

Health Risk Appraisal VS Assessment

o Health Risk Appraisal

- o Brief screening
- o May be completed by anyone
- o May be self administered or done electronically
- o All HH clients must receive within 2 weeks for new enrollees, for grandfathered clients no later than next care plan update
- o Identifies areas for health and wellness goals
- o Identifies risk factors, provides individualized feedback
- o Links client with at least one intervention to promote health

o Health Risk Assessment

- o Full Assessment
- o Must be completed by a RN or APRN
- o Only completed if warranted by appraisal (any “flag” on the appraisal would warrant a full assessment)
- o If warranted, assessment must be completed within 30 days of new enrollee, for grandfathered clients no later than the next care plan update. May be referred to PCP for assessment within 3 months,
- o Identifies medical needs and medical follow up
