OKLAHOMA STATE TREASURER

MONTHLY INVESTMENT
PERFORMANCE REPORT

NOVEMBER 2009

SCOTT MEACHAM
OKLAHOMA STATE TREASURER

December 31, 2009

To the People of Oklahoma:

I am pleased to issue the November monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Market Conditions

Yields on U.S. Treasuries fell at the end of October as the United Arab Emirates' central bank said it would back the state's lenders losses from Dubai World's possible default. The U.S. Treasury yield curve flattened in November as the gap between long and short-term Treasury interest rates narrowed. The Dow Jones Industrial Average (DJIA) closed on month-end at 10,344, up 6.5%, for the biggest November gain since 2001. The Standard & Poor's 500 rose 5.7% for the month and the Nasdaq Composite was up 4.9%. As expected, the Federal Open Market Committee (FOMC) kept the interest rate target range unchanged at 0 to 0.25% at its two-day meeting in November. Fed officials said they expect to keep the rate "exceptionally low" for a long time, despite signs of economic recovery.

Economic Developments

The Institute for Supply Management reported that its index of manufacturing activity during October rose for the third consecutive month. The index rose to 55.7 from 52.6 in September, reaching its highest level since April 2006. A reading above 50 indicates expansion for the sector. The unemployment rate rose to 10.2% in October, the highest level since 1983. The average work week held at a record low of 33 hours and average weekly earnings were 2.4% higher than October 2008, the smallest gain since 2004. The producer price index (PPI) for finished goods rose 0.3% in October; core prices, which exclude food and energy, declined by 0.6%. The overall consumer price index (CPI) rose 0.3% in October while core prices were 1.7% higher compared to October 2008. The Commerce Department reported the trade deficit grew 18% in September to \$36.5 billion. The index of leading indicators edged up for the seventh consecutive month in October. The index rose by 0.3% after increasing 1% during September. The Conference Board's consumer confidence index rose to 49.5 in November from 48.7 in October. The first revision to the third quarter gross domestic product (GDP) indicated the U.S. economy expanded at an annual rate of 2.8% from July through September. The Mortgage Bankers Association reported the delinquency rate for mortgage loans on 1-4 unit residential properties rose to a seasonally adjusted rate of 9.64% on all loans outstanding as of September 30th. The delinquency rate was up from the 9.24% level for the second quarter and is another record high since the MBA started compiling data back in 1972. Existing home sales rose more than expected in October as buyers rushed to take advantage of the government tax credit. Purchases surged 10.1% higher than September, reaching the highest level since February 2007.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 3.11% in November and the weighted average maturity was 486 days. Funds continued to be moved out of the overnight repurchase agreement program and into money market mutual funds due to unusually low rates. The year-to-date monthly average investable base was up \$93MM to \$3.520 billion. Portfolio diversification continues to be sound. U.S. Treasuries represented 6% of holdings, and U.S. government sponsored enterprises accounted for approximately 37%. Mortgage-backed securities were 25%, Municipal Bonds were 2% and Certificates of Deposit represented 6% of assets. Money market mutual funds were 16% and 4% was maintained in overnight repurchase agreements. Link deposits (at less than 1%), State Bond Issues (at 3%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on market conditions, portfolio strategy will consist of a combination of laddered maturities and market observation for investment opportunities.

Collateralization

All funds under the control of this office requiring collateralization were so secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees, mutual fund operating expenses and fees charged by JPMorgan Chase for the Tri-Party Repurchase Agreement Program are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$3,272,069,867 and State Agency balances in OK Invest at \$2,206,091,708 for a total of \$5,478,161,575.

Sincerely,

SCOTT MEACHAM, STATE TREASURER
SECRETARY OF FINANCE AND REVENUE

Explanation of Performance Comparison November 30, 2009

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at Northern Trust ("Northern").

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
