Anthony Kimble
Derek Pete
Julie Stoner
Courtney Neff
Daisy Spicer
June Eichner
Cortney Yarholar
Sam McClendon

WELCOME AND INTRODUCTIONS

Ms. Jamie Piatt called the June 16, 2010 Oklahoma State Epidemiological Outcomes Workgroup (SEOW) meeting to order.

OPNA/DATA GAP SUBGROUP UPDATE

Ms. Piatt provided the workgroup with an update on the OPNA/DATA Gap subgroup. The subgroup discussed using racial data along the lines of students selecting multi-racial instead of one race when the student has multiple races. In the process of planning for 2012 OPNA survey, we should consider planning for methods used to collect the certain data and questions. The subgroup will play an intricate part in gathering data; it will be an on-going group to advice on OPNA survey. We should discuss addressing data gaps on the strategic plan and the data gaps within each field of our profession.

SEOW DATA QUERY SYSTEM

OKLAHOMA DEPARTMENT OF MENTAL HEALTH & SUBSTANCE ABUSE SERVICES

Oklahoma State Epidemiological Outcomes Workgroup (SEOW)
United Way of Central Oklahoma
June 16, 2010

9:00 a.m. – 11:00 a.m.

MINUTES

There were discussions about the static system versus the dynamic system. The static system is not as useful as the dynamic system. There were discussions about having an on-line system for community prevention providers to pull data and analyze data at the local level. The report SEOW provides annually is not being used; we are trying to give providers and the general public a way to pull up their information easily and quickly to take to their City Council, if necessary. There was a suggestion to approach the Oklahoma State Department of Health regarding adding more substance abuse data to the OK to Share link.

NEW BUSINESS

Ms. Hawkins informed the workgroup that the SEOW Coordinator will possibly be hired by the next SEOW meeting. There were discussion to change the time/date of the meetings; this will be held off until the new SEOW Coordinator is on-board at ODMHSAS.

ADJOURNMENT

The meeting was dismissed.
