction Severity Index in order to create an assessment driven treatment process, to provide the assessor a better understanding of the crucial considerations for ASAM patient placement, and to understand the relationship of the ASI and ASAM placement criteria in developing correctly individualized, assessment driven treatment plans. The training will also identify the process of continued progress monitoring.
